## Food For Thought

It requires 1900 cubic feet of air to burn one gallon of oil. The Kleen-Heat motor and blower unit measures out and delivers that amount of air. The result is perfect combustion.

Don't be lead to believe that you can burn oil relying on flue draft alone; if you do, you are going to have a costly and sad experience. Invest in a Scientific and Reliable Automatic Oil Burner, the

Represented in Lake County by Heating Engineers, which assures owners of correct installations and prompt attention. Send for names of KLEEN-HEET owners in your own neighborhood.

## HUGE BEACON FOR AIR MAIL FLYERS

IS ERECTED AT MAYWOOD

Post Office Department Installs It and Public Service Co. Supplies the Current For Generator

The post office department has completed the installation of a new 500,000 candle power beacon light at the Maywood Air Field—for the guidance of air mail planes after dusk. The Public Service Company supplies the electric energy for it over a special pole line and cable to the base of the 30-foot tower on which the beacon is mounted.

Power is furnished to the light by means of motor generator set. A direct current arc provides the beam of light. Automatic thermostatic controls keep the arc regulated so that the light is always kept constant and uniform.

The purpose of this beacon is to provide a guide marker indicating the location of the air field. It is not used to provide illumination, and the lenses are constructed so that the light is concentrated in a beam and not diffused. The direct beam of light from the beacon is tilted so that it forms an angle 1 degree above the horizontal. As the distance from the light is increased, the spread of the beam is increased.

When a pilot is say 125 miles away, the spread of the beam is nearly two miles, so that if the plane is flying lower than 10,000 feet each time the beacon revolves, the pilot receives a direct flash in his eye. The beacon revolves about once every 40 seconds, so that the flyer can place the field at once by timing the intervals between the flashes. As the beam is concentrated the flash is strong and sharp.

Supplementing the use of the beacon light is the installation of 56 ground lights, outlining the landing field. After the flyer has spotted the beacon, the ground lights guide him to a safe landing on the cinder runways.

All the above described equipment is an addition to the elaborate lighting installation at this field made by the Public Service Company.

## LAKE CO. SCHOOLS GET FINES MONEY

Distribution of Funds from the Sums Collected in Booze Cases; How Divided

T. Arthur Simpson, county superintendent of schools today announced the distribution of \$12,927.80 to the various townships, the distribution representing money received from fines from States Attorney Smith's office. Supt. Simpson's report gives the amount apportioned to the various school districts and as the city of Waukegan is the largest it receives the largest single sum. Waukegan gets \$3,627.10. Others receive sums of from \$1,500 down. By the school census of last June there were 28,004 persons under school age in Lake county. The rate of distribution is 46 cents. The amounts received by the township the number of persons enumerated in these townships is given as follows:

Township	Persons enumerated	Amount
46-12	3005	\$1382.30
46-11	295	135.70
46-10	794	365.24
46-9	143	65.78
45-12	2871	1320.66
45-11	538	247.48
45-10	770	354.20
45-9	400	184.00
44-12	2007	923.22
44-11	1422	654.12
44-10	610	280.60
44-9	460	211.60
43-12	4212	1937.52
43-11	402	184.92
43-10	510	234.60
43-9	498	143.88
City of Waukegan	7885	3627.10
City of Lake Forest	1182	543.72

## ELECTRIC COOKING IN DEMONSTRATIONS

Public Service Company's Bureau of Home Economics Doing Work

Demonstrations in cooking by electricity or gas were made last month by the Public Service Company's Bureau of Home Economics represented by Mrs. Eva Hawkins Shanks at Chilliocothe and Marseilles, in each of which places invitations distributed drew an attendance of several hundred. Local newspapers and the support of women's clubs given aided in the success of each school.

The engagements of this feature of the company's service extend up to next spring. The itinerary includes Fox Lake, Morris, four towns in District "C", Antioch, Libertyville, Oak Park, Kankakee, Streator, Harvey, Blue Island, Chicago Heights, Ottawa, and Pontiac. In several of the places named the engagements are "return engagements."

A late additions to the proceedings is a moving picture exhibit. In some

cases schools have been held in local picture theatres.

These cooking schools have proved exceedingly popular wherever held. The aggregate attendance of the several days which the schools usually continue frequently have run above five hundred. A considerable correspondence made up of enquiries has developed for the bureau. Requests that its demonstrations be given have been received from a number of points. In the audiences are always to be found employees of the company, with girl employees predominating.

## THE MEMORIAL PARK The Beautiful North Shore Cemetery

NON SECTARIAN

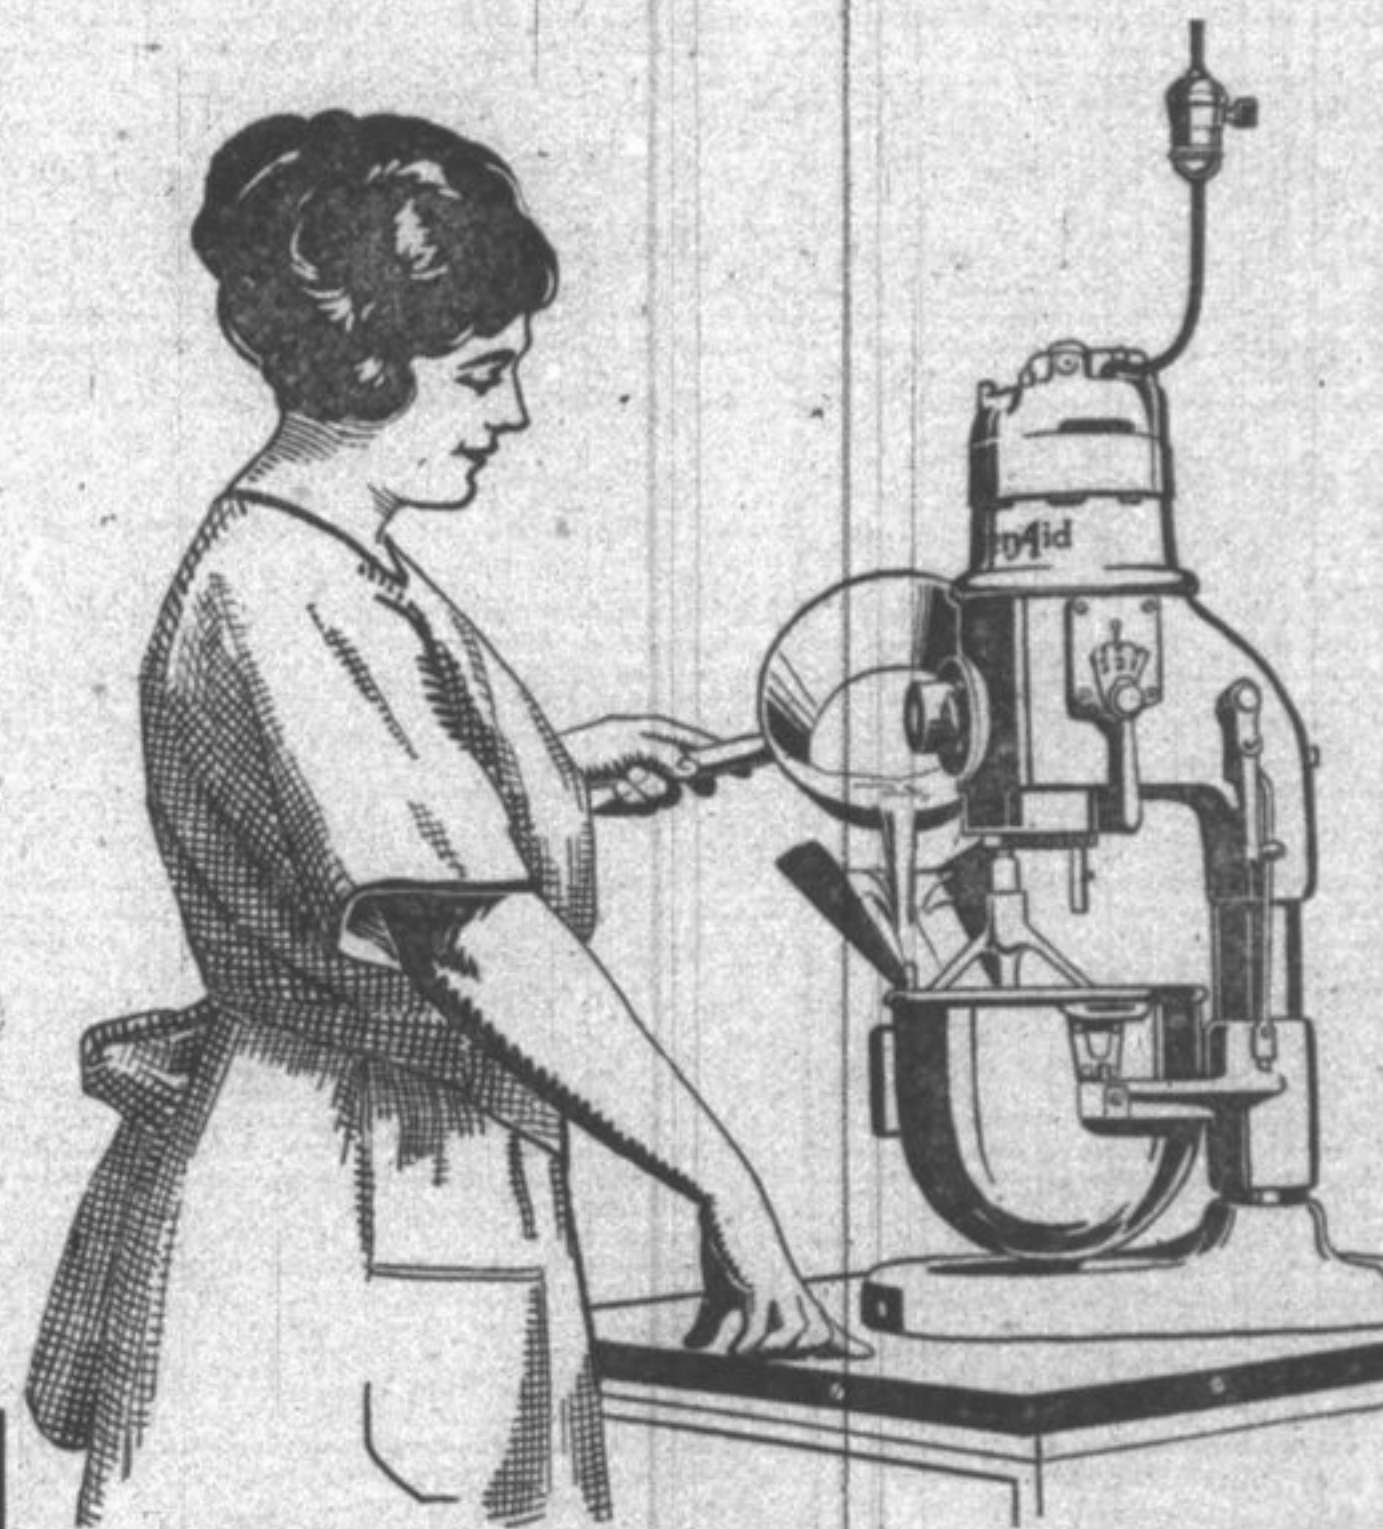

Gross Point Road and Harrison St., Evanston, Ill. Tel. Evanston 4266  
Chicago Office, 701-4 Marquette Building. Tel. Central 8330

At the Northern boundary of Chicago there is located a beautiful MEMORIAL PARK. Its founders could not have secured a more suitable expanse of ground, upon which to establish a cemetery that will for all times be a beautiful home for those who have gone before. With the comfortable office building, the magnificent chapel, beautiful front park, located on the highest part of Cook County, its flower lined walks and boulevards, jewel like lake, the abundant shrubbery and various trees, it is unequalled in its quiet dignity and beauty.

All lots are sold with Perpetual Care. Connected with Memorial Park is one of the largest perpetual care funds on deposit with a strong Trust Company of Chicago under a Trust Agreement which keeps the funds inviolable. Full perpetual care is absolutely guaranteed.

## What Kitchen Aid Does For You

- Mixes dough for bread, cakes, pie, ginger-bread, doughnuts, rolls, etc.
- Mashes potatoes—two or two down, to a wondrous fineness.
- Makes mayonnaise, (drops the oil gradually), one cup or as many as you like.
- Beats eggs and icing, batter for pancakes, waffles, etc.
- Whips cream or evaporated milk, meringues, icings, etc.
- Creeps various other ingredients.
- Beats and creams fudge, fondants, etc.
- With attachment, it freezes ice cream, sherbets, mousses, or any frozen dessert.
- It grinds coffee, chips ice, chops meat, nuts, raisins, etc.
- It strains soups, purees, through a fine sieve.
- Strains apple sauce. It is not necessary to pare or core the apples. This adds immeasurably to the flavor.
- It cores potatoes (to any desired thickness).
- Cuts shortening into pastry.
- And it retains the temperature (either hot or cold) of whatever product it is mixing.
- All of this it does—and more!

## How You Can Try KitchenAid

TRADE MARK REGISTERED

That Kitchen-Aid is an important and permanent addition to modern kitchen equipment is established by its use in the teaching of Domestic Science in the following universities and schools:  
University of Chicago (School of Domestic Science), Chicago.  
Columbia University (Teachers' College), New York.  
Pratt Institute (Dept. of Household Science), Brooklyn, New York.  
Elmira College (Dept. of Domestic Science), Elmira, New York.  
Ohio State University, Columbus, Ohio.  
University of Oklahoma, Norman, Okla.  
University of Washington, Seattle, Wash.  
Indiana State Normal School, Terre Haute, Ind.  
Miss Farmer's School of Cookery, Boston, Mass.  
Home Bureau, U. S. Department of Agriculture, Washington, D. C.

When such favorably known authorities as the Ladies' Home Journal Test Kitchen, Good Housekeeping Institute, New York Tribune Institute, Modern Priscilla Proving Plant, House Beautiful Magazine, Charm Magazine—when such authorities as these, after complete and thorough investigation, endorse a new electrical device as a time and labor saver in the kitchen, is it any wonder women want to know all about the innovation?  
Don't you want to know more about Kitchen-Aid, this almost magic electrical machine that does so much in a new and better way—what it is—what it does—how it solves your problems?  
Let us give a demonstration in your kitchen, so that you can see for yourself how it works. A postal card or the coupon below will bring Kitchen-Aid to your home at a time convenient to you. It costs you nothing nor places you under any obligation. Send the coupon today.
