

The people who take trips to Washington need not think that the president will feel injured if they fail to call and pay their respects at the White House.

Pitcher Bently of the Giants, commenting on the world's series, said: "Boys, the good Lord just couldn't stand to see Walter Johnson lose again."

CHRISTIAN SCIENCE
Subject for next Sunday's Lesson sermon "Soul and Body."
Services are held in this church 387 Hazel avenue, every Sunday morning at 10:45, Sunday school meets at nine thirty o'clock and is open to pupils up to the age of 20 years. The Wednesday evening meeting, which includes testimonies of Christian Science healing, is at 8 o'clock.

UNITED EVANGELICAL
Green Bay road and Laurel avenue. W. R. Cardwell, pastor.
Thursday, 8 p. m.—"The Judgment of the Nations." A message by Rev. C. G. Unangst.

PRESBYTERIAN CHURCH
FRIDAY—
7:00 Boy Scouts, Troop No. 3, at Lincoln school.
7:30 Troop No. 4, at High School.
8:00 Social for the Community Bible Class at the home of Mr. and Mrs. Merton Church, 362 Laurel avenue.

EBENEZER CHURCH
J. G. Finkbeiner, pastor.
The evangelistic meetings which began November 2 will come to a close next Sunday night. Evangelist Favro will remain with us until that time. He will have charge of the services on Sunday morning and evening. He has thrown himself into the work as few evangelists do, conducting the prayer meetings, children's and young people's services, in addition to the evangelistic services. The people also greatly appreciate his pictures and the musical renditions on the chimes and the saw.

TRINITY CHURCH
The Rev. P. C. Welcott, D.D., Rector. The Rev. Philip W. MacDonald, M. A., Assistant.
Sunday services—

BRIEF NEWS ITEMS FROM LAKE COUNTY

NEIGHBORHOOD JOTTINGS

Interesting Happenings About This Section of The North Shore and Doings At County Seat

Walter Lindstedt, 25, of 2320 Ravenswood avenue, Chicago, a police sergeant, was drowned last week in Bang's Lake, near Wauconda. Plans to float a \$125,000 bond issue to finance the balance of the construction and equipment costs of the new Young Men's Christian association building at Waukegan are being discussed.

Loot to a value of between \$250 and \$300 was obtained by burglars who last week broke down the door of the Lewis Drugstore in Waukegan. A most greswome experience fell to the lot of two little Area boys when they awoke one morning last week and discovered their mother, Mrs. Walter Stark, wife of the former deputy sheriff, dead on a lounge in the dining room of their home.

Joseph Sobock, 40, of 717 Broadway, Libertyville, was found dead in the bedroom of his cottage last week by two laborers who were employed with him on construction at St. Mary's of the Lake. Murder was the verdict.

Darting out of an alley, Alec, six year old son of Mr. and Mrs. Charles Bojniewicz, North Chicago, ran against the rear fender of an automobile driven by Fr. Theophile Kendziora, assistant priest of Holy Rosary church at 14th street, and was killed.

Mrs. Margaret Allen, widow of James Allen, founder of the Allen Paint and Putty company of Chicago, was murdered in her home in Barrington, Lake county, Ill., one night last week. The following night Charles Hambel, carpenter contractor, who slew her, killed himself.

SILK IN TELEPHONE CORDS
The cocoons of 400,000,000 silk worms are used each year in the production of the telephone equipment manufactured by a single American company. The cord leading from the base of every desk telephone alone requires 24 spools of silk. Many a cocoon, when unwound, yields a fibre more than four times as long as the Woolworth building is high.

Some of the people who complain about the road taxes are the same ones who help tear up the roads by overspeeding their automobiles.

Claimed that women should remain in the home, but the men are willing they should go down to the church and serve a 35 cent chicken pie supper.

J. J. Page to W. F. Hogan. WD Cons. \$10. E 50 ft of W 108-1-2 ft of N 125 ft of Blk 2, Highwood.

HIGHER POWER IN RADIO IS URGED

MANY APPLICATIONS MADE

Broadcasters Taking Advantage Of 1500 Watt Limitation; Probably Will Reduce Station List

A nation wide move toward the use of higher power in radio broadcasting has been launched, the department of commerce announced recently. Broadcasters will take advantage of the new 1500-watt limitation and will increase their apparatus to reach this degree of power.

Several Applications
Applications for 1500 watt licenses have been filed from stations in Cleveland, San Francisco, New York and Elgin, Illinois, and it is anticipated that favorable action will be taken. Other broadcasters probably will follow suit by the first of the year. Officials said that it is apparent the 500 watt standard of broadcasting, now widely used, will be superseded by a 1500 watt plane. While the range of stations will be widened no appreciable increase in interference is feared.

There are comparatively few broadcasting stations in the United States today which use over 1,000 watts power. The trans-Atlantic stations, using upward of 20,000 watts, are the chief exceptions. Development of higher power for broadcasting is expected by government experts to be among the most important features of radio progress during the new year.

Will Reduce Stations
Increased power is certain to bring a reduction in the number of major broadcasting stations in the near future, according to officials. It was stated that eventually radio will be recognized as a public utility and that the number of stations necessary will be limited to the absolute requirements. Instead of from eight to ten stations operating in the large cities two or three will answer the demand; ten to twelve super-stations would serve the requirements for the entire country, in the view of some officials.

Smaller stations will be limited in scope to their own communities, being unable for economic reasons to compete with the super broadcasters of the future.

Lower Wave Length
Use of the lower band of wave lengths, now under the reach of the usual commercial receiving set, are predicted for the receiver of tomorrow. It was pointed out that broadcasters working on only slightly different low wave lengths may operate in the same vicinity virtually without interference.

A new complication has arisen in the allocation of wave lengths by reason of demand in the rural districts for increased award of frequencies. It was first thought possible to withdraw some length from the sparsely populated areas for distribution in the large centers of population. The department of commerce has abandoned that plan.

ELECTRIC MACHINE FOR LAYING BRICKS
An electric bricklaying machine which it is claimed lays 1,200 bricks an hour, is the latest application of electric energy to industry.

Upon rails placed around the outside walls of a building, a traveling boom is set, and upon this are the mortar tank and the laying mechanism, driven by a 3-horse-power electric motor.

The laying wheel rotates, taking two bricks from the carrier, while another wheel spreads mortar as the carrier moves along the boom.

At the end of the wall the machine changes direction and proceeds as before until it has laid one row of bricks entirely around the building. The boom is then raised the thickness of one row of mortar and bricks, and another trip begins.

SENATORS' CAPTAIN IS Y. M. C. A. MEMBER
Add to the list of famous athletes who have been Y. M. C. A. members the name of Roger Peckinpaugh, captain of the Washington "Senators," winners of this year's baseball championship.

The Broadway branch of the Cleveland "Y" points with pride to the famous star's membership card, dating fifteen years, and reproduces it in a recent issue of the "Cleveland Red Triangle."

Another big leaguer, "Dave" Fultz, one-time outfielder of the Yankees, became one of the best known Y. M. C. A. workers in the country. Billy Sunday started his religious work career in the central department of the Y. M. C. A. of Chicago.

It would be a startling item of news nowadays to inform the public that certain people spent the evening at home.

Claimed the American melting pot is not melting properly, but anyway the political pot boiled very actively this fall.

The politicians made a great many promises in the recent campaign, according to the people who are looking for jobs.
