

NOTICE OF AUCTION SALE OF GOODS

Notice is hereby given to: MISS LILLIAN SUTTON and to all others that may be interested herein, that there will be sold at public auction at the warehouse rooms of the HIGHLAND PARK TRANSFER & STORAGE COMPANY, 374 Central Avenue, Highland Park, Lake County, Illinois, beginning at ten o'clock in the forenoon of the tenth day of December, 1924, to satisfy the warehouseman's lien now held by the undersigned, against

MISS LILLIAN SUTTON covering the goods, chattels and merchandise, and all other effects and things which are now in storage will

then be offered for sale to the highest and best bidders in separate or bulk lots, as follows:

Chairs, rockers, upholstered chairs, mahogany table, baskets, white chair, wicker chair, dining table, beds, springs and mattresses, wicker table, chiffonier, and other household goods.

Rights reserved to reject any and all bids. Highland Park Transfer & Storage Company, 374 Central Avenue, Highland Park, Illinois. 38-39

Cal Coolidge is not called much of an orator, but anyway his silence is considered eloquent.

SOME DIFFERENCE

Illustrating the difference between producer and consumer prices a national weekly quotes two newspaper advertisements of damson plums, one from Osborn, Mo., at 15 cents per gallon, the other from Washington, D. C., at 60 cents per quart.

Unfortunately the man who demands that millions be appropriated for public improvements, will often fail to contribute a dollar when you ask him for a subscription for some good local cause.

No one so far has complained because of the hilarious way in which President Coolidge took his victory.

DEERFIELD-SHIELDS LOSES TO WAUKEGAN

IN HOME-COMING CONTEST

Looked Like Win for Locals, But Referee Thought Different Deerfield Led Until Near End

Fighting to the last, the Deerfield-Shields gridders went down to questionable defeat Saturday in the Home Coming game with Waukegan high. The final score was 7 to 3 in favor of Waukegan, but spectators at the south end are certain that it should have been 9 to 7 in favor of Deerfield, as in their view the pass called back by the referee in the third quarter was safe. It was claimed that the ball was touched by a Waukegan player, but those who saw the play are sure this was not so and think the ball should have been Deerfield's. However, the referee thought differently, and Waukegan's touchdown in the fourth frame decided the game, after Deerfield had held the lead from the outset with a field goal in the first quarter.

The game by quarters was as follows:

First Quarter
Robbins kicks off and the ball is run back to the 20 yard line. Waukegan makes first downs two successive times. Plummer tries a pass but Joe Boylan leaps into the air and intercepts it. Tillie Martin punts on the third down and it is Waukegan's ball on their 20 yard line. Plummer returns punt to the 20 yard line on the second play. Passes push ball to the ten yard line and Dever goes in to kick a field goal which gives Deerfield 3. Dever kicks off and hits Waukegan player on back and ball is recovered by Deerfield.

Second Quarter
Deerfield fails to make yards and Waukegan gets the ball on the 20 yard line. Waukegan takes the ball to the 30 yard line where Cote fumbles and is tackled on the 40 yard line. Plummer punts to the 10 yard line and after three unsuccessful plays Martin punts to Waukegan's 30 yard line. Waukegan completes two passes and the whistle blows for the half.

Third Quarter
Robbins kicks off. Waukegan's next three plays net nothing and Plummer punts outside on the 40 yard line. Martin executes a 30 yard run around end. Martin passes over goal line to Carr, but the referee brings ball back and gives it to Waukegan on the 20 yard line. Waukegan makes three first downs in succession as the third quarter ends.

Fourth Quarter
On the 15 yard line Waukegan carries ball to 5 yards from the goal where Deerfield holds them for three downs but finally succumbs to the onslaught of Plummer who goes over for the only touchdown of the game. Precator kicks the extra point and the score is Deerfield 3, Waukegan 7. Waukegan kicks to Joe Boylan who carries the ball to the 20 yard line. Martin punts to Waukegan's 20 yard line. There Waukegan fumbles and Abe Carr recovers the ball. Waukegan holds Deerfield for downs as the whistle blows.

The Lineup

Deerfield	Waukegan
Carr	Drew
McClure	Olson
Gastfield, Bahr	Peters
Olson	J. Lewis
Spellman	Hucker
Robbins	Podjunas
Martin	Macklin
Gifford	Fitch, Crawford
Joe Boylan	Cote, Precator
John Boylan	Alexonis
Lindenmeyer, Dever	Plummer

NEW DEVICES USED BY PUBLIC SERVICE

At the Public Service Company Gas station at Niles, west of Evanston, a new condenser and a new shaving scrubber are each in operation, contributing their part to the plans of providing for the increased demands on the plant. These additional machines will materially help the operating problems created by the demand aforesaid.

Niles station, one of the most important manufacturing plants in the company's system, supplies a large territory extending to Evanston and Wilmette and to the towns north of Park Ridge to Wauconda. Here are many towns, practically all of them growing rapidly as more and more people migrate from Chicago to the suburbs for their homes. Gas starts from Niles, through the main to Park Ridge and north under 35 pounds pressure, the necessary reduction made by friction in the line and by withdrawals of the fluid as it goes into use. Pressure in the Evanston line being much shorter is, of course, much below that in the northwestern line.

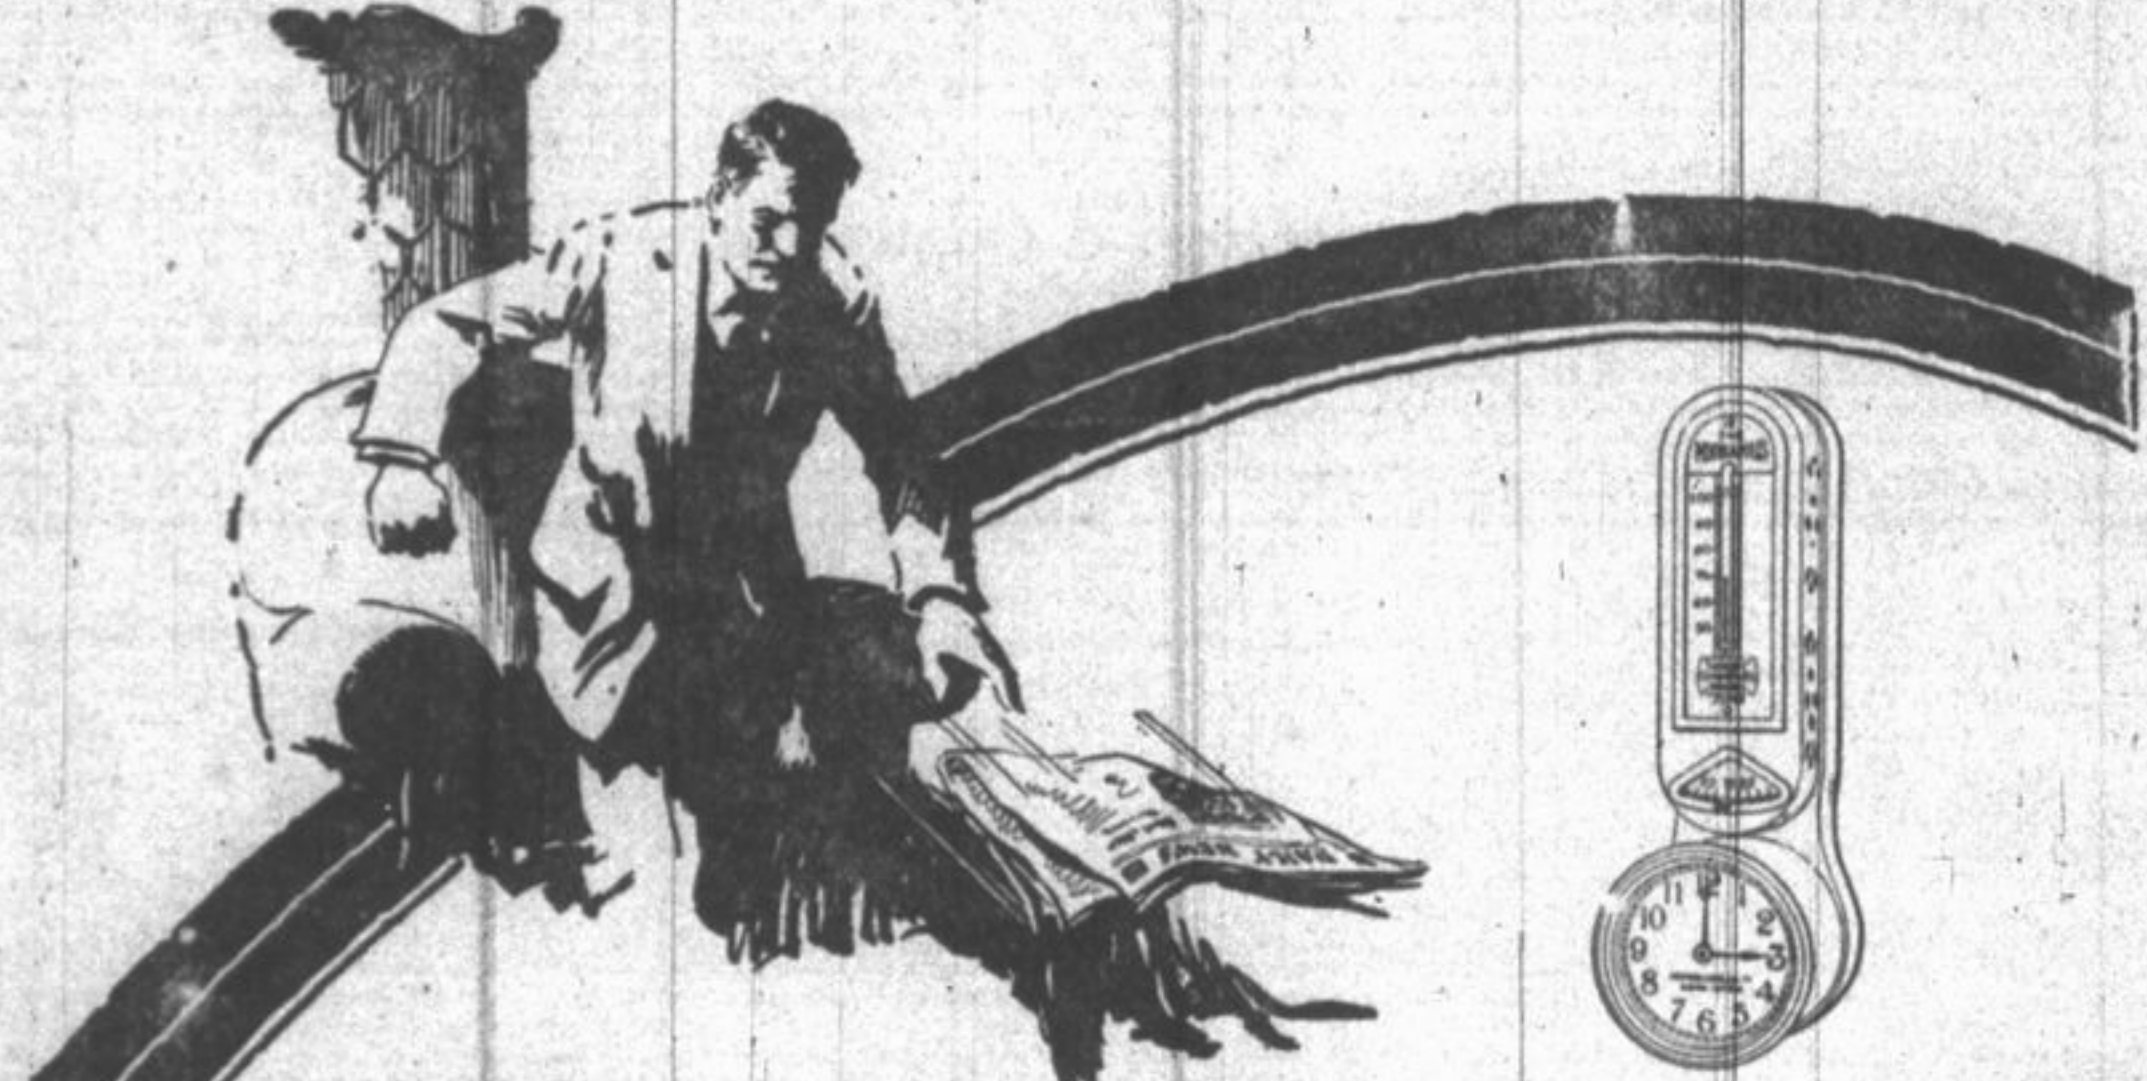

A new compressor is at work in the Ottawa gas station. It facilitates the supplying of the demand on this plant—a demand that has increased considerably.

High powered radio stations will soon be entirely discarded, owing to the discovery that low powered stations using very short wave lengths have greater efficiency with only a fraction of the cost, declares Marconi, the great inventor. The short

wave lengths permit greater speed in sending, are almost never affected by atmospheric conditions and they afford a wider range of wave-lengths, which will lessen interference between stations.

His whole evening was spoiled

It was one of those evenings he had reserved for himself—an evening at home with his library. But hardly had he settled into his easy chair before his sigh of contentment changed to a shiver. The room was chilly. He felt of the radiator. It was cold. Someone had forgotten—left the draft open—and the fire had burned out completely. So most of his evening was spent in the disagreeable, messy job of building a new fire and making numerous trips to the basement to nurse it along.

With the Minneapolis Heat Regulator in charge of the heating plant this never would have happened. The "Minneapolis" operates dampers and drafts automatically. Keeps rooms at an even, healthful temperature. Changes to a lower night temperature. Accurate, dependable. A 39-year old product serving hundreds of thousands of home owners. Easily installed on any heating plant burning any fuel. If you are buying or building a home, insist that it be Minneapolis-equipped.

Pay This Easy Way

For a small down payment, we will install the Minneapolis in your home. Then you pay a small amount each month. The fuel saved by the Minneapolis makes it a paying investment—and most people say that is

incidental to the other benefits. Don't go through another winter without automatic heat control. Ask for full information and booklet "The Proper Operation of the Home Heating Plant." Write, call or phone today.
