

DEERFIELD

The inefficient teacher, who in order to ingratiate herself with the parents of pupils, and members of the school board, visits them, "palavers over them," and uses her wiles to strengthen her position, was denounced by Mr. A. M. Locker of the International Council of Religious Education, who spoke at a meeting in the Presbyterian Church lecture room on Sunday afternoon, to teachers of the Evangelistic (Bungalow) and of the Presbyterian Church Schools.

The Garden Club of Deerfield met Jan. 21st at the home of the president, Miss Sadie Galloway, with Mrs. Newcomb as leader. The subject was "Reports of Gardens of 1924 and Plans for Gardens for 1925." The program for the year as outlined by the program committee was discussed. Four new members were voted in. The third amendment reading: "Any member absent for three consecutive meetings will be dropped from the membership" was stricken from the By-Laws. The next meeting will be held Feb. 18, the hostess to be announced later.

Mr. and Mrs. Albert Franken and family are leaving for California this week.

Mrs. A. R. Warner and two daughters, Anne and Jane, have returned from Sandusky, Ohio.

Mr. Edward K. Williams sent four of his water color paintings to the New York Water Color Exhibit, and all four were accepted—the only pictures of any Chicago artist that are on exhibition this year.

Miss Minnie Tennerman of Wisconsin, was the week-end guest of her brother, William Tennerman, of Oesterman avenue. Miss Tennerman graduated from the Milwaukee Normal School Friday, and will teach fifth grade in one of the Sheboygan, Wis., schools.

Mrs. Carl Anderson was hostess at luncheon on Saturday and at a dinner Sunday evening to members of the Deerfield Grammar School faculty.

Mrs. Harry Muhle entertained for the teachers on Friday evening.

Miss Martha Jeppson entertained the Wednesday Evening Bridge club at the William Galloway home last week.

Mr. and Mrs. Chester Wolf were the guests of Mr. and Mrs. A. Uptadel of Wheeling, last Wednesday evening.

Mrs. Robert Pettis attended a teachers' meeting of Division Three of Cook County on Friday at the Glencoe and Wilmette Schools.

Mr. and Mrs. G. A. Willen of Springfield avenue have a daughter born last week at the Highland Park hospital. There are two more cases of scarlet fever in Northbrook among the school children.

The small pox epidemic in Deerfield has been checked and no new cases were reported this week.

The twenty-three-year-old son of Mrs. Emma Schiller was killed in Chicago Wednesday when the truck he was driving collided with a car. Mrs. Emma Schiller, who has been in ill health, has been living with her sister, Mrs. William Haggie, for the past few months. Mr. and Mrs. Haggie and Mrs. Schiller left on Friday with the body for Iowa.

Mrs. George Deck attended a luncheon for associate matrons of the Order of the Eastern Star last Monday at the Morrison Hotel in Chicago.

Mrs. Edward Gayne (Vera Plagge) was taken to the Evanston hospital Friday where she will undergo an operation. Mrs. Gayne's month-old son is with his grandparents, Mr. and Mrs. William Plagge.

Miss Ruth Rockenbach spent the week-end with Miss Anna Lindstrom at Beloit College.

The Royal Neighbors will give a card party at the Deerfield Temple Saturday evening, Jan. 31.

Eugene Becker was ill the first part of the week. Willard Benson took his place at Thierbach's store.

Miss Irene Rockenbach attended a committee meeting of the Children's Division Work of the International Sunday School Council of Religious Education Thursday and Friday in Chicago, visiting at the home of her father, George Rockenbach, during her stay in this vicinity, and returned to Lansing, Mich., on Saturday.

The Modern Woodmen and their wives were entertained by the Royal Neighbors last Thursday evening at the latter's installation.

Robert Pettis is ill with pleurisy.

Manufacturing interests trying for more output, while the ball players desire more put-outs.

BIGGEST YEAR IN HIGHWAY BUILDING

STATE MAKES ROAD GAIN

Illinois Mileage Is Greatly Increased During 1924; Extensive Equipment Is Utilized

The most successful year in road building Illinois has ever experienced has just closed. During 1924, this state constructed a greater mileage of hard surfaced roads than any state ever has in any one year, establishing a new world's record for the third consecutive year. In the past year, Illinois completed 1205 miles of pavement, exceeding by 120 miles the 1923 record.

From June 1st to October 30th, an average of 45 miles of pavement was built each week. In one week construction attained a maximum of 63 miles, surpassing the record week of 1923 by 5 miles. Another world's record was made when 2671 feet of standard 18 foot pavement was laid with one mixer in one day.

Large Equipment Used During the peak of the construction season, 119 large paving mixers were operating on the highways throughout the state. 11,000 men and 3,000 teams were employed directly on road work.

Unprecedented road building accomplishments of the past year were made possible by Governor Small's vigorous support of the highway program and his foresighted policy of awarding contracts for road building in the previous fall and winter months. This has enabled contractors to set up their plants and store materials before the construction season begins, with the result that no trouble from material shortages, car shortages, or other adverse conditions of the construction season are encountered.

Maintenance System Construction, however, has not been the only phase of road work in which Illinois has excelled. The road maintenance system has been further perfected, and every effort has been made to safeguard our highway investment. During 1924, approximately 3200 miles of pavement have been maintained by the state. In addition to this, last year the state undertook the maintenance of all uncompleted portions of the bond issue road system and all detours around construction. Approximately 2200 miles of unimproved bond issue roads and detours were maintained by the state.

Through its highway marking system, Illinois has made it possible for the motorist to travel in any part of the state without the discomforting experience of being lost frequently. By means of the publication of maps, road condition bulletins, and similar information, Illinois affords its highway users a service which is not approached by any other state in the union.

PLAN TO IMPROVE ROADS NEAR CITY

Regional Association Taking Interest in Highways of This District

Co-operation of the highway authorities of the region around Chicago has brought forth a tentative plan for the construction of new roads and the widening of present highway pavement. This plan has just been released in pamphlet form by the Chicago Regional Planning association, an organization of county, city and village officials of the region within a radius of approximately 60 miles from the center of Chicago.

Heading the Chicago Regional Planning association is Dwight H. Perkins, father of the Cook county forest preserves, who as president is adding to his many years of fine public service by putting into action this co-operative organization of the public officials who are charged with the orderly development of the Chicago region. Vice presidents of the body are Charles S. Peterson of the Cook county commissioners, John S. Clausen representing Lake county, Indiana, Frank E. Ayres of Du Page county commission and among the directors are Major Rufus W. Putnam, U. S. army, Prof. Charles E. Merriam, of the University of Chicago, Lorado Taft, sculptor, Mrs. Harold L. Ickes, of the Woman's City club, W. F. Hodges former mayor of Gary, Ind., H. E. Gunn, prominent Chicago Heights manufacturer, John S. Miller, president of Winnetka, and Wm. Luke of the Kenosha county, Wisconsin, county commissioners.

What the Chicago Plan commission, under the remarkable and far visioned leadership of Charles H. Wacker, has accomplished for the city of Chicago, the Regional Planning association will do for the entire region, as far east as Michigan City and La Porte, Indiana; south to Kankakee; west to Joliet, Aurora, Elgin and Harvard and north to include Lake Geneva and Kenosha, Wisconsin.

But teachers would usually prefer to have their compensation come direct from municipal treasuries, so that no family could claim special attention for its children merely because they contributed liberally.

BRIEF NEWS ITEMS FROM LAKE COUNTY

NEIGHBORHOOD JOTTINGS

Interesting Happenings About This Section of North Shore; Doings at County Seat

"One year to life in the penitentiary at Joliet" was the sentence given in Circuit court, last week to Demink Enrico, 40, the Samson of Italy, when he entered a plea of guilty to murdering his roommate, Joseph Sobock, 32, with an axe during a drunken brawl in their cottage at Libertyville, Nov. 10.

Another realty deal involving Deerfield property was recorded recently. H. John Griffith and wife of Lake Forest, transferred a farm, lying east of Telegraph road, Deerfield, to August C. Babize. The reported consideration was \$20,000. A number of large deals have been consummated lately in Deerfield.

Bogus federal agents, who are said to have flashed stars, have been working in Lake county, according to advice from agents out of the federal prohibition department headquarters in Chicago.

Mrs. Samuel Yompolsky, wife of the proprietor of the Fox hotel, today was given judgment for \$2,500 in the circuit court against Mrs. Elizabeth Powell for injuries she received when a porch collapsed several years ago.

The Christmas Eve program that was broadcasted from the Zion radio station was heard distinctly in Salem, Alaska, a distance of perhaps five thousand miles, according to word that has been received in Zion.

Plans of the Waukegan Elks lodge for a \$250,000 building are taking form. At the regular meeting last week the building committee submitted a resolution, the carrying out of which they pointed out, would make it possible to start actual building within two years possibly much sooner.

Mrs. Mary Sonley Baker, who makes her home with her daughter, Mrs. J. L. Redding, 807 Grand avenue, Waukegan, last week celebrated her 90th birthday anniversary. Mrs. Baker is a distant relative of Rudyard Kipling, noted English author, she being a first cousin of Kipling's father.

Waukegan's fine new \$300,000 Young Men's Christian association building was fittingly dedicated "to Christian Manhood" recently, when a crowd of 1,000 people gathered to take part in the ceremonies.

GAME CONSERVATION PROSPECTS BRIGHT

Indications Are That Illinois Legislators Will Aid In This Direction

Sportsmen from all sections of the state are enthusiastic over the prospects for a successful year in game and fish conservation, says C. F. Mansfield, Jr., secretary Federated Sportsmen of Illinois.

Representative Robert Scholes of Peoria who has been elected speaker of the house of representatives is a genuine sportsman and for many years has been one of the leaders in the fight for constructive conservation. Mr. Scholes in an interview stated that he hoped to see the 54th general assembly make a record in legislative and in furthering the establishment of game preserves, fish hatcheries and public shooting and fishing grounds. He also expressed his appreciation of the many congratulatory telegrams and communications which he has received from sportsmen in all parts of the state.

Lieutenant Governor Fred E. Sterling, who presides over the deliberations of the senate is also well known among sportsmen as a supporter of constructive game and fish legislation.

Senator Richard J. Barr, newly elected president pro tem of the senate has an enviable legislative record in constructive game and fish legislation. Senator Barr has also expressed his desire to do all in his power to further the interests of conservation and to serve the sportsmen in their efforts to make Illinois the leading state in conservation of our outdoor resources.

SOUP KITCHENS FOR REFUGEE CHILDREN

Owing to the great suffering in the Greek refugee camps during the recent severe weather, the Near East relief announces that authorization has been received for the feeding of several thousand children throughout the remainder of the winter.

Soup kitchens will be opened in many of the larger camps to provide one hot meal a day for children only. At the beginning, the plan will reach about 7,000 children, but this number will be extended as additional funds are obtained in America for this purpose.

LONG RECORD FOR SERVICE IS SHOWN

Western Electric Employees Are Noted For Sticking To Their Jobs

The Western Electric company, the manufacturing branch of the Bell System, which manufactures more telephone equipment than any other company in the world, has a remarkable record for long service among its employees. As many as 12,038 people now connected with Western Electric company have been with the company for five or more years of service. Three employees have been with the company for forty-five years, and eleven for a period of forty years. Forty-two employees show a record of thirty-five years of service and 120 have been employed continuously for thirty years. Two hundred and twenty-nine have been with the company for a quarter of a century and 701 for twenty years. The figures for fifteen, ten and five years are 1320, 2827, and 6785, respectively.

FOR APPALACHIAN NATIONAL PARKS

Move to Set Apart 1200 Square Miles in Tennessee and North Carolina

An area of 1200 square miles in the Appalachian region, partly lying in Tennessee and extending into North Carolina, now is being considered for the location of a national park, it was learned from Tennessee state officials, who have made two surveys of the section with four members of the Appalachian Park commission, appointed by the Secretary of the Interior to inspect the section.

The only criticism offered was the inaccessibility of the section, but that could be overcome by the construction of highways, the state geologist said. State officials estimate that the purchase of the region for a park by the government would cost between \$5,000,000 and \$10,000,000.

AUTO DRIVER GIVEN 20-YEAR SENTENCE

Kenosha Court Imposes Heavy Penalty; Motorist Charged With Killing

Judge F. B. Belden, at Kenosha, last week, sentenced Edward Thomas, 22, to 20 years in prison after he had pleaded guilty to charges of manslaughter in the first degree in the killing of former Coroner Truman T. Parker and his daughter, Jane, last September.

Thomas was the driver of the automobile which struck the former coroner and his daughter.

Mr. Parker and the girl were left in the street after the crash while the car sped away. Thomas was later apprehended through the confession of one of the occupants of his auto. Testimony of others in the party showed that before the tragedy they had made the rounds of Kenosha saloons and had been drinking heavily.

Three occupants of the car are facing charges of being accessories after the fact.

Edward Newman, another member of the party, committed suicide two weeks after the accident.

TURKS SEEK SHARE IN COOGAN GIFTS

The Turkish government is being urged by local newspapers to demand from the United States government a share of the money and supplies raised by Jackie Coogan last summer for Near East relief work. The Daily "Republic" of Constantinople says: "Jackie Coogan raised these supplies from Americans to be distributed without distinction of race or religion. No doubt this lovely child expected that the funds would go to the neediest throughout the Near East. But the distribution is being made mainly to our enemies, the Greeks and Armenians. A fair share of these articles, consisting mainly of

for the needy of this country," food and clothing, ought to be turned over to the Turkish government

ARMENIAN BOY IS MECHANICAL GENIUS

An illustration of the ingenuity of the Armenian orphan boys in the orphanages of the Near East relief is given in an official report received from Russian Armenia, where a ten-year old Armenian boy has built an automobile entirely by hand. The boy is a student in one of the American training schools at Alexandropol, the largest orphanage in the world. He made every part of a four-foot automobile by hand—the one-cylinder engine, steering apparatus, two gears, and rope tires. Given a cup of gasoline, the car ran, much to the delight of the children and the special gratification of the American instructors in the orphanage machine plant.

What is it? What is it that's small Covers many a mile; Costs but a few cents, And always in style? A "Want Ad." What is it that tells What you'd like to say To buyers of what-nots, And able to pay? A "Want Ad." What is it that finds you A house, farm or lot, An auto to ride in, A chair, bed, or cot? A "Want Ad." Or if you should lose A purse from your pocket; What finds your lost pet, Your watch, or your locket? A "Want Ad." And when you are idle And looking for work, What tells the employer You are a good clerk? A "Want Ad." Kenosha Evening News.

There is said to be much high stepping in society, but it does not help lift one up the ladder of success.

CLEARANCE Here's the Big Sale Event You have been Waiting for,— the Clearance of All 1924 Merchandise—Even That Arriving Only Last Week! Your Big Chance to Save! We Want to Start 1925 With a Clean Slate! EVERYTHING MUST GO! New Goods will soon be here. That means we must clear our stock of all remaining winter merchandise. Therefore, this Clearance Sale that will send away all those who attend happy in the knowledge that they brought extremely low prices.

Entire Stock Reduced	Style and Economy Fittingly Combined	Here is the Climax of Value-Giving!!!
