MARTIN C. HART,  
Notary Public.

Another good way to celebrate Clean-up Week is for bolshevik element to remove their whiskers. Demand for better lighting facilities does not mean that the citizens should get lit up. Claimed that not merely do the politicians throw dust in the eyes of the people, but that they then sell 'em the remedies for taking the same out of their eyes again. The man who thinks he has the inside track, usually finds he has to cover the rest of the distance on his own legs.

## URGING DOMESTIC GROWING OF RUBBER

### SUPPLY IS CONTROLLED

Great Britain and Colonies Produce 80 Per Cent and America Uses 75 Per Cent Of the Output

Harvey S. Firestone more than two years ago predicted a rubber shortage, and said the British crude rubber restriction act would cost the American people millions of dollars. The British colonial possessions in the Far East produce about 80 per cent of the world's supply of rubber, while American manufacturers consume about 75 per cent of the world's supply.

In Florida Mr. Firestone has just returned to Akron, Ohio, after making a survey of possibilities of growing rubber in Florida, where he was accompanied by rubber plantation experts. On one of the tours of Florida he was accompanied by Thomas A. Edison, who made some important suggestions relative to new methods of extracting the latex or sap from rubber trees, plants and shrubs.

Rubber trees growing on the Edison estate in Fort Myers were examined, as well as those on the Ford estate in Fort Myers and the Ford farm near Labelle, Fla. A great deal of time was spent on the Government's Experimental farm near Coconut Grove, Fla., where many varieties of rubber trees are being grown. Some of these appear to be very promising.

Of Vital Importance "Rubber is of vital importance to highway transportation," said Mr. Firestone, "and is largely responsible for our business prosperity. The British restriction act now limits production and exportation to one-half of normal production. Rubber today is about 200 per cent higher than it was when the restriction act went into effect. Rubber restriction this year will cost American car owners at least \$100,000,000, and very likely \$300,000,000. Every ten-cent advance in the price of crude rubber means an additional burden of about \$75,000,000 to the car owners of the United States."

Secures Appropriation Mr. Firestone was instrumental in having Congress appropriate a half million dollars for the investigation of new sources of rubber supply, and he sent out several expeditions at his own expense to visit rubber producing countries, including the Philippines, Central America, Mexico and Africa, and he has today in Liberia, on the

west coast of Africa, a complete organization operating a plantation and making plans to produce rubber on an extensive scale.

### STUDENTS DEVOTING TIME TO RELIGION

Northwestern University Team Doing Gospel Work In Many Places

Thirty Northwestern University students have been devoting themselves during the current year to gospel team work, have visited twenty-two places and reached a total visible audience of 1,000 people, is stated in the report of Wesley Israel, retiring president of the university "Y", who has just turned over the reins of office to his successor Wright Bakke.

"These gospel teams have visited all types of churches, from the very lowly discarded store, housing the negro mission on Eighteenth street, Chicago, to the more attractive church in Irving Park," explained Mr. Israel who is a senior student in Liberal Arts. "Greatest stress has been placed upon young people's meetings. Three men are taken on each trip and occasionally the group is joined by a soloist."

An innovation leading to more general interest in religion has recently been established at Northwestern and consists of discussion groups under the direction of the University "Y" in nine fraternity houses and one open dormitory, Mr. Israel reports. In addition, a Freshman "Y" Council at Northwestern University recently opened a discussion of its own, scheduled five meetings on religious topics and successfully carried them out. One freshman group has been held weekly in the "Y" office under the leadership of head football coach Glenn Thistlethwaite.

Among those entered for endurance tests are the neighbors of some who are practicing on musical instruments. The poets sing "All Hail" to the spring season, but we don't want any hail on our spring flowers.
