Here is an apportunity for the smaller investor:

Since October 1st we have sold over 7000 acres of the Gladeview Farms-these tracts have been sold in 40 acre pieces.

We have had nothing to offer to the man who could not afford to purchase 40 acres UNTIL NOW.

We have decided to syndicate three sections of these wonderful farm lands and sell it in units, each unit priced at \$500 cash.

This will enable anyone who wants to make a small investment the same opportunity as those who are able to buy more. Call at my office and let me explain in detail.

The idea of having a Hospital Day is to bring to the community the realization of what the hospital does and how it does it. In our growing community publicity is needed for our hospital not only to let our people know that there is an institution of such high quality and standard, but to educate and inform the public concerning the function and scope of our hospital. The care of the sick and the injured s the chief work of a hospital, and having it at our very threshold, has enabled the physicians, surgeons and nurses to save the lives of many of our people. Every home in Highland Park should know about the Highland Park hospital. It is there for the purpose of rendering service to the community and is en-
