

# The Truth About Oil-Burning

Today there is no longer any question as to the ADVANTAGES of oil-burners. But in the maze of conflicting claims of many makers, it now seems difficult to decide WHICH oil-burner will be best. And yet—knowing the facts—the solution is simple.

There are over 1200 oil-burners on the market. But, as in every other industry, there are only a FEW leaders.

You want no oil-burner, certainly, that is not passed by the Underwriters' Laboratories. Then note these facts—

Out of only 24 automatic oil burners listed as standard by the Underwriters' Laboratories—13 models are Kleen-Heets!

Most makers have but one or two sizes that they try to adapt to all types of homes, large or small. Kleen-Heet has the widest variety of sizes and models of any oil-burner manufacturer. You get the size and model exactly adapted to your particular type of home.

## GOV. CONTROL FOR INDUSTRY FAILURE

Government control of trade and industry, a cardinal principle of sovietism, has failed even when tried under the most propitious conditions, according to reports which have just come to this country from Russia. That this principle is a failure is admitted by two of the foremost leaders of the soviet Russian government.

Indicating the collapse of this one of the cardinal principles of sovietism, established by the late Premier Nikolai Lenin, is the announcement of Leo Kamenoff, acting premier, who said:

"At the present juncture the 'trade desert' which exists in certain regions of the soviet union is more harmful and dangerous to the economic structure of the socialistic state than private capitalists."

Even more outspoken is M. Dzerjinsky, head of the supreme economic council, which has instituted reforms re-opening Russia to private capital. Although explaining that he had no sympathy with private capitalists he asserted soviet Russia could not exist without the participation of private traders in the general trade of the country. He added:

"The great aim before the government force us to admit that our previous economic policy was a mistaken one. Our source of strength is in the very fact that we are not afraid to admit our defects."

## MILWAUKEE PLANS MANY PLAYGROUNDS

That no child in the city will be more than a half a mile from a playground is the goal set by the park and playground officials of Milwaukee. Three kinds of play spaces are planned: Those equipped with apparatus for small children; playgrounds with small baseball diamonds and space for basketball; and athletic fields with regular baseball diamonds, football fields and tennis courts.

## Ask Us to Send This Book to Your Friends

Someone you know may be considering the choice of a family burial spot. Ask us to send them a new book of Rosehill. Pages of pictures and text offer a remarkable study of the city's most beautiful cemetery and mausoleum. Ask your friends to suspend choice until they have seen this book and made a visit to Rosehill. They will have all the years ahead to congratulate themselves.

Send us your address and we will mail you this book of Rosehill.

Rosehill is supported by a Trust Fund of nearly two millions of dollars, and a Perpetual Charter granted by the State of Illinois.
