LAKE FOREST, ILLINOIS

FLORIDA

"Go West, young man, go West!" advised Horace Greeley, and there was sound common sense in his advice—for the West was a great un-

peopled territory in those days, elamoring for population, and oppor-

Westward, then, the course of Empire took its way, until great commonwealths arose beyond the Mississippi, kingly cities came into

neglected garden of Paradise, well watered, luxuriant, blessed of sun and sky, where Winter was unknown, and Spring forever present. Its fertile acres, rich as the Valley of the Nile, its hundreds of miles of coast line laved by Summer seas, its great harbors that could house a nation's commerce, awaited the coming of men of vision.

Such men eventually found Florida. They made it known to the rest of their countrymen. And today the tide of emigration is pour-

ing South in ever growing numbers. Whole families, neighborhoods

ing South in ever growing numbers. Whole families, neighborhoods and even communities are fleeing the bitter northern winters, the overcrowded cities, the earthquake, the tornado, the drougth, and taking up their new homes and business in this unequalled land of opportunity. With this great inrush of people, property values will double and treble within the next few months. A carefully selected investment now, even a very small one, will assure your future independence. This may be your last real opportunity. DO NOT DELAY. TELEPHONE 444 or 1649 for appointment. Let me explain in detail.
