EXECUTIVES WILL BE GLENCOE GUESTS

HOMECOMING AUGUST 27

Mayors of Six North Shore Cities to Be Honored at the First Annual Festival

Mayors of six north shore towns and villages will be the guests of Glencoe at its first homecoming celebration to be held August 27. At a meeting of the committee in charge of the event last week, final plans for the big event were laid. The mayors of the towns will be the special guests of Glencoe, it was decided.

Two thousand former residents of the village will be invited back to the homecoming. The invitations are now being prepared and will be mailed out during the week.

"Boost Glencoe," Slogan "Boost Glencoe" was the slogan adopted by the chamber of commerce, which is sponsoring the homecoming

celebration. A parade of floats and patriotic civic bodies will be held in the morning. The parade will form at ten o'clock at the Glencoe public school at South avenue and Greenwood street. The line of march will be announced next week.

Village officials have promised to co-operate with the chamber of commerce in staging the celebration. Lake front park will be turned over to the homecoming throng. Here the main part of the program will be staged. Two bands that have been secured for the day will give concerts both afternoon and evening at the park.

Peter A. Jans of Evanston, and a members of the Glencoe Chamber of Commerce, has been appointed chairman of the general committee which will outline plans for the event.

The differences between the league of nations and a hard rain is that a hard rain could stop the fighting in China. Cincinnati Enquirer.

A structure, begun in Peru ten thousand years ago, is yet unfinished. Must be a government job.—Kansas City Star.

LET CONTRACT FOR NEW SEWAGE PLANT

Chicago Firm Will Build Lake Forest Disposal System for \$48,993

The contract for the building of the new sewage disposal plant for Lake Forest was awarded Tuesday by the North Shore Sanitary District board to Hallbauer-Lebahn, Chicago, for \$48,993. The contract for the plant at Waukegan was let at the same time for \$78,515.

Work on the new plant will begin immediately and will probably be completed within ninety days. The present sewage disposal system is overtaxed about 100 per cent and it is essential that the new plan be installed as quickly as possible. The old structure will be used temporarily as a digestion chamber. An improved chlorinating arrangement will be a part of the new system, and it will be made sufficiently large to take care of the sewage of Lake Forest for the next ten years, it is estimated.

NORTH SHORE NEWS

Mr. and Mrs. J. A. MacLean of Greenwood avenue, Wilmette, are spending some time in Montreal, Canada, this summer.

A visitor in Glencoe who is being honored at numerous social affairs is Miss Eleanor Andrews of Brooklyn, N. Y., the guest of her aunt, Mrs. Louis C. Mowry, 885 Bluff street. She is a student of Smith college. Miss Andrews was entertained at luncheon and bridge on Friday by Miss Doris and Miss Inez Hill at their home on Lakewood avenue in Glencoe. Miss Gwendolyn Washington, Beach road, Glencoe, was hostess for Miss Anne Skokie club dance on Saturday draws at the Skokie Club dance on this week Miss Ruth Mills entertained Saturday evening. On Tuesday of ed at luncheon and bridge at the Skokie Club.

Miss Jane Warner, daughter of Mr. and Mrs. Ezra J. Warner, is visiting Mr. and Mrs. Albert de Wolf Erskine, at Desbarats. Before returning to Lake Forest, she will visit Mr. and Mrs. Robert J. Thorne at their camp in Desbarats. Mr. and Mrs. Warner are coming into town Oct. 28. They have taken an apartment at 232 East Walton place for the autumn and winter festivities. Miss Warner is to make her debut Oct. 31 at a ball to be given at the Blackstone.

Numerous social affairs are being given in honor of Mrs. Arthur M. Gohmann of St. Louis, who is visiting at the home of her sister, Mrs. Arthur Forster, 270 Woodland avenue, Glencoe. Mrs. Frederick Henkel of 653 Walden road entertained Thursday at the Sunset Ridge club and Mrs. May Linkman of Evanston entertained at dinner Friday night at the Sheridan Beach hotel. Mrs. Richard Dean of Evanston was hostess at a theater party in her honor yesterday.

The 5 o'clock musical held Sunday afternoon at the Skokie club drew such a large group of music lovers that the success of the series, to be given every Sunday during the summer is assured. Miss Stella Roberts, violinist; Miss Marion Roberts, pianist, and Mrs. Guy Stuart Bailey, soprano, gave the second of the series Sunday. The artists are all well-known to Chicago and north shore music circles and their program was well chosen and charmingly given. The club was especially fortunate in securing Miss Marion Roberts at this time, as she leaves shortly on a tour through Europe. Mrs. Dwight C. Orcutt of Glencoe will be in charge of cutt of Glencoe will be in charge of noon.

Announcement has been made that the marriage of Miss Isabel Kruger to Paul Nichols of Hammond, Ind., will take place August 28 in Hammond. The families of the bride and bridegroom will be the only guests at the wedding, and Miss Kathleen Kruger of Glencoe will be maid of honor for her cousin. Miss Isabel has lived in Glencoe for the last two years with her grandmother, Mrs. James Kent of Bluff street, and returned to Hammond this spring.

NEW HIGH-PRESSURE MAIN IS BEING LAID

About 2,000 feet, approximately one-third of the new 16-inch high pressure water main in Lake Forest, from the station at the lake to the new water tower has been laid. The water department has been seeking to discover the reason for the peculiar taste of the water during the past weeks. Other north shore towns report that their water supply has been similarly affected. It is believed that the prevailing winds from the northwest have caused an unusually large amount of natural lake weeds to drift shore-ward. Although the water at times has an unpleasant taste it is entirely safe for drinking.

WORK PROGRESSING RAPIDLY ON NEW RAILWAY EXTENSION

(Continued from page 1, third part)

a bread-mixer and a bread-slicer. Coffee urns of 80-gallon capacity each occupy a convenient space in the kitchen, and there are potato-peeling machines, dish-washing machines, a refrigerator plant, meat-cutting machines and everything that is necessary to prepare wholesome food in the cleanest and quickest manner possible. All the cooking is done with gas and the machines are all electrically operated.

Digging Artificial Lake near Libertyville, Illinois

"The refrigerating plant is a portable one. It is set on trucks and can be moved with little effort when a new camp is located. All that is necessary is to run it to the desired location, attach the electric connection and have refrigeration. "The dining room at both camps are 200 feet in length and 50 feet in width and seat about 500 men at one time. There is something about them

Laying Temporary Railroad for Hauling Gravel

that rather appeals to the visitor unaccustomed to such dining rooms, or rather mess halls. They have nothing of that daintiness that so many of us crave in the dining room of the large hotel or restaurant, but they give the impression of virility, of being admirably suited to provide good wholesome food for strong, rugged, red-blooded men who are quite as necessary in our scheme of civilization

Excavating for the New Line

away from the noise and bustle of Chicago to make it an ideal suburban residential district and yet close enough, with the improved transportation facilities it will have, to be convenient for those who will commute to the city. "Engineers in charge of the construction of the new line estimated that trains will be running over by the first of June, 1926. The engineers built the Niles Center station in even less time than they estimated, so there is no reason to think that they will do as well on the second section."
