

Mrs. Katherine H. Goode

Illinois State Representative

NATURALLY those privileged to enjoy in college days the wit and wisdom of James Weber Linn turn with delight to the paper which contains his editorials and his 'Lights and Darks' column.

"For several virtues I have liked several papers, but for two or three special reasons I have liked the Herald and Examiner. First—because it has been especially generous to the 'cause' and the 'causes' of woman.

"And second—a most endearing characteristic these last few months—because of the consideration and courtesy of its reporters."
