CHRISTIAN SCIENCE LECTURE IS GIVEN

BY DR. JOHN M. TUTT, C.S.B.

Many Hear Interesting Talk at First Church of Christ, Scientist, Thursday, August 6th

Dr. John M. Tutt, C. S. B., of Kansas City, Mo., member of the Board of Lectureship of the Mother Church, The First Church of Christ, Scientist, Boston, Mass., spoke at First Church of Christ, Scientist of Highland Park last Thursday evening, August 6th. The attendance was large, and a most interesting lecture was given, which is published in part below.

Mary Baker Eddy Progressive Christian

Early in the 19th century there was born, amid the granite hills of New Hampshire, a child whose delicate health was the despair of her parents, but whose spiritual mindedness early became a subject of wonderment to all. From childhood Mary Baker walked close to God. To her religion was more than an experience, it was life itself. Years of semi- invalidism forced Mrs. Eddy to struggle for relief in many systems of healing. Her enquiring mentality deeply studied material medicine and various mental medical systems, only to abandon them all as failing to meet her needs of mind and body. Throughout these years she went deeper and deeper into the things of God, always clinging to the conviction that within the Bible there lay the explanation of Jesus' healing power, a power he himself said should always be available. At last, when physically helpless and medically hopeless, her tired eyes straining heavenward were gladdened by the revelation of spiritual Truth unfolding its glories to her enraptured consciousness. No longer needed she the despairing cry of the ages, "The days are prolonged, and every vision faileth." The unfolding of the Christ idea brought complete healing of body and mind so that she could view the unfolding panorama of Spirit and joyfully declare with the prophet, "The days are at hand, and the effect of every vision." Fired by that vision and its results upon her body and mind, she reduced to human apprehension the revelation of Truth, and in 1875 published her book, "Science and Health, With Key to the Scriptures." This book and the Bible are the sole text books detailing true cause and effect, or spiritual evolution, and its applicability and application to human life.

Mrs. Eddy was herself the deepest student of her book. She wrote under divine inspiration, as she herself said, "a scribe under orders" (Miscellaneous Writings, page 311); but thereafter always the text unfolded its treasures ceaselessly to her devoted search. It is related of Mrs. Eddy that she often expressed glad surprise as some new phase of Truth unfolded to her from the pages of her book. Casual readers of Science and Health sometimes remark upon the seeming repetition of statement in the text. To the student, such similarity of expression is not redundancy, but rather an illustration of Truth's infinite shades of meaning which in variety are even as the leaves of the tree, no two leaves being exactly alike.

The evolution of Truth in Mrs. Eddy's consciousness unfolded to her more and more clearly the revelation she received from Divine Mind; hence the revisions of Science and Health. It is certain that Mrs. Eddy knew most about God and Christian Science at her highest point of progress; therefore it is wise to obey her admonition to study only her latest and final revision of the text book as now published.

It must be insisted that Christian Science is the only system of true metaphysics. All other schools of mental science so-called, under whatever name, are falsely metaphysical, evolved from human personalities and hopelessly involved with matter. This word metaphysics means literally "beyond matter." Mrs. Eddy was not the first thinker to deny matter but she, excepting Christ Jesus, was the first to recognize the absence of divine Mind and its infinite idea, man and the universe, and to teach and prove that matter, inclusive of mortal man, is a false presentment of that Mind and Creation.

The coming of Christ in Christian Science revealed the allness of God and His spiritual creation; hence Christian Science is the final revelation of Truth. But of the unfolding of Truth to consciousness there can be no end. When questioned regarding the future of her church, Mrs. Eddy replied: "It will evolve scientifically." (Miscellany, page 342). The spiritual growth of its members will measure the scientific evolution of the Church of Christ, Scientist; their spiritual status, their progress Christward will be its substance.

Mary Baker Eddy was single of mind. All the truly great have writings in vain for a double meaning—the sure evidence of a double mind. All the truly great have been remarkable for their simplicity. St. Paul speaks of "the simplicity in Christ." You are safe in taking what Mrs. Eddy says in the simple and full meaning of her words. Knowing the unfolding nature of Truth she said in her supreme patience and modesty: "I even hope that those who are kind enough to speak well of me may do so honestly and not too earnestly, and this seldom, until mankind learns more of my meaning and can speak justly of my living." (Miscellany, page 264).

Today it is certain that too much of the facts about Mrs. Eddy cannot be told. Mrs. Eddy could no more be dissociated from Christian Science as Discoverer, Founder, and inspired Leader, than Jesus could be left out of the scheme of salvation. Mary Baker Eddy never took a retrogressive step, hers was a capacity for sustained effort; all her paths were to-

promised, on a sense of Principle; the Master's "suffer it to be so" she conceded to others, rarely to herself. She permitted no interruption of material and spiritual activity, yet her way was calm, orderly, and poised. The students' growth in spiritual understanding and working knowledge of Christian Science is accompanied by enlarging appreciation and love of her who brought divine Truth to human consciousness. To his thought unfolds Mrs. Eddy's adequacy for the destiny God had for her. He is inspired by her example of devotion to duty. He sees in Mrs. Eddy's life, duty, never tiring but hallowed by love, going all the way.

On Upward Wing

Infinite progression is the evolution of man's destiny. Destiny is what God has in store for man. That fate alone awaits each of us, a fate inexorable but benign. There is no evil destiny. "Fear not, little flock; for it is your Father's good pleasure to give you the kingdom." To do what God has for us to do, to receive what God has for us to receive—that is evolution. Such is man's free moral agency.

True progress is the attainment and maintenance of man's reflected dominion over all. Man's obedience to divine power and wisdom is his reflection of that power and wisdom. Man knows he has by reflection God's dominion over the spiritual works of His hands and also over the material counterparts of those works. My friend, assume that dominion. Are you anxious to give up some cherished bad practice or perhaps some enslavement, through hesitancy to use will power? Remember, the will to do right is the human mind's nearest approach to the divine dominion. Government by divine Principle fosters the determination to do right. Be willing to do right. Be unwilling to do wrong. Remember Jesus who stood steadfast in the face of temptation. Remember Mrs. Eddy who would not be swayed from her course unless God turned her; God alone could change her mind. Steadfastness in the truth is an essential of true progress. Make up your mind to do right and you will enlist all the force of omnipotence on your side. In such determination human will has no place. Are you waiting for God to remove an obstacle or a bad habit? Go out after it, act, work with God and expect great things. To the extent that you immerse yourself in the divine Mind, you will emerge the victor over evil, for all moral fault is of the human mind and requires human will to commit it. The will to do right is a defiance of human will. Of temptation overcome, not yielded to, comes spiritual strength. After the victorious argument Jesus had in the wilderness with personal sense he "returned in the power of the Spirit into Galilee, and there went out a fame of him through all the region round about." The fame of Jesus was based upon his spiritual power to heal the sick and the sinning and to comfort the sorrowing. My friend, would you, too, be strong in spiritual might? Would you be more useful to suffering humanity? Then wrestle with the arguments of error and prevail through reliance upon Christ, spiritual Truth.

A Christian is no stronger than at this point of contact with the world. Also he is no more useful than at that point. There is neither isolation nor segregation in Christian Science. In obedience to Christ's command Christian Scientists literally go into all the world and preach the gospel to every creature. Oh! best assurance that "shod with the preparation of the gospel" we may tread our way along the whole of the road with feet unswollen. Christ's healing and saving virtue will go out to whomsoever touches Truth's garment on life's highway. Shall not Christians be always so clothed and available? We cannot let the rest of the world go by.

Christian Science is unfolding Truth to human consciousness. Obviously, the way to eliminate lies is to put the truth in their stead. The only way to be less material and more spiritual—the object of all Christian activity—is to make a start away from matter, and then keep on going away from matter. This is man's progressivism that each day shall unfold his best endeavor. So, my friend, let each day be to you a better day—a day in which to live better, to love more, to fear less. Your spiritual growth will multiply your experiences. Some of them may be bitter, others will be sweet. Take them as they come and rejoice in every inspiration heavenward. Let even the bitter help you on your way. Your spiritual horizon, bear in mind, is peculiarly your own and is dependent on your point of ascension. Only so far a horizon have you as your spiritual growth will multiply your power, purpose and action are also yours by divine reflection, yours by divine sonship, yours with which to envision and evolve the limitless wonders of true being.

"You have only your own pair of wings
And the pathless sky;
Bird, O my bird, listen to me,
Do not fold your wings."

ANNUAL REUNION OF COUNTY VETERANS

Forty-seventh Gathering of Civil War Survivors Will Be Held August 20

Veterans of the Civil War will assemble at Memorial Hall, Court House, Waukegan, Thursday, August 20, for the forty-seventh annual reunion of the Lake County Soldiers' and Sailors' association. Registration will begin at nine o'clock, and the business session will be held at 10:30. A short parade at noon will be followed by a big dinner for the aged veterans. Exercises will be held at two o'clock in the afternoon at the monument. Afterward there will be an automobile ride. Perry Harris is president of the association and S. F. Greenleaf is secretary-treasurer.

Formerly the idea was to get a job done as soon as possible, but now it seems to be to see how long it can be made to last.

"MERCENARY MARY" COMING TO CHICAGO

New Musical Comedy Opening Aug. 16, at Garrick Theatre; Well Known Cast

"Mercenary Mary," a musical comedy in two acts by Wm. B. Friedlander, with the lyrics by Mr. Friedlander and Con Conrad, will be presented at the Garrick Theatre on Sunday, Aug. 16, under the management of L. Lawrence Weber of New York.

In the chorus of "Mercenary Mary," this new musical comedy, will in all likelihood, take Chicago by storm. Such furious dancing as staged by a couple of dozen girls has, it is almost safe to say, never been seen in recent seasons on a local stage. In the first appearance of the girls in a number called "Charleston Mad," they fairly shook any audience unprepared for such a performance, generally stop the show whenever they come on and arouse gales of applause. It seems almost beyond human endurance to dance nine times a week as this chorus really does, but they get away with it, for rightly it is no chorus as musical shows go, but a group of specialty dancers, who at times show their talents in solo work and then band together and fairly catch the audience with stunning effect.

Allen Kearns, who will be remembered as one of the "Little Jessie James" company playing here not so many months ago, is the youthful hero in this new show. Marion Fairbanks, of the Twins of that name, makes a charming and comely heroine and is in reality a polished dancer. Louis Simon, the lispng comedian, whose most recent engagement here was in the musical comedy, "Moonlight," and Sam Hearn, veteran funster, will rock laughter out of listeners by their antics. There, too, are Nellie Breen, a nimble stepper, John Boles, Frank Kingdon, who was with "Sallie" for a long run, our Chicago favorite Juliette Day, and many other notables.

Claimed that children should be taught to think, but there is a large number of people who feel that would be dangerous.

Question asked as to what age people would like to be? Apparently the old people want to be younger and the young people want to be older.

The evolutionists argue about the survival of the fittest, but the fittest often have a way of staying around after the fittest have gone to bed.

We are all urged to drink of the fountain of knowledge, but the majority seem to prefer the soda fountain.

This year's bathing suit patterns indicate that it is one more great year for the mosquitoes.

Efforts being made to purify politics, but it can't be done with soft soap.

The troubles of the world are said to dog our footsteps, but out on the motor roads our footsteps are hot dogged.

"Ride 'Em, Cowboy!"

Come to the World's **RODEO** Championship

Grant Park Stadium

August 15th to 23rd, Inclusive
Two Programs Daily—3:30 and 8:30 p. m.

"Ride 'em cowboy!" is the good old yell of the plains that will unconsciously well from thousands of throats as some courageously confident rider battles with an outlaw horse. And the "Yip! Yip!" of the rider will be given just as joyously, whether or not he stays aboard for the requisite championship time.

Wholesome, inspiring sport, it is. Steer wrestling, bronc riding, calf roping, trick riding, fancy riding, trick and fancy roping, wild horse racing and all the thrilling outdoor sports of the real west—and all for world's championships!

Thirty thousand dollars in cash prizes; and the titles, belts and trophies of the indisputable world's championships, bring to Chicago for this thrilling event all the champion cowboys and cowgirls of all the other contests. Do not fail to see them. Remember that there will be eighteen programs of contests—and that the full eighteen will be held. Your ticket will have a rain check, so that in case of bad weather you will be entitled to return and see another program.

Chicago daily papers give full particulars of how to reach the stadium by motor car, elevated or surface lines, or bus.

Tickets on sale at all department stores, at the general ticket office in Room 534, 10 S. La Salle St., and at the stadium prior to each program.
