

W. Otto Meissner's
Wonderful New Way of
Piano Teaching

Endorsed by eminent musicians, educators and teachers. "The Melody Way" class instruction gives every child a chance in music. A piano not necessary in the home. The complete cost for lessons, equipment and everything, for a whole term, only a few dollars.

20 in class, 25c each per lesson; \$3 per term, 12 lessons, in advance on enrollment at Witten Hall—Friday, September 18, from 10 a.m. to 5 p.m. Arrangements can be made at this time for private lessons and smaller classes, at increased rate.

LET'S see it was Josh BILLINGS wasn't it, who SAID "There's a lot of WEATHER but nothing is EVER done about it," and WE wonder what we folks WOULD do if the weather AS A topic of conversation, WAS taken away from us, AND we have an idea THAT a lot of us would FIND ourselves in bad SHAPE for want of SOMETHING to say,—but JUST the same, the WEATHER plays a big PART in our daily LIVES—for instance TAKE a nice September day LIKE this and it just NATURALLY suggests THAT you need some CASTLE SOAP, and then THAT thought suggests THE fact that we CAN supply that need IN short order here AT our store, for the NEXT ten days we will SELL 1 1/2 pound bars OF floating CASTLE SOAP REGULAR 55c value for 29c.

Claimed the American people like to be humored, but they are not usually satisfied unless they pay a large price for the privilege. After deploring the lawlessness of America, some folks go out and telephone their bootlegger for supplies. Impression seems to prevail among many that the prohibition enforcement service was created to provide

lucrative jobs for the friends of politicians. The anthracite coal miners have a right to strike, and the consumers of anthracite also have a right to use some different kind of fuel. Claimed there is too much license in this country, but the girls will say there is none too much marriage license.
