TRADE BALANCE IN FAVOR U. S. LARGE

IN EXCESS OF ONE BILLION

Both Imports and Exports Show Increase Over Any One in Previous Five; Trade Stabilized

The favorable trade balance of the United States for the fiscal year ending June 30, exceeded a billion dollars according to figures just made public by the Department of Commerce. The exports were valued at \$4,867,654,344 and the imports at \$3,824,972,847.

Both the imports and exports for the fiscal year exceeded those of any of the previous five years. The favorable balance was greater than that of any of the last three fiscal years, although it was less than that for the year ended June 30, 1922.

Gold Movement

Gold movement for June was small but the tendency for gold to leave the United States was shown to be still in operation. The nation lost \$2,286,345 in gold, imports being \$4,426,136 and exports \$6,712,480.

Figures published by the United States Chamber of Commerce show many substantial gains in exports during the first quarter of 1925. Exports for the quarter were forty-eight per cent greater than for the same period of 1922.

"A large part of this increase in exports," it is explained, "was due to Europe's recovery of purchasing power shipments to that continent in the first quarter of 1925 being sixty-two per cent greater in value than for the first quarter of 1922. As a matter of fact, nearly two-thirds of our exports for the first three months of 1925 were purchased by Europe—a far greater proportion than she has taken since the buying orgy of 1920. This European demand was reflected in our heavy exports of cotton, wheat, petroleum products, copper, lead, zinc, oil cake and meal machinery and many other lines.

Leading Export

The leading export commodity was raw cotton, with automobiles second. Exports of wheat stood third in the list and fourth in rank was the petroleum group.

The report continues: "The increasing importance and stability of our export trade is demonstrated by the fact that since the days of the inflated value of 1919, 1920 and the first part of 1921 steady gains, year by year, with no setback, have been made in fifteen out of fifty of our

principal export commodities. This elite class consists of raw cotton, automobiles, refined copper, lead, wheat, flour, agricultural machinery, hams and shoulders, gas and fuel oil, fish, brass and bronze, printed matter, medicinals and pharmaceuticals, paraffin wax, typewriters, paints, pigments and varnishes and tools.

"Two items only have shown a tendency to keep the downward grade—cigarettes (China is our big market) and fertilizers."

GIRL RESERVES ARE POPULAR DEPARTMENT

Miss Lyntis Redwine Is New Associate Secretary; Several Clubs Organized

The Girl Reserve department of the Y. W. C. A. is very popular with the school girls of Highland Park. The activities of this department are beginning again after a let up during the summer months. Last year there were 90 school girls in this department who learned to "Face life squarely" and "To find and give the best."

Miss Lyntis Redwine has just recently come to Highland Park to serve as associate secretary of the Y. W. C. A. and one of her chief interests is the Girl Reserve movement. Miss Redwine comes from Oklahoma and is a graduate of the University of Oklahoma and has also taken the course at the National Training school for secretaries of the Y. W. C. A. in New York City. This summer she has taken graduate work at the University of Chicago. While a student at Oklahoma university she was the undergraduate representative of the association and she was honored by being chosen to serve as chairman of the students of the southwestern states. During this last year she was Girl Reserve secretary at Fort Smith, Arkansas where they have over two hundred girls in this one department.

Miss Redwine hopes that with volunteer assistance necessary she will be able to build up a Girl Reserve department where every girl in Highland Park between the ages of twelve and eighteen will be able to become a member of some club. With the added attraction of a new home and new club rooms in addition to the interesting programs planned this department, will no doubt become one of the most popular features of the Y. W. C. A. work.

The youngest group at present is made up of girls between the ages of eleven and twelve, called the "Lafayette Club." This club meets every Friday at the association building. The "S. O. S." club, or the "Serve Others Sincerely" meets every Tuesday afternoon at four. The Freshman High School club meets

Wednesday afternoons and the Senior high school girls meet on Fridays. This latter club is called the "Live-Y-Ers."

Miss Redwine and Miss Ruth Wilson who is the dean at the high school are working together on a survey of the club work available to Highland Park girls and the number of girls included in activities. Miss Wilson is going to serve on the girls work committee of the Y. W. C. A. of which Mrs. Carl Pfanstiehl is chairman.

Mrs. Pfanstiehl is a member of the national committee of the Girl Reserve department and she is leaving for a conference in New York City next week for members of this committee.
