

Bulbs For Spring Flowering

No other flowers excel the gorgeous showing of the pink and red Darwin Tulips or the Golden Yellow of the Giant Daffodils during Spring in our Gardens and Fall is the only time you can plant the bulbs.

You will spend two dollars for a dozen cut Darwin Tulips and not hesitate, yet you can purchase the bulbs for less than half. They will grow in almost any soil and will bloom for several weeks next May for you to enjoy.

No better place to plant them than in groups along the Shrubs, the hardy border in fact any place. They don't want prepared soil or Fertilizer; simply plant so that the top of the bulb is three or four inches below the surface.

For the little the bulbs cost, there is absolutely nothing which will give you greater returns, or make your Home Grounds more attractive next Spring, and by right selection of the different sorts you can have flowers from the end of April on up to early June.

We import our bulbs direct from Holland—the best money can buy—the best varieties, and we offer them as reasonable as any seed house in Chicago. We sell for less than the average seed house, because we have no waste; all unsold bulbs we plant ourselves.

The following is only a list of the most showy and popular sorts, all ready for delivery and we shall be glad to serve you as well as tell you over Phone 85 anything you like to know, which might help you obtain the best results.
