DEERFIELD-SHIELDS DEFEATS THORNTON

SCORE ONE-SIDED, 12 TO 0

Home Goal Is Never Seriously Threatened by Visitors; Deerfield Scores in Second Half

Deerfield-Shields high school football team defeated the Thornton school eleven Saturday, on the home field, in a one-sided game which ended with a score of 12 to 0. The greater portion of the game was in Thornton's territory, and Deerfield's goal was never seriously threatened.

No score was made in the first half, but in the third quarter, after two plays in which Thornton lost they decided to punt. "Tip" McClure of Deerfield got in front of the oval and "Deer" Stipe fell on it. After two bucks by the Boylan boys, first down was made. Then a pass, Martin to Baker, put the ball on the one-yard line. One more play featuring John Boylan, and the first Deerfield score was made.

Thornton booted the ball to "Art" Bock, who advanced it to their 40-yard line. After a few plays, "Tillie" punted, but the ball took a twist and went outside on the 40 yard line. Thornton gained ten yards on a cross-buck and then punted to Deerfield's 25-yard line. After various gains, Martin gained thirty yards around end and put the ball down on the five yard mark. John Boylan fumbled, and Thornton recovered and punted to the 40-yard line. Martin made 30 more yards around end. Then "Allie" Baker, put the ball on the one-yard a quarterback sneak in which he gave a brilliant display of his sidestepping ability. After a few more plays the game ended, a victory for Deerfield 12 to 0.

Stipe	R. E.	Thornton (0)	Gross

BIG STOCK SHOW TO OPEN IN NOVEMBER

Many Entries Already in For Great Annual Exhibit In Chicago

While entries in the International Grain and Hay Show, November 28 to December 5, do not close until November 10th, the number received up to November 1st indicated that last year's record would be far surpassed. Educational exhibits from many agricultural colleges are being gathered together by W. F. Graham of Purdue University and they will present to the visitors a vast amount of timely and valuable information along both production and consumption lines.

The evening horse show in the arena will include the foremost strings of riding, driving and jumping horses in the country. In addition to the thrilling maneuvers of the massive six-horse teams, this year there will be an exhibition of eight horses averaging a ton each in weight driven to a three-ton show wagon.

Every moment of the visitor's time will be taken up by a glittering array of interesting events during the week of the "Stock Show" in Chicago.

NEW TRAIN AID TO PATRONS FROM HERE

North Shore Line Puts on One Leaving Chicago at 4:30 In Afternoon

Additional transportation service for suburban shoppers and others wishing to return home before the rush hour in the afternoon is now being furnished by the North Shore Line, beginning November 3, according to announcement by the Company. On that date a new express train, operating between the Adams and Wabash station in the loop and Highland Park, was placed into service daily except Sundays.

The new train leaves Adams and Wabash Station at 4:30 p. m., Randolph and Wabash at 4:31 p. m., Grand Avenue at 4:35 p. m., Wilson Avenue at 4:51 p. m., and Howard Street at 4:58 p. m. In addition to giving suburban shoppers additional service, it greatly facilitates handling of the rush hour crowds.

With installation of this additional service, the North Shore Line has an express train leaving the loop every fifteen minutes during the busiest hour of the afternoon.

There is a strong belief that the country is going to the dogs among those who won't take the trouble to vote.

Inherits Riches

Little 12 year old Doris Duke is now the world's richest heiress. The will of her father, multimillionaire tobacco magnate, gives her the bulk of his immense estate, estimated to be \$150,000,000.

NO MOTOR CARS IN BERMUDA ISLANDS

"No motor cars, no railways, no street cars, no smoke and soot," for a long time has been the slogan of Bermuda in catering to tourists.

However, during the next two months the street car part of the slogan may be eliminated, for permission to build an electric railway from one end of the island to the other has been granted Robert W. Cummins of Pittsburgh.

Recently there has been agitation in favor of motor busses and some have advocated the general use of automobiles, but the general opinion seems to be that trolley railways will be permitted by the government as being consistent with the island's policy of cleanliness and quiet.

PUBLIC SERVICE CO. BUILDS NEW CABLE

Lays Different Type of Line Under Illinois River at Lacon

The Public Service company of Northern Illinois recently completed a unique installation of submarine cable between its station at Lacon and Sparland, a town across the Illinois river.

Departing from the precedent set by previous installations the Public Service company has installed single conductor 83,000 volt cable rather than the customary three-conductor cable. The advantage of the single conductor cable is that a break down of the installation on one conductor will not tie up the entire installation until repairs can be made. In this particular case this is very important, for a cable of any weight sunk in the Illinois river becomes embedded in mud in a short time so that it cannot be easily removed. Four single-conductor cables in all were laid; three for regular use and one to be cut in in case a break down occurs on one of the three. In laying this cable numerous construction difficulties were encountered. It was necessary, for example, to keep the barge which paid out the cable moving in a straight line from one bank to another. This was accomplished by stringing a 3-8 inch guy wire between anchors on each side of the river to act as a guide. A barge 50 feet long and 30 feet wide was used. The large cable reels were rolled on board, and an engine-driven winch was used to move the barge along its guide. The four cables were laid at once and properly spaced to give a minimum of undesirable capacity effect between cables.

GIRL ATHLETES TO TOUR IN THE ORIENT

Sesqui Belles to Advertise Big Philadelphia

Word of the Sesquicentennial International Exposition, in Philadelphia in 1926, will be carried to the Orient in unique fashion by the "Sesqui Belles," a group of twelve girl athletes, who have just left Philadelphia on a trip designed to combine championship baseball with Sesqui enthusiasm. The team, the erstwhile "Bobbies," amateur baseball champions of Pennsylvania, will cross the continent to the Pacific coast, where they will embark for Japan and China on October 6, aboard the S. S. Thomas Jefferson.

The "Sesqui Belles" hope to vanquish a series of men's baseball teams on their tour of the West, with

games scheduled in Fargo, N. D.; Glasgow, Great Falls, White Fish, Mont.; Spokane, Wash.; with other games pending en route.

All of the girls reside in Philadelphia or vicinity and not one of them has crossed the ocean before. But they are not afraid of seasickness, they assured Col. David Collier, director general of the exposition, with whom they stood to be photographed in front of Independence Hall in Philadelphia before they left.

Miss Edith Houghton, 18, a member of the team, is said to be the youngest girl shortstop in the world. Incidentally, she is a relative of Alanson B. Houghton, United States Ambassador to Germany. The team ranges in age from Miss Houghton, who is the youngest by several years, to 23 years. Every one of the players is proficient in several branches of sport, some being swimmers, some playground champions and others having participated in Turnegemeinde athletics.

KIWANIS CLUBS AID CHILD SAFETY DRIVE

Citizens Campaign Committee In Cook County Plans New Effort

Kiwanis clubs of Chicago will cooperate in Cook county's A-B-C drive, A. K. Mose of the All-Chicago Council, Kiwanis clubs, announced today. The council took its action as a result of a strong resolution adopted first by the Ravenswood club.

The resolution commends the plan of the Citizens Child Safety campaign committee to carry the message "Always Be Careful" to the children through a new visual education plan launched by the committee under a system which is expected to make the work self-perpetuating and self-supporting.

"The number of deaths and injuries by vehicular traffic through the country is deplorable and from records shown in the daily papers is on the increase each day," says the resolution. "It is the civic duty of every citizen to do all that is possible to lessen such conditions as it is in his or her power to do so."

"The plan of the Citizens Child Safety campaign, if carried to its completion will do more to eliminate this terrible slaughter than any other known plan of action and should have the honest support of all citizens in their respective communities."

Similar resolutions are before Rotary and Lions clubs and various fraternal and civic organizations.

Claimed that colds cost the American people \$1,500,000,000 a year, but cold feet cost them more than that.

TO SAVE TO HAVE YOU HAVE TO HOLD

What you will have and enjoy tomorrow depends on what you save today.

Build for your future now.

Save part of your income every pay day and invest it is sound dividend paying securities such as the cumulative shares of the North Shore Gas Company, then you need not fear to look into the future.

Let us explain this very attractive and convenient investment savings plan to you. We are sure you will be interested.

Send us attached coupon and our representative will call and give you full details.
