Better Buick
Time Payment Costs
are Lowest in the
Motor Car Industry

Buick time payment prices are from \$30
to \$75 under prices of competitive cars.
The new GMAC Time Payment Plan
adds still another economy to Buick
ownership.

Actual comparison of DELIVERED cost
will show you the Better Buick's decisive
price advantage over other cars whose
dealers have not the opportunity to
work under the GMAC Plan. Pick out
any other car of approximately the same
list price as a Buick model and get the
DELIVERED cost of each, with every-
thing you will be required to pay added
to the total (including interest and in-
surance). See how much lower Buick is!

GOOD FARM YEAR AIDS PROSPERITY

CONDITIONS MUCH BETTER

Good Crops Index of Good Times
In Opinion of Department
Of Agriculture; Details
Are Given

Agriculture has been fairly profit-
able this year and the improved pur-
chasing power of farmers will do
much to uphold general economic
well-being through the winter, the
United States Department of Agri-
culture declares in its October report
on the agricultural situation. The
department points out, however, that
while conservative judgment of the
recovery of agriculture is warranted,
farm prosperity can be easily over-
rated as depression.

"It is a splendid harvest," the de-
partment says. "Not bumper yields
but production well adjusted to rea-
sonable needs. The two great money
crops, cotton and wheat, are now
along where some idea can be gained
of their value. Cotton apparently
stands to bring its producers an in-
come of approximately \$1,500,000,000,
which is about like last year, and
wheat producers apparently stand to
receive about \$1,000,000,000, which is
also near or slightly below last year.

General Index
"These two leading crops probably
index the general crop income. Agri-
cultural income will not be greatly in
excess of last year, but the point is
that this is the second fairly profit-
able year. The season will go a long
way to level up regional conditions.
The corn belt along with the dairy
and diversified east have been slow to
feel the stimulating current of re-
vival, but now the rising prices of
hogs and cattle, together with a rea-
sonably good corn crop mean some
profit in the corn belt. The slowly
strengthening prices for dairy prod-
ucts plus higher potatoes and minor
cash crops promise somewhat better
income for the east. The whole agri-
cultural map thus slowly emerges
from economic shadow."

Discussing the situation by key
regions, the department says:

Conditions in East
"The east is busy with silo filling,
potato digging, fruit harvest and fall
work generally. Potato yields are
disappointing. Corn growth is excel-
lent, helped by late rains. Beans,
buckwheat and other crops in harvest
were damaged by heavy rains in the
north. Winter grain is mostly seeded.
The dairy situation is rather static
but improves rather than otherwise.
"The south is generally under the
ban of dry weather. Drought and
heat have been a real catastrophe in
northern Georgia and portions of the
Carolinas. The whole Piedmont re-
gion is hard hit. The cotton crop is
spotted but generally fairly good.
Picking is well along and ginning has
been heavy. Feed crops have been
shortened by dry weather. General
conditions are fairly good except in
drought areas.

In the Corn Belt
"The corn belt has the corn har-
vest well along with the crop mat-
ured safely ahead of frost. There
is some chaffy corn in areas hit by
dry weather but the bulk of the crop
is apparently good grain. The region
is busy with the late harvest and fall
work. Winter grain has been planted
under favorable conditions. The hog
and cattle situation generally favor
optimism.

"The wheat belt has winter wheat
seeding about finished. Local esti-
mates of acreage vary but general
indications are of some increase over
last fall. Spring wheat yields are
only fair but grain is excellent qual-
ity and prices are stimulating. The
general result of the season is favor-
able to the region as a whole.

The Range Country
"The range country has the cattle
and sheep movement to market well
along. Stock is moving down from
the high range to winter pastures.
There is a heavy demand for ewes.
Many ewe lambs are being held back
on range and many old ewes shipped
to farm flocks for breeders. Some
cattlemen are sticking up where re-
sources are favorable, and the whole
region is improving in tone.

"On the Pacific coast the apple and
grape harvest are well along. Prunes
are picked. Grain is mostly threshed.
Fall seeding is about finished in the
north, the hindered by dry weather.
The same is true of winter trucks in
the south. Cotton is being picked in
the south. Rice and citrus fruit are
developing well. The general senti-
ment is moderately optimistic."

The department's index of the rela-
tive purchasing power of 30 farm
products is placed at 93 for August
compared with 91 in July, the five
year 1909-14 average of 100 being
used as a base.

Greater Demand for the Improved Ford Cars

The recent improvements in Ford cars have
created a demand that is establishing new
sales records.

Back of this growing demand is the knowl-
edge that Ford cars have gained their uni-
versal recognition through dependability and
economy of operation. The recent improve-
ments enhance value that has been definitely
established.

See today's greater Ford value at your near-
est Authorized Ford Dealer's. Place your
order now to insure early delivery.
