MANY NATIONS TO FURNISH EXHIBITS FOR SESQUICENTENNIAL

Twenty-Three Governments Have Signified Intentions to Be Represented at Philadelphia

Most of the twenty-three foreign nations that have announced their purpose to participate in the Sesquicentennial International Exposition are already preparing to start construction of buildings or pavilions and to collect and arrange exhibits for shipment to Philadelphia.

Besides the displays made under the direction of the various governments there will be exhibits by corporations and individuals in these countries on a scale never before approached at a World's Fair.

Director-General Collier on October 10, received from Captain A. C. Baker, Sesquicentennial director of foreign participation, a cablegram from Budapest reading:

"Send to our legations in Hungary, Czecho-Slovakia, Poland, Austria and Yugoslavia detailed plans of sites selected for them, so their architects can make plans for pavilions, also posters. Literature important. Baker."

Japan Increases Grant

The State Department at Washington received a cablegram from the American Embassy at Tokyo, stating that the Japanese cabinet, had increased the sum to be expended for participation in the Sesquicentennial Exposition from 486,000 to 1,566,000 yen (approximately \$750,000). Of this amount 670,000 yen (about \$335,000) will be allotted from the government's Special Reserve Exchequer and the remainder will be included in the budget for the coming fiscal year.

Aiming to make the best possible showing at the exposition, the government will encourage the sending of exhibits by trade guilds and chambers of commerce rather than by individuals, and grants of aid to such associations were included in the approved expenditures. The entire cost of transporting these exhibits to Philadelphia, will be defrayed by the government.

Director-General Collier has received a communication from Miles Poindexter, United States Ambassador Extraordinary and Plenipotentiary at Lima, announcing his purpose to use his utmost endeavors to induce Peru to make a national exhibit at the Sesquicentennial International Exposition.

Egypt Making Plans

Plans for Egypt's participation in the exposition are being prepared under the direction of Rachouan Mahfouz Pasha, under secretary of state, Sesqui headquarters were notified from Cairo. The program for the Egyptian display was arranged by the secretary of a meeting with the various technical officers of the Ministry of Agriculture.

After visiting the Sesqui site, B. Nellasis, exhibition manager of the Federation of British Industries, announced that he will urge his organization to make a complete display at the World's Fair in Philadelphia in 1926. He said the exposition will offer an excellent opportunity for a comprehensive exhibition of British industries and products.

Mr. Nellasis, who sailed for Europe on October 10, said before leaving that he will also advise the British Board of Trade to participate in the Sesquicentennial. He came to Philadelphia from Toronto where the federation now has an industrial exhibit in the Canadian National Exposition, at the specific request of Colonel Vernon Wiley, president of the federation, and Guy Lueck, a director, to report upon the progress made on the Sesqui project, and he was most favorably impressed, he declared.

SCHOOL FOR FARM BOYS

A summer school for farm boys between 14 and 21 years of age, who have dropped out of school, was held at the Fletcher Memorial school for four weeks during August, according to South Carolina education. They were taught agriculture, arithmetic, English, and citizenship.

PROMOTED BY SUBJECTS

Of the eight-grade graduates from the schools of Colfax county, Nebr., in 1925, 7 were 11 years old, 28 were 12, 50 were 13, 37 were 14, 18 were 15, and 4 were 16. The average age of the 144 was 13.3 years. Pupils are promoted in Colfax county by subjects and not by grades.

Prosperity is dependent on bumper crops, but the sports seem to be more interested in a crop of bumpers.

The tramp element are roving around the country looking for unemployment.

Formerly people figured in getting married on the cost of the wedding fees, but some of these folks who are in such a hurry now would better figure on the cost of the alimony.
