FINE EXHIBITION OF AMERICAN ART

Works of Painting and Sculpture on Display at Present in Institute

The present exhibition, of American painting and sculpture at the Art Institute is meeting with the cordial approval of the public. The hanging of the exhibit in the nine East Wing galleries devoted to the exhibition is especially attractive, the pictures being generously spaced are all hung in the line. Instead of grouping the sculpture in one room, it has been distributed about the various galleries, adding partly to the decorative feature of the show. Harmony of color, in hanging an exhibit, is also of prime importance, and this has been carefully considered in the present exhibition. A larger number of visitors than ever before has been noted viewing the exhibits and the sale of catalogues has been greater this year than at any previous year, a sure indication that art appreciation is growing among our people.

THOMAS JEFFERSON FORESAW DIFFICULTY Several Times Emphatically Warned Against Foreign Entanglements

Thomas Jefferson was a strict nationalist and an irreconcilable on the question of foreign entanglements, according to an article on "Thomas Jefferson and America First" by Frank P. Litschert in the current number of the National Republic. The article says, quoting Jefferson: "Determined as we are to avoid, if possible, wasting the energies of our people in war and destruction, we shall avoid implicating ourselves with the powers of Europe even in the support of principles which we mean to pursue. They have so many other interests, different from ours that we must avoid being entangled in them."

IMPROVEMENT BOARD MEETS, INDIAN HILL

First Session of Year Proves of Interest; Program Is Excellent
Several hundred members of the Indian Hill Improvement Association, and also numerous new residents of the section, gathered at the New Trier high school last Monday evening for the first time this year for a get-together meeting. A varied and interesting program was provided for the occasion. The Imperial Male quartet, one of the most famous musical organizations in the Middle West, obtained through the courtesy of B. Q. Tufts of Sunset road, gave a number of selections. The chief address of the evening was given by Robert Kingery, of the Chicago Regional Planning commission who told the assemblage of the work done by his organization. There were refreshments and dancing following the program. The association will meet the first Monday in every month, the next meeting being December 7.

HOUSEWIFE SHOULD BE LIBERALLY PAID

"If a housewife actually paid herself in dollars and cents what she saves her family in restaurant prices and doctor bills, she would be a high salaried woman," Mrs. Anna J. Peterson, director of the home service department of the Peoples Gas, Light and Coke company, Chicago, told members of the American Gas Association at their recent convention in Atlantic City. "Teaching this fact is one of the biggest things gas companies do in their home service work," she said. "We show a woman who feels this restless urge, to work out of the home, that home work pays big dividends. We actually show her in figures what she can earn by her efforts in the different branches of the home. We have found that wholesome cooking is the most lucrative field for woman's effort in the big home partnership."
