

TEACH BEE-KEEPING IN ONTARIO SCHOOLS

Practical experience in beekeeping is a part of the curriculum of rural schools in the Province of Ontario. In 16 schools in Wentworth county bees are kept in observation hives in the school room. The study involves little extra work on the part of the teacher, and is valuable as a nature contact and in contributing to the promotion of a great productive industry. The sale of honey in many schools has been more than sufficient to cover in one season the expense of installation and upkeep.

ONLY STATES WITH STRAIGHT BORDERS

Colorado and Wyoming are the only States in the Union having unbroken straight-line boundaries on all sides. Each covers the same number of degrees of latitude and longitude, namely four of latitude and seven of longitude, yet because of the convergence of the meridians toward the north the area of Wyoming is 6,034 square miles less than that of Colorado.

If these boys that wear the balloon trousers don't look out, they may be accused of unlady-like conduct.

Santa Claus Will Be Here Saturday And Every Day Until Christmas from 2 to 2:30 p. m.

Toys of today are more than playthings. They are the child's teachers through his most impressionable years. They give him lessons which could never be learned in school. Through them he finds the way to self-expression, and ways to work out the childish dreams which often take form in serious enterprises as years go by.

You Will Find A Wonderful Selection of Toys Here
