

MORE FACTS ABOUT STATE OF ILLINOIS

Deals With Organized Emigration of Children from England to Colonies

Coal produced in Illinois during 1924 was worth \$155,260,000.

Illinois telephone companies have 5,000 employees.

Chicago is the greatest brick-using city in the world.

Use of gas house heating in Chicago has increased 2,500 per cent during the last five years.

Illinois has more colleges than any other state.

Eighty-two per cent of Illinois communities having electric light and power are served by transmission lines.

Sixty-five per cent of the pianos manufactured in the United States are produced in Illinois.

There are 46 cities in Illinois which have local electric railway service. Illinois ranks second of the state in the use of Portland cement.

IN VIRGIN ISLANDS

Virgin Islands are practically free from adult illiteracy, according to a recent letter from the director of education of the islands.

The Danish government had maintained excellent schools for many years before the islands came into the possession of the United States.

WOOD FOR PAPER

The paper necessary for use in a page paper comes from the pulp of a block of wood two inches high, three inches thick and four inches long.

Therefore, to supply 3,600 people with a newspaper this size it is necessary that a cord of wood be converted into pulp from which newsprint paper is made.

In New York a judge has announced that at the next time a certain lady is caught before him for speeding, he will jail her husband. That should speed up the husband to a demonstration that he really is the head of the household. — Cincinnati Enquirer.

LIST MANY NAMES FOR SKOKIE ROUTE

SUGGESTIONS FOR DEPOTS
About 75,000 Titles Offered in Contest for Naming of the Several Stations; Progress In Work

Approximately 75,000 names for the nine stations along the new Skokie Valley route of the Chicago North Shore & Milwaukee railroad (the North Shore Line) were submitted by entrants in the \$1,000 award contest which closed December 1. A large staff of clerks is now tabulating the names, from which will be selected the nine most appropriate for the new stations. The awards of \$100 each for the nine names to designate the new stations, and \$100 for the best among all names submitted, are scheduled to be announced December 15th.

Many of the suggestions show considerable thought and investigation on the part of the entrants. It is the aim of the North Shore Line to secure names to be used in conjunction with the names of the suburbs, with a view to distinguishing the new Skokie Valley stations from those on the shore line route. The right-of-way of the Skokie Valley route is either within or closely adjacent to the boundaries of the beautiful North Shore suburbs of Evanston, Winnetka, Glencoe, Highland Park and Lake Forest.

The Judges
The committee of judges, who will choose the ten winning names from the vast number submitted, is composed of the following prominent persons: S. Charles Iverson, president of the Chicago real estate board; William L. Bailey, professor of sociology at Northwestern university; Frederick Rex, municipal reference librarian of the City of Chicago; Miss Caroline McIvaine, librarian of the Chicago Historical Society; and Daniel H. Burnham, chairman of the Chicago regional plan commissions.

Construction work on the new Skokie Valley route continues to progress at a satisfactory pace, according to North Shore Line officials. Everything indicates that the new line will be completed and in operation ahead of the date originally set. Work is now under way on erection of the five substations to relay electric power along the line. Construction of the new stations is expected to start in the near future. Winter weather is in no way impeding activities.

One of the main objects of the North Shore Line in rushing the new Skokie Valley route to completion is to have it in operation for handling its portion of the vast throngs that will attend the international Eucharist congress, to be held next June at the Catholic seminary at St. Mary's of the Lake, Mundelein. It is estimated that close to one million followers of the Roman Catholic faith will attend the congress, taxing all forms of transportation between Mundelein and Chicago, where the majority of the delegates and visitors will of necessity make their headquarters.

CASTLE IN THE AIR
AT OLYMPIC THEATRE
One of Best American Operettas Being Sung This Season; Good Cast

"Castles in the Air" looks like a substantial fortune for its promoters at the Olympic theatre, Chicago. It is half musical comedy, half operetta, gay, graceful, humorous; something different and something delightful. And it is no exaggeration to say that it was received with quite as much enthusiasm as Chicago last year gave to the premiere of "No, No, Nannette!"

The neatly workable plot is woven about a rich man's ward who changes clothes, with a cigaret girl at the country club to deceive a young collegiate whose friend has posed him as a prince. The rich man hires him to go an impersonating the prince in the kingdom of Latavia where Americans will visit, and there it turns out that he is no other than the prince himself—but willing to go back and become a good American husband.

The cast, unlike that of "Nannette" seems to be just about what it ought to be at the start. The surprise of this cast is its heroine, Vivienne Segal. The role fits her closer than her tidiest topnote. Miss Segal is more than a heroine; she is a singing girl. Others in the cast are Irving Beebe as the prince; Monty, Nannette's friend, Bernard Granville; Thais Lawton as the queen mother; Joyce White as a western soubrette, not to mention twenty girl and twenty boys in a chorus which simply cannot make their vitality keep still.

ADDITIONAL DEERFIELD
