CALLS ATTENTION TO PARKING AT HOSPITAL

Letter Says That Ample Space Is Provided at Main Entrance

The Highland Park Press, Highland Park, Illinois. Gentlemen:

Will you kindly permit me the use of the columns of the Highland Park Press for the purpose of calling the attention of the general public to the parking situation near the hospital.

Since the authorities have placed the "no-parking" signs at the ambulance entrance on Glenview avenue prohibiting thereby the parking of cars within the driveway, the residents next to and across from the hospital have been greatly annoyed by persons who park their cars partly on the parkways or directly in front of walks and driveways, tearing up the lawns, and preventing access to these homes.

The main entrance to the hospital is from Homewood avenue, one block south of Glenview avenue, and the parkway there in front of the hospital property is provided with crushed stone for parking purposes. My belief is that these two hundred feet of parking space are sufficient, and that if those connected with the hospital (the doctors and various board members) as well as the visitors would use the Homewood avenue entrance, they would find it better even from the point of view of their own convenience, since there is a sidewalk leading to the building.

I am sure that when the public realizes that ample parking space is provided on hospital property, we neighbors of the institution will no longer be annoyed, and I take advantage of this opportunity to thank the Highland Park Press for affording its readers the channels whereby matters such as this may be brought to the attention of the general public.

Cordially yours,

A. H. Woltze.
