NO LOSS
 A BIG FIRE NEEDN'T MEAN ANY LOSS!
 ASK COALE & SON

IT isn't the size of the blaze that governs the size of a fire loss—it is the amount of fire insurance you carry. Don't be a "fire-gambler" — you're taking too big a risk. Let us go over the insurance question with you. You fire your questions at us and we'll answer them.

Not a "Substitute" for people of this town—

People who have never burned anything but hard coal, talk about substitute fuels of all kinds. For thousands of people, Chicago Solvay Coke has been the standard for over 20 years. Hard coal makes more ashes, contains less heat and costs 30% more per ton than Chicago Solvay Coke. Good soft coal gives about half the heat and does damage with its dirt, smoke and soot.

Call your dealer and ask him about Chicago Solvay Coke. He will have a furnace and fuel man visit you. He will recommend the proper size of Chicago Solvay Coke for your equipment and suggest the best use of it for your increasing satisfaction.

AT CRIME, YOU CAN'T WIN. ET TU MA FERGUSON? PINCHOT'S PANACEA. AMBIDEXTROUS?

"Ma Ferguson, lady governor of Texas, says evolution must be removed from Texas public school books. One book actually said that for men to speak of men and animals is unwarranted egotism, for man is an animal, just as truly as the beast of the field."

Some beasts of the field would have something to say about that. Many of them don't commit wholesale murder and call it patriotism, don't lock the half-developed children of other animals in factories or mills and call it business, or underpay their brothers to increase profits that they don't need.

Senators Edge, King and Bruce agree that the workings of prohibition are enough to make the Demon Rum laugh himself sick, that drunkenness is rampant, and our political life "menaced."

A girl, twelve years old, is found unconscious in the street. Explanation, bootleg liquor. The police are investigating a dance given at a most respectable women's club. Explanation, too many bottles of bootleg liquor found in the place when the entertainment was over.

High finance denounces Governor Pinchot's suggestion that the coal fields be declared, "public utility." "A dangerous coal panacea," say spokesmen for "Big Business."

Is the coal business not a public necessity? Can people live without heat? Is it not the business of the government to protect the public welfare, putting that ahead of all other duties?

The real objection is not that Governor Pinchot's suggestion is "a dangerous panacea" but that it would interfere with the plans and profits of "Big Business," which is the real government of the United States.

Prof. Edward S. Morse, noted authority on geology, is dead, but still useful. Yesterday, his brain was sent by express to the Wistar Institute of Anatomy and Biology in Philadelphia. Prof. Morse was "ambidextrous," could use one hand as readily as the other. He had, in effect, two right hands. Scientists say an examination of the brain may explain that.

One thing is certain. If your child is left handed, don't try to make him use his right hand. That stupidity, which, centuries old, injures a child's mind, is useless.

Science might look in the dead man's brain for things more interesting than the secret of ambidextrous eccentricity.

What is it that works in there while the brain is alive and suddenly vanishes when the brain dies?

In England the body of King Edward has been moved so that his corpse, now dead for a long time, may lie beside that of his Queen, Alexandra, recently dead.

It is sweet British sentiment, but it is like taking the shells of the eggs from which two chickens has escaped, and putting those shells piously side by side. With the eggs it is the chickens that count. With the human body it is the soul. How close now are Edward's and Alexandra's souls? That's the question.

Pity the poor Duke of Northumberland. His income is \$375,000. Income taxes and other taxes take \$200,000. The British government knows how to tax and how to collect taxes.

Here, instead of making taxes bigger, thanks to President Coolidge and Secretary Mellon, billions are paid off on the war debt and taxes steadily reduced. *Happy U. S. A.*

War, which is wholesale crime, theft and highway robbery, retail crime do not pay. Edward F. Kellar, famous in crime ten years ago, recently let out of prison, went to work in a bank, stole \$13,000, took it in a taxicab and was found dead. The doctor said fear killed him. Crime doesn't pay, or as the striking anti-crime poster says, "You Can't Win!"

The next great war is a favorite topic of conversation with a great many people who were not in the last one.—Detroit News.

One reason why the Riffs get so much attention for their war is that they go into a headline so easily.—Boston Transcript.

FINAL SPECIAL ASSESSMENT NOTICE
 DEERFIELD SPECIAL ASSESSMENT, DOCKET NO. 23
