Winter or Summer

BUICK Performance Is Better

At zero, Buick Automatic Heat Control means easy starting and smooth running immediately. In every temperature, this exclusive Buick feature insures gasoline economy, automatically, and at all speeds.

Buick mechanical 4wheel brakes make secure, footing that is insecure. Through two winters and two summers half a million Buicks have proved the all-year dependability of the Buick type of brakes. Their direct, mechanical action is not affected by weather changes.

And not even a blizzard will harm the Buick Valve-in-Head engine. Every point where metal would rub metal is lubricated under pressure.

You will not find another car today, regardless of its price, with its performance so perfectly protected. Winter or summer, a Buick is better!

BUICK MOTOR CO. Division of General Motors Corporath FLINT, MICHIGAN

Better Buick Six Cylinder Valor-in-Head motor cars range in price from \$1125 to \$1995, f. o. b. Buick factories. Among the Buick open and closed models there is one that will meet your desires exactly.
