PLAN TO IMPROVE SO. SHERIDAN ROAD

BETWEEN H. P. & GLENCOE

President Cook County Board In
Announcement Says Work to
Start Soon; Other Sub-
urban Roads

Here's an item of interest to the motorist who uses Sheridan road, frequently in his travels; also the automobilist-music lover who frequents the rustic beauty of Ravinia Park in the summer months during the opera season.

Anton J. Cermak, president of the Cook county board, made the announcement this week that a section of Sheridan road, between Highland Park and Glencoe will be under construction in a few weeks. This road, part of State Road R. 42, has been in poor condition for some time.

The construction includes the building of the bridge on the south village limits of Highland Park. According to present plans it should be completed and ready for traffic in June prior to the opera season. Paving of the County Line road from Sheridan road to the Green Bay road, will be started directly after the opera season at the park. As one link is utilized as a spur or detour while the other is improved, it is the desire of Mr. Cermak to work on one at a time.

The county board president believes it unwise to interfere with Sheridan road traffic during the summer months. The portion of Sheridan road through Glencoe is tied up at the present because of litigation. It is uncertain when this portion can be put under construction.

Seek Harmony

Complete harmony between officials of suburban villages, interested property holders and officers of the county board over road improvements will be the policy of the Cook county board.

This was apparent by the indication of President Anton J. Cermak today, following a meeting of mayors and representatives of the North Shore villages of Glencoe, Winnetka, Wilmette and Evanston in regard to paving of Railroad avenue and Asbury street through these villages. Mr. Cermak received a protest from representatives of property owners along Asbury street, relative to making this thoroughfare a State ABB road connecting Railroad avenue on the north with Western avenue at the city limits of Chicago.

Residents of Evanston living on this street feared the improvement and paving would make this a truck route. A future meeting is planned with members of the regional planning association to thrash out the next move.

Mr. Cermak said in commenting on the situation that though road improvements would be as expeditious as possible there would be no "forced action."

WOMAN BURNED IN SAVING SMALL BOY

Mrs. James McBride and Grand-
son Badly Injured In Ac-
cident, Mundelein

James McBride, age 6 years, son of Harry McBried of Mundelein, was seriously burned about the hands, arms and face. His grandmother, Mrs. James McBride was also burned about the hands in her fight to save the life of the boy in an accident that happened in their home last week.

The boy has thrown some kerosene on a stove. When it ignited he became frightened and sought to stamp it out with his hands which were gloved. His gloves were ignited and the fire spread to his clothing.

KENILWORTH POST- MASTER IS ROBBED

While on his way home from work last week, John Cuckheisen, postmaster of Kenilworth, was held up by two men and robbed of a diamond ring and a pin, valued at \$200 together, and \$300 in cash. The robbery occurred at Railroad and Linden avenues, on the outskirts of the village. The men also took from Cuckheisen a paper containing the combination of the safe at the postoffice. They escaped in an automobile.

N. S. DANCE CLUB PLANS MASQUERADE

The North Shore Dance and Card club will sponsor a masquerade frolic, the first informal affair of the season, Saturday, February 20, at the Winnetka Masonic temple. A genuine old-fashioned party is anticipated. Guests are requested to mask, although the costumes may be very simple.

Mayor of Waukegan Died Last Saturday

Prominent In Life of That City
For Many Years; Head of
Large Bank

Mayor Theodore H. Durst, for 20 years a prominent figure in Waukegan's financial life, and a leader in all civic affairs, died Saturday afternoon at 2:10 o'clock at his home, 454 Hickory street, in that city. He was 64 years old. His death followed a long battle to recover his health.

Thirty-six hours before the end, Mayor Durst lapsed into a comatose condition and from that time until his death the members of his family were at his bedside constantly. The end came peacefully, for although Mr. Durst had been critically ill for a long time he never had suffered any severe pain.

The deceased had been in the public eye since 1891 when he took a minor post with the Security Savings bank, then being organized. It opened with a capital of \$50,000, but by the end of the year deposits were well in excess of \$300,000.

His life was not one filled with luck. He worked hard for every step upward. By 1898 he had become cashier of the bank and in 1907 was made president. He held that post for 19 years, resigning at the first of the year. His bank refused to let him drop from sight and promoted him to the chairmanship of the board, while the building committee rushed ahead with plans to erect a new seven story home. The growth of the bank is a history of the deceased, and a good indication of his ability as a financier and builder.

His initiation into politics came in 1912 when he was elected city treasurer. His work so pleased the city that he was appointed commissioner four years later upon the death of Commissioner George N. Powell.

At the last election Mayor Durst received almost 4,000 votes, and every plank in his campaign program has been carried out to the letter.

NEW TRIER TOWNSHIP CANDIDATES NAMED

Nominations Made By Citizens
League at Meeting Held
Last Week

Candidates for various township offices to be filled at the annual New Trier Township election in April were nominated at a meeting of the officers and directors of the New Trier Citizens league held at the City club, Chicago, last week.

Offices to be filled this year are those of assessor, collector, supervisor, clerk, and township school trustee. In each instance, except that of school trustee, the nominee is an incumbent, the candidates including:

For assessor, George R. Harbaugh, Wilmette; collector, Sanborn Hale, Winnetka; supervisor, Mrs. Gertrude M. Thurston, Winnetka; clerk, Mrs. Leland Pierson, Wilmette; school trustee, Auguste C. Bahize.

The New Trier Citizens' league, one of the oldest civic organizations on the north shore, has its membership in each of the four communities in the township.

PLAN TO SELL GLEN GABLES TEA ROOM

Glencoe Organization Decides to
Dispose of Inn and
Accessories

At a meeting held Thursday evening of this week, the managing board of Glen Gables definitely decided to sell the inn and tea room which has been an institution in Glencoe for the past six years. Several weeks ago there was a meeting of the shareholders of the Glen Gables association at which it was recommended that Glen Gables be sold, as it has served its original purpose, which was to furnish homes for teachers in the public school. The housing shortage is no longer felt and teachers are able to find homes elsewhere and it is the feeling of the members of the association that Glen Gables should be operated as a commercial institution instead of a semi-philanthropic one.

NEW OFFICERS FOR WOMAN'S AUXILIARY

Newly elected officers of the Woman's Auxiliary of the Episcopal church of Chicago, residing in Winnetka, who were elected at the annual meeting at St. Peter's church last week, are Mrs. Hermon B. Putler, vice president; Mrs. C. C. Daughaday, district vice president; Mrs. Frank Blatchford, recording secretary. Mrs. Curtis Camp of Glencoe is chairman of deaconesses. The auxiliary includes branches in 100 parishes in the Chicago diocese.

"Interwoven as is the love
of liberty with every liga-
ment of your hearts, no
recommencement of mine is
necessary fortify or con-
firm the attachment."

—Washington's Farewell Address

Glencoe Women's Library Meeting

Club Has Interesting Session,
Hears Mary Hastings Brad-
ley Tell Adventures

The Woman's Library club of Glencoe held a most delightful meeting last Thursday afternoon. The program was given by Mary Hastings Bradley and Miss Laura Williams. Mrs. Bradley, author of "Caravans and Cannibals," took that subject for her lecture and spoke of both of the trips to Africa which she and her husband made. She spoke without notes, and her talk was most interesting. She told of many adventures with a sense of humor which made them even more interesting.

Miss Williams, who gave the rest of the program, was of especial interest to people in Glencoe as she is a Glencoe girl. She gave two groups of Arabian songs in costume and was accompanied by two native musicians. Her voice was charming and her interpretation most artistic.

This program was one of the most successful given this season and the hall was filled to overflowing. Many former Glencoe members were present including, Mrs. Becker, Mrs. Sargent and Mrs. Williams. Miss Williams' mother.

A social hour followed the program and delightful refreshments were served.

POSTMASTERS MEET AT GLENCOE OFFICE

Inspect New Quarters and Are
Much Pleased With Equip-
ment and Work

The first meeting in Glencoe of the Association of North Shore Postmasters since the enlargement and improvement of the Glencoe post office, last week, gave the members of the association an opportunity to inspect the fine, up-to-date quarters of which Postmaster Percy A. Armstrong and all of Glencoe are justly proud. There were sixteen members of the association present and all were agreed that Glencoe is now about the best equipped of any post office on the north shore. The visitors enjoyed a fine dinner at Glen Gables and were most lavish in their praise of both the place and the service. Following the dinner the association held a meeting at the post office, where a session, both pleasant and profitable, resulted from the "shop talk" program.

VOTE TO SELL LAKE COUNTY FAIR GROUNDS

Stockholders Hold Meeting at
Libertyville and Decide
on This Step

The stockholders of the Lake County Fair association held a meeting at Libertyville Tuesday afternoon at which they voted unanimously to authorize the board of directors to negotiate for the sale of the fair grounds. Recently the directors called a meeting at which they accepted bids for the sale of the property. It was discovered, however, that the directors were acting unlawfully in calling this meeting without being authorized by the stockholders. It is expected that the board will re-advertise for bids.

NAVAL HOSPITAL TO GET PATIENTS

Seventy-Five Mental Cases to
Be Transferred There
From Elgin

Seventy-five ex-service men whose mentality was affected by the World war, are to be transferred from the Elgin state insane asylum to the new hospital at the Great Lakes naval training station between now and the first of March as a result of arrangements that have been made by the Veterans' Service Bureau.

The Great Lakes hospital will have 350 beds available by May 1, it is announced by Dr. Ralph T. Hinton, head of the Elgin hospital. It is announced further that the station hospital will have an accommodation of 850 beds with the completion of the building this spring.

KENILWORTH PLANS MANY IMPROVEMENTS

The Village of Kenilworth is advertising for sealed proposals on contracts for the installation of a steel elevator water tank, motor driven centrifugal pumps, switching and metering equipment and chlorinator for the municipal water plant of the village.

Kenilworth purchased its water plant in July 1925, and is now rehabilitating it.

GLENCOE PLANNING SCHOOL AUDITORIUM

OTHER IMPROVEMENTS

North Side Building Projected
and South Structure Under
Way; Subscriptions for
Assembly Hall

With the Glencoe south side school already under construction, the board of education has announced the belief that work on a similar building on the north side should be started by January 1, 1928, to care for the smaller children in that rapidly growing section of the city. And the board hopes in the meantime to complete the public school auditorium on the central site that it may be in full operation long before the north side school is started.

This is the building program which the board has mapped out, and toward which it is working. All buildings save the auditorium will be financed by funds secured in the regular channels. And the campaign to raise by popular subscription the necessary funds for the auditorium was given additional impetus by a strong letter issued by the committee in charge during the week.

Deprived of Necessity

This letter, signed by Edward R. Johnston, Abel Davis and Mrs. George Pope, for the committee, sets forth the fact that children in the Glencoe schools are deprived of the opportunity to celebrate together with patriotic exercises, the two holidays that come during February. Lincoln's and Washington's birthdays are occasions of much importance in school work. Opportunity is taken to assemble all pupils for programs which instill love of country and knowledge of the contribution to our lives made by the men who founded and saved the nation. While the public school auditorium will be used daily for assembly purposes, its lack is especially emphasized on such occasion, not alone for the school children, but for the community as well.

\$123,000 Now Subscribed
The letter of appeal lists the names of those who have subscribed to the auditorium fund, a total of \$123,000, and paid in \$50,000.

DONATE RADIO SETS FOR ORPHANAGE USE

Lake Bluff Institution Receives
Appreciated Gifts From
Organizations

Through donations from the building trade industries, tanners, lathers, plasterers, plumbers, painters, steam fitters, laborers, electricians, and brick masons, and the kind consideration and thoughtfulness of the Warner Electric company, Waukegan, a radio of the best quality was purchased and installed in Judson hall at the orphanage at Lake Bluff, during the holiday season. This radio provides pleasure and entertainment for the girls and nursery children.

The carpenters' union, Waukegan, also purchased and installed a radio of the best quality to provide pleasure and entertainment for the boys in Wadsworth hall.

Workers and children have enjoyed these radios and especially appreciate this expression of interest.

BENTON HARBOR TO MEET NEW TRIER

Interesting Basketball Game Is
Scheduled For Friday
Evening

One of the most interesting basketball games of the season will be played next Friday evening at New Trier high school, when the Gray and Green cagers play a team from Benton Harbor high school, which is coached by "Tillie" Linden, former football coach at New Trier high school. Linden has been with the Benton Harbor school for the past three years and has been noted for his excellent football and basketball teams. His cagers have only lost one game this season, and that by a margin of only two points. They are rated as the champion high school team of Michigan and are expected to test New Trier's team to the limit.

WILMETTE BOY GETS HONOR AT ILLINOIS

Robert Garretson, son of Mr. and Mrs. G. R. Garretson of Wilmette, a former student at New Trier high school, has made the highest scholarship record of any of the freshmen in his fraternity, the Theta Delta Chi. He won the 4.5 which entitles him to the honorary fraternity for men and the pre-law fraternity. He is the only student from New Trier ever to achieve the record at the University of Illinois. Robert returned to Illinois this week after spending his mid-semester vacation at home.
