WANDA LANDOWSKA IN COMING CONCERT

Famous Harpsichordist Appears March 6th in Lake Forest College Chapel

Music lovers will have a novel experience when Wanda Landowska, the most famous harpsichordist of the day, appears in the Third Subscription Concert under the auspices of the Lake Forest School of Music on the evening of Saturday, March sixth, in the College Chapel. Wanda Landowska had already made her reputation as a pianist in France when, to quote her own words "She fell in love with the harpsichord". This instrument is one of the ancestors of the piano, and was first heard of in the fifteenth century. It has two keyboards, but when the keys are struck the strings are plucked, not hammered. Changes in quality are made by means of pedals. The effect is something like that of a harp, but it is impossible to describe its tone adequately in words. Madame Landowska has an infallible technical equipment, and plays with delicate charm and humor.

In this concert she will be heard both upon the harpsichord and the piano. Her program will include the well-loved Sonata in A major of Mozart with the Turkish March, a Bach Suite, Handel's Harmonious Blacksmith Variations, and smaller compositions. To hear Mme. Landowska will be a musical feast, and to hear her in Lake Forest is a very unusual opportunity. A few tickets may still be procured at the School of Music.

CHILD-STUDY BOOKS AT PUBLIC LIBRARY

List Is Suggested by Parents and Teachers Interested in Child Study For Use in Home

A child should, at birth, be solemnly dedicated to the highest ideals of service his parents and the public can evolve for him. All the forces of his home and of society should be directed, during his early years, to teaching him those physical, mental, social and spiritual activities which make for character development and good citizenship. To this end the following list of books has been compiled. These books may all be found on the shelves of the Highland Park Public Library, and have, for the most part, been selected by parents and teachers of Highland Park who are vitally interested in concentrated child study and in child training.
