**What Is a One-Cent Sale?**  
It is a sale where you buy an item at the regular price, then another item of the same kind for one cent. As an illustration: The standard price of Klenzo Dental Creme is 50c, you buy a tube at this price and by paying 1 cent more, or 51 cents, you get two tubes. Every article in this sale is a high class standard piece of merchandise, just the same as is sold every day at the regular price.

**A Profit-Sharing Method of Advertising**

This sale was developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you a full size package of high standard merchandise for 1 cent. It costs money to get new customers, but the sacrifice in profit is justified, as we know the goods will please you.
