

SAYS RESTRICTION ON RUBBER REMAINS

MOTOR CLUB HEAD TALKS

Reduction of Costs Largely Due to Widespread Economy in Tires By Americans, He Declares

"Statements recently made to the effect that British restriction on rubber has been removed are untrue," declares Charles M. Hayes, president of the Chicago Motor club. "The fact is that on February first the restriction was raised so as to permit the 100 per cent production of rubber applied to the year 1920. The actual rubber producing capacity of the British plantations on February first was 13 per cent above the amount fixed by law and consequently the British government is restricting production to the extent of 13 per cent.

Force Decline
"Despite this restriction, consumers acting upon the advice of Secretary of Commerce Hoover, the American Automobile association, and other organizations, reduced their demand for rubber by using greater care in having tires repaired promptly, with the result that the price of crude rubber began to decline almost immediately. The price was quickly hammered down from \$1.10 to 50c a pound. The rubber report of the house committee on Interstate and Foreign Commerce shows that attendant circumstances to this remarkable result include a 16 per cent lower consumption of crude rubber in the last quarter of 1925 as compared with the previous quarter; a 46 per cent increase in the sales of tire repair materials; an appreciable decrease in tire purchases and a consequent increase in tire stocks; an 80 per cent increase in the consumption of reclaimed rubber; and substantial increases in the stocks of raw rubber at New York and London.

Savings Result
"The campaign of economy directed by Mr. Hoover means simply this: If raw rubber does not go below the present price, car owners will stand to save at least \$280,000,000 that they would have paid this year if the stranglehold on the consumer had not been broken."

The boys do not show great activity in pursuit of knowledge, but they are all willing to be taken for wise guys.
The women discussing how to hold their husbands, which may be a suggestion that they have never acquired the art of making pie.

INVITES BOYS TO JOIN SUMMER CAMP

Local Youths Told of Advantages of Camp Roosevelt at Fort Sheridan

William McAndrew, superintendent of the Chicago public schools, has issued from his office at the board of education an invitation to boys of this city to attend Camp Roosevelt, the only public school training camp of its kind for boys in the United States. Camp opens on June 28 and is operated until August 14. Secretary of War Davis has granted authority for holding the camp on the Fort Sheridan Military reservation, just north of Chicago. Camp will be under direct government supervision, officers being detailed to direct and instruct the boys. A competent school faculty will have charge of the camp summer school which is a part of the Chicago summer school system.

This school is unique in that it is a real camp school, all classes and assemblies being held under canvas. Credits earned are fully recognized by Chicago schools and are transferable. Boys from here who attend the summer school must have the subjects which they desire to take approved by the principal of the school from which they come.

The invitation to our boys to attend Camp Roosevelt is not confined to those who want summer school work as there is provision for both older and younger boys. The recreational features are well organized and conducted, the athletics and swimming being directed by competent teachers of physical education from the Chicago high schools.

The health of the boys is cared for by the American Red Cross, being under the immediate direction of the First Aid Chapter of Chicago. A corps of physicians and nurses is on duty all the time for the treatment of minor injuries and ailments, this without cost to the student.

Men are already employed in getting the grounds and buildings in shape for the opening. Menus are being prepared by the mess officers and orders placed for the best quality food stuffs. Fresh dairy butter and plenty of pasteurized milk form an important part of the daily diet, as do fresh vegetables in season. Good cooks make possible the serving of better meals than is generally considered possible in camp. The thoroughly modern kitchens with all of the latest devices for the skillful preparation of food and considerably to the quality of the food furnished the boys.

The American people are all willing to sign petitions for anything, as that is the easiest known way to get rid of a canvasser.

HOLD COUNCIL ON CHILD EDUCATION

The Central Council of Childhood Education will hold its annual luncheon in the Louis XIV room at the Sherman hotel (Chicago) at 12:30 o'clock on Saturday, May 15.

Miss Alice Temple, president of the International Kindergarten Union, will give a report of the recent meeting of that organization in Kansas City, and Mrs. Mary Boomer Page, who recently returned from Europe, will tell of the educational work in several of the schools she visited.

Even the birds are intelligent enough to join the own your home movement as they build their nests.

It is wonderful the way the politicians love the people, particularly about election time.

There are many folks who believe in giving the devil his due, which may be owing to the fact that the devil seems to control a good many votes.
