A SPORTS WINDOW. OUR WOMEN HOMELY? RUBBER! TOO BIG FOR THEM.

It was decided to put a "Sports Bay," a beautiful window of colored glass, in the \$25,000,000 Protestant Episcopal Cathedral of St. John the Divine, in New York.

As originally planned, the "Sports Window" for the Cathedral included a picture of live birds, released from a trap and shot dead for the amusement of "sport."

If, however, a modern Christian cathedral really needs a sports window, why not have a nice stained glass picture of Jack Dempsey knocking out Mr. Wills, the colored man. That, at least, is legal in New York state.

A Tibetan lady named Rin-Chan Lha-Mo says, "Western women are not good-looking." Meaning Americans, English, French, etc.

The lady says our women's noses and ears are too big; noses like kettle spouts, ears like pigs' ears, eyes a silly blue like children's marbles, eye sockets too deep, eyebrows too thick like those of monkeys.

This criticism of our lovely females will amaze you, especially if you have ever seen a Tibetan lady with nose flat, eyes on the outside of her face, etc.

If Europe multiplies her combinations in rubber, steel, etc., shutting out poor little America, and making us pay high prices, somebody will have to write a national sob anthem for the United States. Secretary Hoover, first to shriek with alarm when British made us pay more for rubber, says he doesn't believe the United States will be included in the great European steel trusts.

They will buy from each other and shut us out. That is sad, but we have a tariff and can do a little shutting out on our own account.

The principal American steel stocks went up yesterday, in spite of the trust. Europe may have the trust, but we have the money.

New Orleans is about to inaugurate an "air field" with ample accommodation for post office, army and civilian flyers. Each city should possess such a field and invite Uncle Sam to send his post office airships there. Postmaster New and the President will be found eager to co-operate in every way.

The New Orleans flying field is especially important, because of New Orleans' strategical position. An adequate flying field there, with the possibility of establishing a military air base in an emergency, would be most important to the protection of the Panama Canal.

Secretary Work talked plainly and usefully in Los Angeles, telling the big power men, who think they should control the Colorado water and power, that some jobs are too big for them. Mr. Work is not hostile to big business of the right kind. He knows it has built this country, our government confining itself largely to politics and to running for office.

But the secretary of the Interior makes it plain that some of America's undertakings are too big for anyone but Uncle Sam. The great Boulder Dam project is one of them. The Panama Canal was another. Even the French, masters of engineering, could not manage that.

Mr. Work suggested that those interested in Colorado waters, for irrigation or power, should make their bids, at a definite price. The idea is to have facts to put before congress, proving that the scheme will pay. Such facts may be necessary to convince some unwilling or dull congressman, but they ought not to be necessary. In the case of a great gold mine, congress would ask only for proof that the gold was there, then the digging would begin.

The Colorado water offers a sure mine of power, fertility and wealth, greater in value than all the gold mines ever found in California. Every congressman of intelligence not interested in anybody's private exploitation scheme, will be for the Boulder dam.

WINNETKA PLANNING RESURFACE STREETS

In accordance with previous custom, the village of Winnetka plans to resurface a considerable number of macadam streets during the present season, under the arrangement whereby a portion of the cost is paid from the vehicle tax fund and the balance by abutting property owners, who desire to have these old macadam pavements maintained, rather than replaced by permanent concrete base pavements.

In previous years, the village has depended on the voluntary subscriptions of property owners, and has secured the very general co-operation of resident owners, but it has always been very difficult to secure the support of non-resident owners.

At the last session of the Illinois legislature, a law was enacted giving municipalities the power to levy special assessments for street resurfacing work, thereby distributing the cost on all property benefited. The council has decided to adopt this plan for the present season's work, assuming approximately 40 per cent of the cost or about \$5,500.00 from the general fund, and levying the balance of about \$8,500.00 against the benefited property in one installment, payable next spring.

The cost will be approximately the same as in previous years, namely about 15 cents per front foot for full width streets and the only difference will be that this amount will be payable to the village collector instead of on a bill from the general village office.

Mussolini calls getting shot in the nose a gentle joke. Wonder what he would consider a rough one?

W. J. Bryan's daughter is running for congress from Florida. She ought to win if she can line-up the real-estate taters.

Mr. Browning considers taking his Cinderella bride to Europe and it is to be hoped that the glass slipper doesn't get lost in a custom house some place.

Juicy Apple Pie

OUR pies are famous—all our baked goods are of top notch delicious quality. This is a pleasing place to eat. Have you heard about our pure food that is so well cooked? Surely.

NEWS NOTES

About the North Shore Line

Published by Chicago North Shore & Milwaukee Railroad Co.
Milwaukee, Wisconsin Week of May 17, 1926 Chicago, Illinois

DO you know that the best way to reach Lake Geneva, Antioch and many other popular resort centers is via North Shore Line trains and North Shore Line connecting motor coach routes operating directly to these places? For particulars ask any North Shore Line agent.

North Shore Line takes you close to both places. Ask any agent or conductor where to leave the train.

ARE you watching our weekly card of current events posted at all North Shore Line stations? It tells you what's worth seeing in athletics, exhibits, concerts, lectures and other varied attractions along the North Shore Line.

Going East? West? South? Remember, railroad connections in Chicago are most conveniently made via the North Shore Line. Operating over the lines of the Chicago Rapid Transit Co. ("L"), the North Shore Line brings all railroad stations within easy access; direct connections are made with some. Our ticket agents will gladly make Pullman reservations for you on any railroad going out of Chicago.

KNOWING that their families are protected financially against illness or disability, North Shore Line employees can keep their minds whole-heartedly on their work. North Shore Line employees are protected by a service annuity plan, by group insurance and by their own mutual benefit association. A large percentage own their homes in North Shore towns.

WHY not spend a pleasant day in Chicago at the Field Museum of Natural History and the Chicago Art Institute? The

Every man and woman of the 2000 employed on the North Shore Line is striving constantly to merit your friendship and good will.
