German service-11:00 a. m. One of the greatest needs of the church is to get a correct Christian view point of the child's relation to Christ and the church. The normal program is for the child never to be anything but a Christian, and with proper instruction, example and direction, in most cases it would never be anything else than a Christian. With much regret, however, we must admit that due to parental neglect and indifference as to religious training of their children these children become backsliders, and it is only with the utmost care and with the proper application of the teachings of Christ that these children again become children of God. The best program to follow is this: Accept the children as Christians from birth, train them in the love and fear of God and in the practices of a godly life. In all this let the church school help you. For your child to get the most out of a church school send it

The Service Sunday is of special interest for the children. We want them to go home Sunday and say, "That was our Service." Parents and friends of the church school are especially invited.

# PRICE LOVE?

A Story for Every Woman

The story that every woman has waited for for years has been written.

"What Price Love?"

A comparatively unknown writer named Dorothy Day has written it.

"What Price Love" touches the never absent question of every modern girl and reaches back Into the experience of every older woman.

Nothing like it has ever been done before.

It is greater than "Chickie" because, while it has all of the love scenes of "Chickie" and all the dramatic climaxes in the life of a great passion, it has a greater background than "Chickie," which lifts it to the very song of songs in the emotional life of womanhood.

Chicago Herald and Examiner has secured the exclusive right to publish this story before it appears in book form.

-Every woman in this city will read it almost breathlessly from day to day. Every girl will live it as each chapter unfolds the intensity of it from day to day.

Not one of you will want to miss it. So be sure to order your Herald and Examiner now from your nearest newsdealer or from the Herald and Examiner's Circulation Department.

You can get FREE advance chapters of this absorbing story from the newsdealer in your neighborhood,
