

**PLANS NEW SYSTEM OF FREIGHT HAULING**

**North Shore Line Reported to Be Working Out Better Handling Plan**

Reports that the Chicago North Shore and Milwaukee railroad is contemplating the adoption of a new system of freight hauling that will not only promote economy for the railroad but likewise service to its patrons, is arousing much interest in railroad circles. The scheme is projected if carried through is novel to an extreme and is regarded as a distinct departure in railroad projects.

It is understood that the railroad company is planning on placing a series of flat cars into service that will serve as carriers for special types of automobile trailers, which are likewise to be adopted by the company.

If the plan is carried the trailers can be loaded in various parts of the city and then conveyed by auto to terminal points where they will merely be loaded on cars and then hauled to the city to which they are consigned. After reaching there they are again taken from the cars attached to autos or tractors and then conveyed to industries or commercial houses where they will be unloaded. The scheme will be especially advantageous in the handling of carload lot shipments of freight it is declared.

The scheme would offset the necessity of the transferring of freight at terminals, offsetting possibilities of loss by damage on the mislaying of articles. It would guard against possible delays.

The plan is regarded as one that could be followed with success on all railroads and it is likely that if it is adopted by the North Shore that other lines will follow suit.

We haven't studied that new European scheme for paying off all the world's debt at once, but on the face of it, it reminds us somewhat of a lot of those Florida real estate circulars.

A food pointer of value — eat good bread.

# The Great Masonic Monument in North Shore Cemetery

Is Now Complete and will be dedicated by a Program of Music, Addresses and Scripture Reading on Sunday, June 20, 1926, at 2:30 P. M. See news columns for brief description of this superb and beautiful Doric Memorial to the Memory of Masons "Who have passed the unseen Portals."

## Hundreds Now Know That NORTH SHORE CEMETERY

is the Finest Landscape Garden place of interment in America. It is unequalled in the following features:

- (a) The surface is pleasingly undulating—not a level half-acre. It is on the divide between the Mississippi and the St. Lawrence river basins and 125 feet above Lake Michigan.
- (b) Best drainage system possible.
- (c) Upwards of 70 varieties of TREES and as many varieties of BLOOMING SHRUBS, a veritable ARBORETUM,—nothing equal to it elsewhere in the U. S.
- (d) No GRAVE MARKERS above ground and in three sections no monuments—the garden effect complete. No repulsive stone-yard scenes.
- (e) The most imposing CEMETERY ENTRANCE in the country,—massive light granite.
- (f) Finest CENTRAL MONUMENT in MASONIC SECTION, worth driving 100 miles to see.
- (g) Greater display of ROSES—from June to October—than in any other place of interment in U. S.
- (h) Its architecturally beautiful stone ADMINISTRATION BUILDING inaugurates a new era in American cemetery architecture. In beauty—of both exterior and interior—and in practicability and permanency it surpasses all other American cemetery office buildings.
- (i) Its summer and winter SPECIAL CARE of graves is admired by all visitors, the only place of interment in Lake County with this feature.
- (j) The only cemetery in Lake County or the North Shore which has a complete GREENHOUSE range growing a fine line of plants and flowers for the accommodation of its lot owners and the public generally.
- (k) Its NURSERY contains the best lot of evergreens in the U. S., also more than 60,000 young deciduous trees and shrubs, grown primarily for use in landscaping the Cemetery, but open to purchase at reasonable prices by lot-owners and the general public.
- (l) NORTH SHORE is one of the few cemeteries in the country protected by an ample PERPETUAL CARE FUND placed with a trust company as a TRUST FUND beginning with the first lot sold and filing name of each purchaser with periodical deposits on the basis of \$17,000 per acre, absolutely beyond the reach of the management for all time, the income only to be used for the care and protection of the Cemetery.
- (m) North Shore Cemetery is for white people only.

NORTH SHORE CEMETERY is for people who care for BEAUTY and PERMANENCY.

PRICES OF LOTS WILL BE ADVANCED ON JULY 1ST, AS THEY ARE VERY MUCH LOWER THAN PRICES OF LOTS OF SIMILAR AREAS IN THE LEADING CHICAGO CEMETERY.
