THRIFT EDUCATION PLAN IN SCHOOLS

A comprehensive plan of thrift education has been worked out by the Los Angeles school system and a course of study has been formulated as an aid to teachers in developing habits of thrift and establishing right attitudes toward savings. The plan is applicable to all elementary grades. The textbook is the outcome of practical experience, and suggests methods of correlating the study of thrift with other school subjects. Twenty-four member banks of the Los Angeles school savings association act as depositories, and these banks and their branches are obligated to cooperate with the schools and the school savings. In the school savings department 66,965 pupils have savings accounts, and the total deposits are \$702,191.
