ARDEN SHORE CAMP HAS QUIET PERIOD BETWEEN TWO SEASONS

Summer Camp Ends and Members Gone; Winter Complement Coming; Details of Work Done

With the first faint tracing deep in the heart of the woods at Lake Bluff presaging the end of the summer and the approach of the autumn, Arden Shore is at the period of camp closing for the interval between summer and winter camps.

Sunday marked the departure of the last group of campers there for their Chicago homes, and not until Monday will there again be the stirring activity there that surrounds the beautiful place where old and young have the opportunity to breathe fresh and enjoy outdoor living away from city heat and congestion from time, that the Chicago schools will be in June until very near to their opening in September.

Approximately 3,000 people have been at Arden Shore at various periods during the season. Practically 1,000 more children than are normally cared for there have had their summer at Lake Bluff. Co-operation with the "off-shore" movement advanced by various organizations and welfare agencies, according to the superintendent, Miss Anna Belle Ferrier. It has been cool, there has been just enough rain, and the jinx that in other years has pursued venturesome small boys with broken bones, has been singularly absent. Miss Ferrier pays high compliment to the able staff that has helped with the camp activities this season.

North Shore people may still lend a hand, however, regardless of the impending camp closing, for there is need for discarded summer clothing of all description at the camp.

AGED WINNETKA RESIDENT DIES

Julius Karl Ulbricht, a resident of Winnetka for the past forty years, at his home, there, last week, at the advanced age of 81 years. Mr. Ulbricht was born in Saxony, Germany. He came to this country forty years ago locating in Winnetka, which he has since been his home. He formerly was engaged in the butcher business, both there and in Glencoe, and later for some years was employed as gateman for the Chicago North Shore Electric Railroad company, in Winnetka. Mr. Ulbricht's health failed rapidly, the past year, but he was confined to his home only three weeks preceding his death.

The widow and five children survive. A daughter, Mrs. Julius Pergander, lives in Chicago, and one son, Alfred, lives in Evanston. Charles, Julius, Jr., and Miss Julia, are at home.

WINNETKA SCHOOLS OPEN SEPTEMBER 13

Winnetka public schools will open Monday, September 13, it is announced. North Shore Country Day school will not open until September 20. S. R. Logan, the new principal at Skokie school, who has taken the Jenkins house at 1047 Elm street, is expected to arrive in the village from Gardin, Montana, this week-end. Miss Nelle Olson, who comes from Minn., as the new librarian at Skokie, has arrived and is familiarizing herself with her duties, prior to the opening of school. Last year the library was in charge of Mrs. W. W. Beatty, in the forenoons and Miss Florence Canning, who taught in the English department, served as librarian in the afternoon.

GLENCOE MEN WILL PLAY AT KNOLLWOOD Annual Tourney of Club to Be Held There Wednesday, Sept. 15th

Knollwood Golf club, on Waukegan road, west of Lake Bluff has been selected as the scene of the annual golf tournament of the Glencoe Men's club.

Thither the members of the club will journey on Wednesday, September 15. While the tournament is primarily for members of the Glencoe Men's club, yet any resident of the village who is not now a member but is desirous of joining, will be eligible to enter the tournament by paying his dues to the club, which, however, will not hold its first business meeting of the year until September 30. Eighteen holes will be played in the morning and eighteen in the afternoon. Bert M. Kohler, chairman of the committee in charge of the tournament, announces that a complete set of excellent prizes have been provided. Arrangements will be made with the Knollwood club to serve luncheon and dinner.

Reservation cards and further details of the tournament will be mailed to each member of the club at an early date.

The committee in charge, is desirous that as many members as possible avail themselves of the opportunity to enjoy the splendid outing which is being planned for them this year, and requests that you keep the date in mind and do not let other engagements conflict with the tournament date of September 15.

IMPROVE FILTERING PLANT AT WINNETKA

New Addition Built at Cost of Over \$19,000; Great Improvement

The addition to the filter basin at the Winnetka municipal water and light plant has been completed, it was announced last week by Village Manager H. L. Woolhiser. The total cost is \$19,141, which is a saving of \$1,859 on the engineer's estimate. The construction was handled on a cost basis by H. A. White, formerly resident engineer for Pierce, Greeley and Hanson, engineers who built the original filter plant for the village. The job was completed ahead of schedule. The village now has approximately 900,000 gallons filtered water storage capacity at the plant. This improvement was in line with a carefully planned program to insure sufficient water supply for the village in the future.

ACCEPTS CALL TO WINNETKA CHURCH

Rev. A. E. Rohrbach of Stockholm, Sweden to Arrive There About Oct. 1

Rev. A. E. Rohrbach of Stockholm, Sweden, who, some time ago, was extended a call to the pastorate of the Scandinavian Evangelical church, of Winnetka, has accepted the pulpit and announces that he will be in Winnetka about the first of October to assume the duties of his new charge.

The Winnetka congregation is much elated at having obtained Mr. Rohrbach as its pastor. He was here for an extended period last winter, during which time he preached frequently at this church, as well as for many other congregations on the north shore, where he also was in demand for lectures. The call to the local parish was extended just prior to his sailing for his home in Stockholm, and he took the matter under advisement until after he reached Sweden. His family will not join him here until next spring.

The leading crop of the state of California is oranges, but it must be said in all fairness that Hollywood still continues to turn out its full quota of lemons.

Bustin' Through

BRIEF NEWS ITEMS FROM LAKE COUNTY

NEIGHBORHOOD JOTTINGS

Interesting Happenings About This Part of North Shore and Vicinity; County Seat Doings

The sixth annual picnic of the Lake County Farm Bureau which was held at Diamond Lake last week, was, according to the verdict of the officers of the organization and those who attended the biggest and best ever held.

Members of the Dunakin family gathered in an annual reunion at Third Lake last week, the event proving to be one of the most enjoyable ever held by the group. More than 50 persons representing three states gathered for the affair.

William H. Simpson, of Twenty-third street and Dixie avenue, North Chicago, died at his home at 9:00 o'clock last week after a lingering illness.

For the first time in more than half a century Lake county is not holding a county fair this year. It has been held for so many years that thousands of Lake county residents have come to look upon it as a permanent feature and the abandonment of the county fair, temporarily, at least, is occasioning much keen regret.

Dr. J. L. Taylor, Lake county coroner, and his family returned last week from a week's motor trip through the northern part of the middle west. The party consisted of Dr. and Mrs. Taylor, their son and two daughters, Blair Wormer of Connecticut, who is Mrs. Taylor's brother, and Mrs. Wormer.

Purchase of a large tract of land in Waukegan as the site of a monster plant to be erected there in the near future by an internationally known manufacturing concern was completed last week and announced through the Waukegan and North Chicago Chamber of Commerce. The concern, which is capitalized at \$100,000,000 and one of the largest of its kind in the world, will, when it begins operations here, employ more than 500 men.

PUBLIC SERVICE CO. TO BUILD BIG UNIT TO COST HALF-MILLION

Second Huge Addition to Power Plant at Waukegan to Be Erected; Permit Has Been Issued

The largest building permit issued since the advent of a building department at the Waukegan city office, was granted last week to the Public Service company, in the amount of \$500,000, to cover the construction of a huge structure for the housing of the second unit of the already immense generating plant on the flats along the lake.

This figure covers only the building itself and does not include the \$400,000 previously set aside to cover the construction of the foundation of the large unit, which has just been completed. Nor does it include the enormous sum which will be expended on new generating motors, which when installed will make the Waukegan plant one of the largest in the United States.

To Spend \$3,000,000

The total expenditure for the years building program will figure approximately \$3,000,000, according to Theodore Blech, district manager, and will include the extension of service lines throughout the city and county, besides the addition to the generating plant.

The new unit is the second of three units which the Public Service company plan to install in connection with the Waukegan power plant on the flats. The units are being installed as fast as the increase demands warrant their erection and indications show that it will be only a short time before the plant, as planned for the future, will soon be a reality.

The building work is being handled by Bates and Rogers, contractors from Racine, with W. B. Smith in charge of activities as foreman. All work is carried on under the supervision of Earl Simpson of the engineering department of the Public Service company. It is expected that it will be some months before the building is finished, although orders have been given to rush activities as much as possible.

SURPRISE PARTY FOR NEW ASST. SECRETARY

W. P. McCracken, Jr., Given Fine Time by Friends on Eve of Departure

A most unusual surprise party took place last week at the Sunset Ridge Golf club, in honor of Mr. and Mrs. William P. MacCracken, Jr., Winnetka. Mr. MacCracken has recently been appointed assistant Secretary of Commerce under Secretary Herbert Hoover by President Coolidge, and will move to Washington, D. C., with his family in October.

Thirty couples, friends of Mr. and Mrs. MacCracken, met at the club, and completely surprised them. By a clever ruse, Mr. and Mrs. MacCracken were taken there for dinner, and found a large group of friends waiting.

The table decorations were unique and apropos of Mr. MacCracken's appointment. In the center of the table stood a large cake baked in the shape of the capitol at Washington. An aeroplane made of flowers was suspended over the table. Favours consisted of paper aeroplanes that could be shot across the room, and poised on the moulds of ice cream were tiny metal planes. All during the dinner, fictitious telegrams were received. An excellent orchestra played for dancing after dinner.

FRACTURES NECK IN DIVE; DEATH FOLLOWS

Young Man Victim of Fatal Accident at Glencoe Three Days Before

Frank Crowden 18 years of age, of Little Cloud, Neb., who has been visiting his mother at 950 Pleasant street, Oak Park, died at the Evanston hospital last week as a result of a fractured neck he sustained 3 days previously while swimming off the Glencoe beach.

He had come to Glencoe with a group of friends for a beach party. The group did not go into the water at the public bathing beach, but entered further up the shore. Mr. Crowden took a dive from the bank into shallow water, and fractured his neck. He was taken immediately to the Evanston hospital where he died three days later.

The finding of the jury at the inquest was "accidental death." Mr. Crowden is survived by his mother and a sister who lives in Nebraska.

USE SAND GLASS TO MARK PHONE CALLS

With the canvassing of customers in distant parts by means of the telephone becoming a recognized commercial practice, a novel long distance telephone economy has appeared.

Salesmen of one concern are furnished with a small minute sand glass which they reverse as soon as telephonic contact with the client has been established. By this means they are able to regulate their calls so that full advantage is taken of every second, and the extra three-minute charge for a sentence or two is avoided. The glass is said to have been found much more convenient and less distracting than the second hand of a watch.

ODD FELLOWS HOLD DISTRICT PICNIC

The annual Independent Order of Odd Fellows' district picnic was held at Hertel's park, Half Day, on Sunday, Aug. 29. The district includes Highland Park, Antioch, Libertyville and Waukegan lodges.

The committee had arranged an interesting program throughout the day. Races and games for young and old were features and there was dancing in the afternoon and evening. Picnic lunch was brought by the families, coffee being served on the grounds.

BIG RECEPTION FOR GLENCOE TEACHERS

ALSO AFTERNOON TEA

Two Social Functions Planned By Parent-Teacher Assn. of Community Opening Schools

Glencoe Parent-Teacher association, announces that plans are being made for an afternoon tea in September and a reception later in the month. While the plans for entertaining the teachers and parents are not yet complete, and the details of the affairs have not been decided, some of the features of the get-together have been announced by the president of the association.

The afternoon tea is to be given by the executive board of the Parent-Teacher association, and will be a small informal affair. This tea will take place Sunday afternoon, September 12, at the home of one of the members of the board. Attending the tea will be the members of the executive board, and the twenty-five teachers of the Glencoe schools. The school staff is also invited to attend the affair.

Reception September

The Parent-Teacher association meets on the third Monday of each month, and at its first meeting, which will take place September 20, there will be a reception given for both parents and teachers. This reception is an annual event, and about 500 people are expected to attend. It will be held either in the gymnasium of the Central school, where it has always been held before, or perhaps in the auditorium of the new South school, which will be completed by the time the fall term starts.

Details of the entertainment planned for this reception have not yet been decided except for the musical program, which will be in charge of Mrs. Dwight C. Orcutt. Mrs. Orcutt is well known for her ability and interest in musical affairs. She was recently elected president of the Winnetka Music club, which sponsors the artist-recital series of concerts. Mrs. Orcutt has won fame in north shore music circles for her unusual ability as an organist.

LATE PROCEEDINGS IN PROBATE COURT

Proof of heirship was shown last week in the probate court before Judge Persons in the estate of Mrs. Emily Russell Dawson, Lake Forest, killed last July in Europe with her husband when a plane crashed. Just recently her baby daughter drowned leaving two boys as heirs.

The proceedings were as follows: David Kamallat, Waukegan—Decree for sale of real estate entered. William Herrmann, Antioch—Supplemental proof of heirship taken. Edward Posson, Lake Zurich—Supplemental inventory approved.

Tobias J. Fosland, Winthrop Harbor—Petition to establish heirship filed and set for hearing September 9. Anna Julia Fosland, Winthrop Harbor—Petition for probate of will filed and set for hearing September 9. Frederick Poren, Barrington—Final report approved. Estate closed.

Walter Stupey, Highland Park—Final report approved. Estate closed. Walter Swenton of al minors, North Chicago—Final report of former guardian, John Wasniewski approved and bond released.

Frances Pritchard, Highland Park—Prayer of petition to complete sale of real estate under contract granted.

Emily Russell Dawson, Lake Forest—Proof of heirship taken. Hearing on petition for probate of will continued to August 30.

Theodore H. Durst, Waukegan—Hearing on petition to complete sale of real estate under contract continued to August 30.
