HIGH SCHOOL P. T. A. MEETS NEXT THURSDAY

"Intra-Scholastic and Intra-Mural Athletics" Subject; Parents Invited

The Parent-Teacher association of Deerfield-Shields high school will meet on Thursday afternoon, Nov. 4 at 8:30 o'clock in the English club room. The subject of the program will be "Inter-Scholastic and Intra-Mural Athletics."

There has been much discussion recently as to the advantages of a school athletic program which emphasizes universal participation. Many schools are building away from the "star" or school team ideal with the excessive training of a few for outside competition and are concentrating instead on the development of many teams within the school in a well devoted intra-mural program. The advantages or disadvantages of both sides of this question will be presented from the student and from the adult view point. After the program an opportunity will be given for a general discussion.

HIGH SCHOOL BAND PLANNING A TOUR

Arrangements are being made for the high school band to make its annual trip and several plates in which some musical organizations are sponsoring band concerts are being considered.

At present the band is working on several numbers to be presented at a concert to be given here to cover the expense of the trip.

They will also play at the annual Northwestern Circus this year.

The band has been practicing since the beginning of the year to give an unusual marching exhibition at the Deerfield-New Trier Home-coming game before what is expected to be the largest crowd at any football game at Deerfield.

SOPHOMORES FROM FOUR STATES REPORT

In the sophomore class of Deerfield-Shields, according to Mr. Pertz, school statistician, there are students who were graduated from grammar schools in three different states other than Illinois, from one foreign country, and from twenty-eight different schools in Illinois.

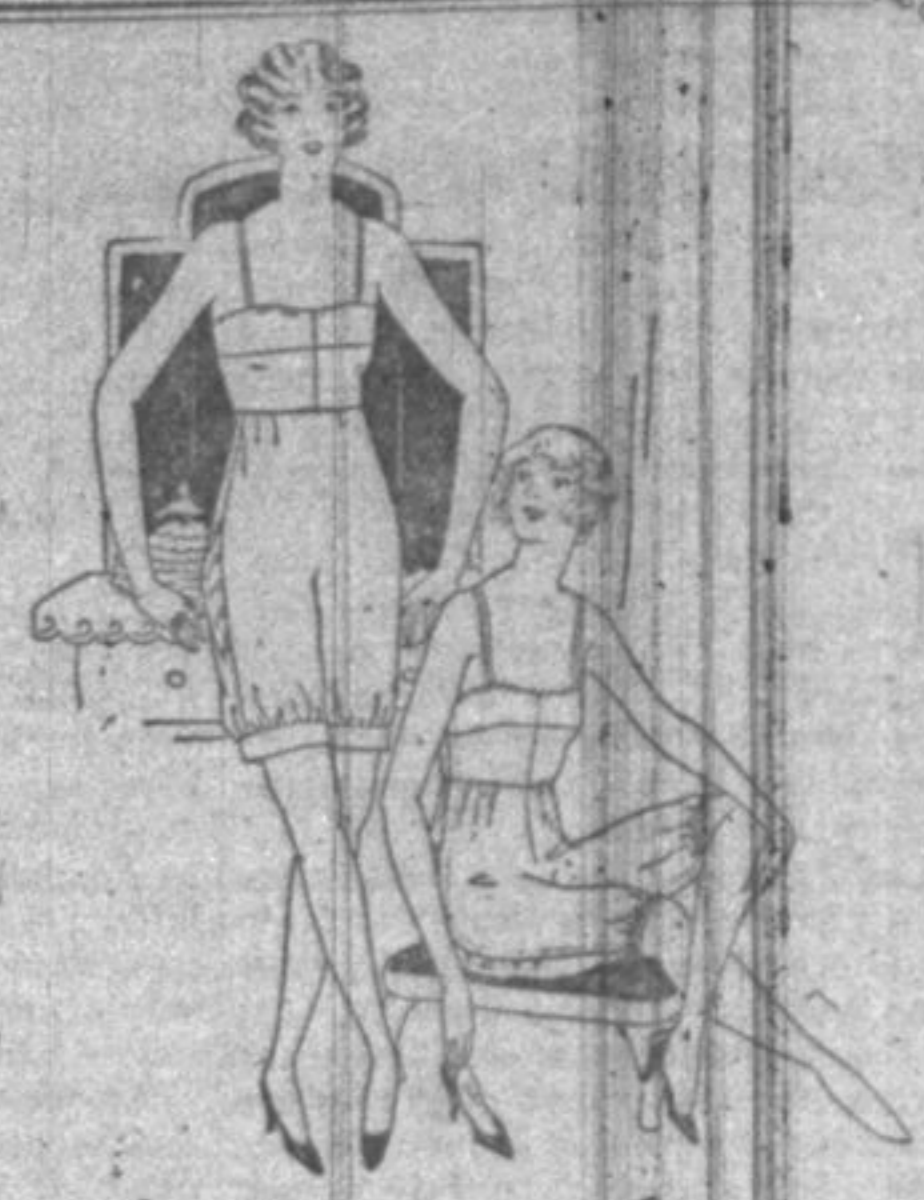

Wisconsin schools have three representatives among the sophomores; Minnesota, two; and New York, one; and Scotland, one. The remainder are, in the majority, from schools in this vicinity, the rest from other places over Illinois.

THREE SETS TWINS ATTEND HIGH SCHOOL

Out of 815 students enrolled in Deerfield-Shields high school this year there are three sets of twins.

Sixty per cent of these 815 are the only children of their families in school. Thirty boys in school have one brother each and thirty-six girls have one sister each.

Mr. Pertz, who figured out the above data, also found out that fifty-five families have one boy and one girl, three have two boys and two girls, two having two boys and one girl, and one having three girls.
