A. P. Snite and Rev. Geo. Keller, New Heads; Council Is Enlarged

At a meeting of the local council of the Boy Scouts of America last Monday night, it was voted that Highland Park shall become a part of a larger council, extending from Wilmette to Lake Bluff, thus making possible the making available of a richer scouting program to more boys.

New officers chosen were Albert P. Snite as chairman, to succeed Gen. R. E. Wood who will continue as a member of the local committee, and Dr. George Keller, as scout commissioner, to succeed H. Amé Babcock. Votes of thanks were tendered to General Wood and Mr. Babcock for their splendid leadership of the past year.

Messrs. W. J. Adams, and Walter McPeck, deputy regional scout executives of the national staff were present and told of the advantages of the larger plan.

Renewals of last year's contributions to the work are being secured now so that it will be possible to start the new year on a sure footing. Highland Park's share of the \$7200 budget is \$2500. The finance committee of Messrs. Snite, Wolf, and R. A. Wood.

### DEERFIELD HOLDS EVANSTON 13 TO 6

Locals Lose In One of Hardest Games of Season; Play Great Game

Fighting hard throughout one of the most thrilling football games seen here in years, Deerfield-Shields' grid team last Saturday held the strong Evanston team to a 13 to 6 score and came very near evening the score in several instances.

It was a splendid game throughout and Deerfield should have no regrets with such a result in a battle with a school so much larger and stronger in many ways.

Evanston scored in the first and second quarters as a result of blocked punts, and Deerfield scored in the third. The remainder of the game was a see-saw, with the advantage in Deerfield's favor, when they opened up a fast passing effort and crowded the Evanston gridders hard to prevent a tie.

The single touchdown made by Deerfield was scored by Daugherty, who intercepted a pass on Deerfield's 15-yard line and made a spectacular run of 85 yards for a touchdown. Baker failed in the attempt to kick goal. Cope made a neat play in the third quarter when he recovered the ball on a fumble by Holland.

It was a great game and Deerfield deserves much credit for holding their strong opponents to so low a score. Evanston officials admitted, it is said, that this was the hardest-fought game they have played this season.

### NORTH SHORE LINE ARMISTICE DAY PLAN

Special preparations have been made by the Chicago North Shore and Milwaukee Railroad—the North Shore Line—for paying tribute to America's heroes of the World war on Armistice day.

As in past years, all working activities over the entire system will cease for one minute exactly at 11 a. m. All trains will come to a full stop and remain stationary for one minute. The entire personnel of the North Shore Line will stand, facing east, during this interval in silent tribute to those who made the supreme sacrifice.

Through the courtesy of the commanding officer of Fort Sheridan, special awards of honor will be stationed at Milwaukee terminal and Racine, Kenosha and Waukegan stations, and a bugler will sound taps at each of these places exactly at 11 a. m. as a signal for all to observe the moment of silent homage. North Shore Line stations at the principal terminals will be decorated in the national colors.

Memorial services will be held at the general offices of the North Shore Line at Highwood. A guard of honor from Fort Sheridan will be stationed there, and a patriotic address will be delivered by the Rev. George E. Cady of Kenosha. The North Shore Line band will play patriotic airs.

Preparations for the Armistice day observance along the North Shore Line are under the direction of C. Edward Thorne, Commander of North Shore Railroad Post No. 753, assisted by other members of the post.

### "THE VAGABOND KING" POPULAR MUSICAL PLAY

Play at Great Northern Theatre Has Splendid Cast; Draws Large Crowd

"The Vagabond King" based on McCarthy's "If I Were King" is classed by all of the critics and the general theatre-going public as the greatest and most successful musical play in Chicago. The Great Northern Theatre which has housed so many musical successes has never had more enthusiastic audiences and never one which has done so well financially. It also has the record of repeaters as there are many who have, during its stay here, seen it ten and twelve times. The delightful score of Rudolph Friml's, with the never-to-be-forgotten and stirring "Songs of the Vagabonds" and the melodious duet "Only a Rose," is on everyone's lips. As one strolls along the street the Victor and Cameo records can be heard from practically every music store.

The hotels say that the first play asked for from the out-of-town guest, is "The Vagabond King." Tickets are at a premium and must be purchased weeks in advance.

The tribulations that Russel Janney went through in getting it produced are nearly as dramatic as the play itself. Every indication is that the Chicago company will remain here a year or more.

The splendid cast with Dennis King as Francois Villon, Berna Deane as Katherine de Vaucelles; Arthur Deagon as Guy Tabarie; George Probert as Louis Xith; Frances Halliday as Huguette; Aleta Edwards as Lady Mary and the most remarkable chorus of 150 ever assembled, and the symphony orchestra of 30, bring about a never-to-be-forgotten evening in the theater.

One more sign of the consolidation and merger movement is that a lot of young folks got married during October.

### DR. CARLSTROM'S TALK PROVES INTERESTING

Discusses Dangers of Over-Exertion In Adolescent Youth, Nov. 4

At the business meeting which preceded the regular meeting of the P. T. A. of Deerfield-Shields high school, the members voted to send \$100 to Mrs. Dean, the widow of the chauffeur who gave his life in saving the children riding to high school.

Dangers of Over-exertion in Adolescent Youth was the subject of a talk given by Dr. Carlstrom of the American College of Physical Education at the November meeting of the High School Parent-Teacher association on Thursday, Nov. 4.

Dr. Carlstrom, a stalwart man of fine physique and a splendid example of his health theories, feels that there are some dangers lurking in modern athletics. Parents and guardian, supervisors and principals are seeking to understand these problems and guard against ill effects. The many values, both physical and social, accruing from sports and games are undeniable. He said, "Think of the effect on character from the discipline—requiring, energy-producing, courage-developing and endurance fostering elements in our competitive events; not to mention the social values! What else is there on our educational program which brings out such enthusiasm, willingness to work hard to sacrifice and so forth as athletics." Just what to permit and what to forbid is the problem. We must be careful not to subject the body to injury or damage through too intense physical activity.

Football as played today with its limited playing periods and frequent intermissions is harmless according to Dr. Carlstrom. Baseball he regards as a fine game for boys and in its indoor modified form, also a good game for girls.

Among the dangerous sports Dr. Carlstrom places basketball due to the tense strain on the heart induced by the fast running. Track meets particularly middle distance running, being a highly competitive nature, cause intense strain to nerves, lungs, heart and vascular system. Hockey is less dangerous than basketball, provided the quarters of play are limited to 10 or 15 minutes. Swimming keeps the pulse rate high, due not only to the severe demands upon the heart, complicated by the irregular breathing made necessary in swimming competition. As you probably know, the air is inhaled through the mouth in a big gasp during one part of the stroke and exhaled under the water during the other part. In short sprints it is even doubtful whether swimmers breathe at all.

The marathon race, Dr. Carlstrom terms as "abnormality." Several deaths have resulted from such events.

In concluding his talk Dr. Carlstrom quoted a great American coach, Robertson, by saying "High school stars are never college stars." By this he meant that if they are lead to strain themselves to the utmost during high school, their lights fade out before they ever get to college.

Physical education is a human problem. If it does not create better human beings, its methods and principles will constantly improve until it meets its requirements.
