H. P. Woman's Club Listens to Instructive Lecture at Meeting Tuesday

A regular business meeting of the Highland Park Woman's club was held at the clubhouse on Tuesday, Nov. 16, a very good report of the 31st annual convention of the Illinois Federation of the Women's club was given by Mrs. Everett L. Easton.

He spoke more especially of the professional criminal, saying that those men became criminals because they had learned to be criminals from boyhood—that in the eighty per cent of the cases the boys were orphans entirely or had lost one parent or on account of illness or poverty, the mother has no time for them and the street became their home and the gang their teachers.

WASHINGTON PARK DEFEATS HIGHWOOD

First Time Team Has Lost in Two Years; Score 2 to 0; Coming Games

The Highwood Athletic club was defeated last Sunday for the first time in two years by Washington Heights, 2 to 0, in a sea of mud. The game was hard fought throughout, and Highwood put up as good a fight as could be expected under the conditions.

The only chance either team had was to watch for the breaks and take advantage of them. The game opened with the Heights kicking to Highwood and they almost carried the ball to the goal before it got so slippery they could not handle it. Then the fumbles began. First one team and then the other would have the ball.

At the start of the second half, Highwood kicked off and things went about the same as before, only the ball was in Highwood's territory more of the time. The only score of the game came late in the fourth period when Highwood's kick was blocked and rolled back of the goal, but was recovered by Highwood, giving the Heights a safety and two points.

Next Sunday Highwood meets the Rebel A. C. on the local field. The Rebels have some new stars and a lot more practice since they were defeated by Highwood the first game of the season, and want a chance to get revenge. Come and see if they get it.

AUXILIARY RECEIVES LETTER OF GRATITUDE

The following letter has been received by the Legion Auxiliary and expresses how grateful the hospital at Great Lakes is, for any kindness shown the boys who have been injured in war.

"Will you please express to the American Legion Auxiliary our sincere pleasure and appreciation of the wonderful party that the auxiliary brought to our hospital on the afternoon of Armistice day to help the boys celebrate that important event.

It was one of the most delightful parties that we have ever had and it was so perfectly arranged in every way and carried off so well. It left such a splendid feeling among the patients and we know that the American Legion auxiliary of Highland Park are our good friends. We would like to have you with us at any time you can possibly come because you can bring so much pleasure to the patients by your personal contact.

Will you please express the thought to the auxiliary that it is not so much the money that they spend upon the boys at this place as it is the personal contact with you that means so much to them. We cannot thank you enough for all you have done and are looking forward to having you with us again in the near future."

Mrs. Geneva Saunders. Recreational Worker.

THE LAUNDRY INDUSTRY

The Public Utility of the Industrial World

Once the housewife molded her own candles. Today they press a button for light. The old wood box is supplanted by gas. Errands are done by telephone, trolley or automobiles, and now the family wash tub is passing, along with the scrubbing board and wringer, speeding to an unregretted oblivion.

Housewives everywhere are beginning to realize that it is unnecessary to drudge over the family wash any more. Their health is conserved, the house is orderly and an even temper is maintained.

Evidence of the good of this public utility is shown by the rapid increase in business done in the last few years. In 1923 the laundries of the country did \$257,000,000 of laundry work. In 1925 over \$500,000,000 of laundry work was done in their plants.

The housewife today is beginning to accept the conveniences made possible by the Great Public Utility of the world—the Steam Laundry.
