

HIGHWOOD GRIDDERS HOLD REBELS, 0 TO 0 Scoreless Tie In Game Sunday; Play Washington Heights Thanksgiving

The Rebel A. C. with their newly organized team, held the Highwood A. C. football team to a scoreless tie last Sunday.

The team showed a great deal of improvement since the previous games and should be able to defeat Washington Heights Thanksgiving day.

The game opened with Highwood receiving. Allens took the kickoff and with a perfect wedge interference, took the ball to the 50 yard line. Allens then carried the ball for three consecutive gains totaling 30 yards.

The second half opened with Highwood receiving again. Things went about the same as the first half. The Highwood boys would get inside the Rebels' 30 yard line and they would brace and hold them.

Today, Thursday, Highwood will meet the Washington Heights eleven at the Deerfield-Shields athletic field at 2:30 o'clock.

This should be a real turkey day feast for the fans and a record crowd is expected to be on hand to see the game.

HIGH SCHOOL PLAY GIVEN DECEMBER 3

Continued from page 1 the scale of prices so that we may offer the public a good, wholesome, high school play for the price of a movie.

Production of the play is under the direction of Miss Zoe Comer, public speaking and dramatics teacher at the high school.

Plan Cafeteria Dinner Many of the properties are being loaned by local merchants and citizens.

Because the play is modern, the costuming of the cast is not presenting as many difficulties as it might if the play were of a certain historical period.

Had Long Runs The play had successful runs in both New York and Chicago. It was played in the Belmont theater in New York in the spring of 1923 and ran in the Playhouse in Chicago from September 1923 until after the following Christmas.

EFFORT TO SECURE MEDAL FOR BRAVERY Attempt Being Made to Obtain Carnegie Award for Heroic Bus Driver

Effort is being made by interested friends of the late Lyman Dean, high school bus driver who was killed in a crossing accident at Northbrook a few weeks ago, to secure for his family a Carnegie medal for heroism.

In connection with the effort being made to obtain an award of the medal for the brave driver, Principal Sandwick of the high school and several Northbrook students were in Chicago last Saturday interviewing officials.

MOST H. S. STUDENTS ARE FROM ELM PLACE School Statistician Prepares Interesting Figures on Enrollment

That more students attending Deerfield-Shields high school were graduated from Elm Place grammar school of Highland Park than from any other school is shown by a list compiled last week by H. G. Pertz, the school statistician.

Two hundred eight students were graduated from Elm Place, while sixty-six students came from Gorton school of Lake Forest. Next in number is Oak Terrace school of Highwood with sixty-three, followed by Halsey school of Lake Forest, fifty-nine, Lincoln school of Highland Park, fifty-seven, Ravinia school, forty-one, and Deerfield grade school, forty.

The greatest number from any school outside the district is sixty-five from Lake Bluff, while Northbrook is second with thirty. The remaining students are scattered among about sixty other schools, both in and out of the district.

Twelve states of the union, and two foreign countries are represented among the 826 students enrolled. There are 793 students from Illinois, twelve from Wisconsin, seven from Minnesota, three from Iowa, two from New Jersey, and one each from Indiana, Nebraska, South Dakota, Ohio, Wyoming, New York, Kentucky, Scotland, and the Philippine Islands.

FORMAL DANCE AT H. P. CLUB TONIGHT Card Party Last Thursday Opens Season with Success; December Program

The first informal card party of the season was held at the Highland Park club on last Saturday evening. A large number of members and guests were present and attractive prizes were given each table.

The next party at the club will be held on Thanksgiving eve when the annual Thanksgiving formal dance will take place.

The December program which is now on the press contains many interesting features, including the annual fathers' and sons' dinner on Dec. 20; the cotillion formal dance on Christmas night and the usual fancy dress ball on New Year's eve.

The informal Thursday evening dinners will be followed by the showing of moving pictures, this feature being given by club members. On the evening of Dec. 2, Mr. George E. Moore will furnish the entertainment and will show films taken on a trip through the Orient.

PRINCE AND PAUPER DRAWS LARGE CROWD

Is Most Successful Performance; To Give Two Plays Here in January

That Evanston has an artistic and educational treasure in its Children's theatre was emphasized Saturday when, for the first time this season, the Thalian players of the school of speech of Northwestern University, directed by Miss Wifried Ward, presented "The Prince and the Pauper" at Elm Place auditorium.

The desire to stage this fascinating story by Mark Twain, for so many years a beloved childhood classic, had long been Miss Ward's impulse before its selection was made for the opening offering this season.

In January this organization will present two delightful short plays written by Mrs. Harrison B. Riley, at the Elm Place auditorium. "Watch theatrical was emphasized last Saturday

HIGH SCHOOL PAPER AND ANNUAL HONORED

Received Distinguished Rating Certificates at Annual State Meet

For distinguished work in service of the school, the Shoreline and the Deerfield, Deerfield-Shields school paper and annual were awarded Distinguished Rating certificates at the Illinois State High School Press association conference held at the University of Illinois, Thursday, Friday, and Saturday of last week.

Five newspapers in addition to the Shoreline in Class 3, schools with an enrollment 500-1,000, were recognized as doing distinguished work in their schools. Each was rated above 85 per cent on the basis of opportunity.

The old song said "Jordan is a hard road to travel," but not so hard as some of the roads of Illinois since the automobiles began to wear them out.

ORIGIN OF LIFE IS INTERESTING STUDY PROBLEM OF THE AGES

Dean Cutter in Address in Contemporary Thought Course Discusses Theories; Conclusions

How did life originate? When did it first appear in the world? According to Dean Irving S. Cutter, head of Northwestern University Medical school, who talked last week on the McKinlock campus in the Contemporary Thought course, "thinking men in all ages have asked this question and usually with satisfactory answer."

Following the various theories of the origin and appearance of life and showing how one theory eventually gave way to others; how Pasteur's discoveries proved of great scientific value, Dean Cutter drew various scientific deductions.

Discussing the several theories and explaining how animals, men, bacteria, and all the actual "life" in the world depend largely upon the products of the soil for original creation and development, he explains that the building-up process in life, metabolism—is the actual demonstration of how life appears and grows.

This power to take food from the soil, air, and water, is probably as gradual a development as is the evolution of plant and animal forms and in reality fixed with definite clearness the development of the higher forms.

Some power to take food from the soil, air, and water, is probably as gradual a development as is the evolution of plant and animal forms and in reality fixed with definite clearness the development of the higher forms.

MANY ACCIDENTS CAUSE SURPRISE

Federal Authorities Exercised at Number of Industrial Mishaps, Report

Surprise is expressed in Washington because of the unusual number of industrial accidents that have occurred among the employes of the federal government within recent months.

TWO CARS STOLEN; ONE IS RECOVERED Nash Sedan Taken Here; Local Ford in Waukegan; Found in Racine

A Ford coupe belonging to Leslie Oetzel was stolen Sunday evening while the owner was in Waukegan. He had parked it and when he returned the car was gone.

A Nash sedan owned by D. N. Guttman, 913 Lincoln avenue, was stolen Monday night from a parking place in front of the Alcyon theatre.

THE ELIMINATION OF WASH DAY A REAL BOON TO WOMANKIND

For centuries it has always been the task of the housewife to do the laundry work of the household. Every woman took it upon herself to be responsible for this laborious task. Monday was set aside as the day to do this work and the monotony of the necessity to do this over and over again every week caused this day to be called Blue Monday.

Some folks continue getting out the wash tub, boiler and wringer every blue Monday, more out of force of habit than necessity, not thinking what they can save in health, hard work, happiness, satisfaction and money by making use of the Steam Laundry.

LAKE SHORE LAUNDRY OWNERS ASSOCIATION

HYGIENE MONTH WITH THE DRY CLEANERS OF THE NORTH SHORE

The NATIONAL CLEANERS & DYERS ASSOCIATION has repeated its CAMPAIGN of last year to dry clean children's, boys' and girls' clothing, to the age of 12 years, for just a fraction of cost.

It is a proven fact that during the war exhaustive research was made to ascertain whether the process of dry cleaning was effective in destroying germs. The medical authorities of the war department made numerous tests in a number of leading plants in the east, and proved to their satisfaction that dry cleaning was effective in destroying germs and disease bacteria.

Some few years ago, Professor John C. Fetterman, Dean and Professor of Biology at the University of Pittsburgh, made a careful investigation into this matter, and is quoted in the Literary Digest, of April 15, 1922, as follows:

would be one of the strongest points in favor of the dry cleaning processes. The dry cleaning process used to inoculate the whole bacteria family. It is conservative, chemists avow, to say that conditions that will kill this bacteria, will also kill any of the disease-causing bacteria."

By dry cleaning is meant the washing of clothing with naphtha, benzol or emergine, similar process to garments washed with water.

The term "DRY CLEANING" means that the solvents used are free from moisture. The efficiency of dry cleaning is exceptionally high in hygiene and sanitary effects and the Cleaners along the North Shore who endorsed this move of last year are again participating in this Campaign.

Beginning December 1 and continuing to December 31, all children's and boy's suits, to the age of 12 years will be 50 cents.

All children's and boys' overcoats to the age of 12 years, 50 cents.

All children's and girls' dresses to the age of 12 years 50 cents.

All children's and girls' coats to the age of 12 years 50 cents.

All men's felt hats cleaned and blocked, 75 cents.
