Grammar School Notes
A pupil who is absent from school three or more days must have a doctor's certificate before returning to school. This precaution is taken to guard the health of all school children and keep down the spread of infectious diseases.
The school board has purchased a regular school piano and it is here and already in use. It is a Messner piano and made especially for schools and owing to its small size can easily be moved from room to room. This piano is much smaller than an ordinary one and can be handled by two people. The case is of oak and matches the other school room furniture. It is called the little piano with the big tone. The old piano will be left in the auditorium to be used for entertainments and also provides a piano for each floor. The P.T.A. donated the money toward the purchase of the new piano, that was made when the new part of the building was opened to the public. This was a great help and made the purchase of the piano possible.
The pupils of the sixth grade took up a collection to purchase a new wall clock. The clock will fill a long felt want and add to the appearance of the room.
