

NORTH SHORE MEN ON PLANNING BOARD

ANNUAL MEETING IS HELD

Representatives of Communities In This Section Chosen; Excellent Reports Are Given

Eleven north shore men have been elected officers or directors of the Chicago Regional Planning association, with offices at 160 North La Salle street, following the annual meeting of that organization, last week at the La Salle hotel.

Daniel H. Burnham of Evanston, was re-elected president, and Dwight H. Perkins also of Evanston, will serve again as honorary president. George C. Thorp of Evanston and Juson Stone of Wilmette will serve as directors. Winnetka is represented by Benjamin F. Affleck, treasurer, Robert Kinkery, secretary, Eugene A. Kummier, and L. H. G. Bourscaren directors. Frederick W. Penfield and Herbert E. Fleming, of Glencoe and John C. Mechem of Lake Forest represent their towns as directors.

Studies European "Planning" Presided over by John C. Mechem the reports of officers and directors were given, and the speakers introduced. Dwight H. Perkins gave an address on "Regional Planning in Europe," in which he told of a conducted trip through the principal cities on the continent and in England, together with a group of city

and regional planners. The tour was extensive and intensive, and brought to the members of the party, the realization that planning was an old idea hundreds of years ago in Europe. Mr. Perkins spoke enthusiastically of the garden cities in England and of meeting personally some of the originators of this plan.

Robert Kinkery, secretary of the association gave the principal address, dedicated to the real estate men of the region. "It is the real estate men who make the city plan, when they subdivide property. Any plan that will be made for this region by our association has been made through the co-operation of the real estate men."

POLICE SEEK NORTH SHORE ROBBER GANG

On Lookout for Burglars Who Have Robber Several Residences

Private detectives and the police of the north shore suburbs are searching for a gang of burglars which has stolen jewelry and fur coats valued at thousands of dollars recently.

The heaviest loss was occasioned when the home of Benjamin R. Seiden, 816 Fourth avenue, Wilmette, was entered. A platinum and diamond bracelet valued at \$2,500, a diamond platinum watch, and an \$800 diamond and platinum chain were taken by the burglars.

From the residence of E. L. Schiedenheim, 704 Lake avenue, Wilmette, jewelry valued at \$2,000 was taken. Other losers were Oliver Denis, 702 Elmwood avenue, Wilmette, \$1,000; and Charles H. Albers, 1317 Livingston street, Evanston, \$800.

NEW NASH BODY IS CAPTIVATING PUBLIC

Ambassador and Cavalier Models Are Center of Attraction This Year

The new Nash Ambassador and Cavalier, with their French type roofs and forward sweeping backs have been an outstanding attraction at the big automobile shows held so far this year. Crowds which literally jammed the Nash booth at the New York, Philadelphia, Buffalo, Brooklyn, Cincinnati, Cleveland and other places, were outspoken in their enthusiasm for these newest Nash creations. On all sides the new Nash body conception is being referred to as the most striking development in the history of American closed car craftsmanship and it is freely prophesied that it would exert a profound influence upon the whole future trend of enclosed car body design in this country.

As a matter of fact this new Nash design really inaugurates America's rise to the heights long held by the great body designers of Europe whose conceptions have always been regarded as authentic. Now, under the leadership of Nash, this country may be expected to reverse oldtime traditions and establish itself as the world center of motor car style.

It will probably be only a question of months before other large motor car manufacturers will be developing models that pursue the general lines Nash has now inaugurated in the Ambassador and Cavalier.

Of particular interest is the manner in which Nash body artists have treated the roofline and the rear of

the body. Their graceful contours and perfect symmetry though strongly suggestive of the French mode are entirely original with Nash. And the "town car" effect at the front is also a decided Nash innovation that immediately captured the admiration of show visitors.

In developing these two new models Nash expert colorists produced another surprise in the way of colorful body finishes that proved second only to the design itself in interest. Using darker tones for the upper structure, fenders, and running gear, and lighter tones for the body Nash created a color harmony of exquisite beauty. And the richly luxurious effect of the exterior is maintained throughout the interior. All hardware, for example, is a beautiful period design. The steering wheel, window moulding, and door panels are of real Cirassion walnut. The upholstery is deeply tufted and of genuine Chase Velmo Mohair Velvet. Both models feature a wealth of appointments and fittings of notable tastefulness. As with all other Nash

models the Ambassador and Cavalier are powerful with the Nash 7-bearing motor, the world's smoothest type. The Ambassador is provided upon the 127 inch wheelbase and the Cavalier is mounted on the Special Six chassis.
