MASON EXPLAINS HIS REFERENCE TO LEGION

Makes Clear No Insinuation Was Meant That Post Has Candidate In Election

George A. Mason, chairman of the publicity committee of the Coalition ticket, has sent the following letter to the Press, requesting that it be printed. The letter is self-explanatory and is signed by the writer. It follows:

To the American Legion:

In my questionnaire of last week, entitled "Ask Me Another," I asked whether Mr. Krumbach was the candidate of the American Legion. I knew he was not its candidate and that the American Legion has no candidate in this campaign. I knew also that its constitution and by-laws forbid its taking a partisan part in a political campaign. I supposed everybody else knew that, too. The question was intended to be facetious and slightly ironical, but it seems that some good people who are not familiar with the constitution and by-laws have asked the commander if the Legion has a candidate. I am sorry if any innocent little question has caused the commander or his associates any annoyance or embarrassment.

GEORGE A. MASON,
Chairman.

POSTMASTER APPEALS FOR PUBLIC SUPPORT

Says Community Co-operation Helps to Make Service Better; Schedule

Postmaster Hugo L. Schneider in the following letter urges public support of the local post office.

Highland Park Post Office needs your support financially from which the returns to you are immediate, better service at the windows as well as carrier service to your residence. The past two months of 1927 showed a slight decrease in the sale of stamps. With the general increase in population, there should be a corresponding increase in postal business. It is difficult to provide adequate carrier service to properly take care of this increase. We are judged by the department at Washington largely by the receipts, not by our good looks. They don't know that Highland Park is Chicago's best suburb.

Now, what can be done? Let every resident of Highland Park realize that this is his post office and give it the support of all his postal business. Mail all your letters and packages here. By so doing, better time will be made to destinations. We have eight dispatches of mail each day as follows.

Mail closes at the post office as follows:

South bound—8:25 a.m., 11:15 a.m., 2:07 p.m.; north bound—7:13 a.m., 9:07 a.m., 2:27 p.m.

All points—5:34 p.m., 6:15 p.m. Sundays at 5:15 p.m.

Yours for a bigger and better postal service,
HUGO L. SCHNEIDER,
Postmaster.

CITY WATER IS SAFE AFTER BEING TREATED

State Analyst's Last Report Shows That Raw Water Is Not Drinkable

The latest report of the state analyst on the city water of Highland Park has been received within the last few days by the city. It shows that specimens were collected March 8, and the report is dated March 16. The raw water, untreated, according to the report shows large bacteria content, and the report states that this water was unfit for drinking purposes without careful purification. The specimen taken from city taps and which had gone through the regular chlorine treatment was reported as safe for drinking at the time these samples were collected.

It is pointed out by the city officials that, as shown by this report, the only safeguard against impure water is the chlorination process, and should that mechanism fail at any time, the health of the city might be menaced. For this reason experts have for a long time advised the establishment of a filtration plant, so as to provide two safeguards.
