

Vote the Straight Ticket of the PEOPLES PARTY DEERFIELD, ILLINOIS

During the two years—The present board has held 60 Council Meetings, to all of which **THE PUBLIC HAS BEEN INVITED.** Hearings were given to all matters brought to the attention of the board, **OPENLY AND PUBLICLY.**

During the two years—Twenty-one separate public improvements have been installed. In addition three more have been let and will be started when the weather opens up. There were also four public improvements installed by private subdivision owners.

During the two years—The board has installed a modern, complete, systematized, set of books, kept by the clerk and treasurer. Also created a master set of control books to properly and efficiently handle the village finances.

THIS SYSTEM HAS ALREADY ENABLED US TO RETIRE A NUMBER OF SPECIAL ASSESSMENTS from numbers one up to number twenty, **SOME OF WHICH HAVE BEEN ON RECORD FOR OVER TEN YEARS.**

This system has enabled us to save considerable interest by recalling bonds before their maturity, on improvements numbers twenty-two up to number forty-four. **THIS SAVING ALONE HAS MORE THAN PAID FOR ALL THE EXPENSE INCURRED.**

During the two years—The board has employed the highest recommended corps of engineers. They have installed millions of dollars of public improvements in Illinois during the two years of our administration and **ALL THE VILLAGES AND CITIES EMPLOYING THEM ARE UNANIMOUS IN THEIR ENDORSEMENTS.**

The contractors we have employed have in every case been the lowest bidder, as well as responsible. All the finished work has been approved not only by the Board of Local Improvements **BUT BY OUTSIDE ENGINEERS AND MATERIAL MEN. ALL THE FINISHED JOBS ARE PROTECTED BY MAINTENANCE BONDS.**

During the two years—The board has procured the best legal talent available. All our actions have been approved by our attorney, Judge Martin C. Decker, of the Probate Court of Lake County. During the term of two years, besides the large volume of legal office work he did in our behalf, Judge Decker had to appear in court 60 different times on public improvements, alone.

Mrs. Frederick Fisher of the Glencoe Garden club and head of the Garden club's committee at the recent flower show presided.

Mr. Frank Ridgway, agricultural editor of the Tribune, in charge of the contest, outlined the present plans to the women, in order that each in her own community might be a personal source of information to prospective entrants.

One hundred and twenty prizes will be awarded in addition to a grand prize of \$1,000. A unique feature of the contest is that every garden entered will be visited by the judges. A gardener who has never raised flowers before has a chance to win. All the contestants has to do is clip coupon, fill in his name and address and district number.

Read the rules and regulations carefully to see that you are eligible. Estate gardens, commercial gardens and all forms of gardening professionally conducted or maintained by paid professional gardeners or landscape architects are barred. This is done in order that home gardeners may compete among themselves.

The object of the contest is to stimulate an interest for bigger and better gardens for the old timers and an incentive for smaller and just as good gardens for the beginners.

MANY CITIES ARE KNOWN BY INDUSTRY

In the surprisingly large number of American cities, a single line of industry gives the place its chief fame and upkeep. Among the best known are: Akron, Ohio — tires; South Bend, Indiana — vehicles; Troy, N. Y. — shirts and collars; Gloversville, N. Y. — gloves; Danbury, Conn. — hats; Lynn, Mass. — shoes; Pittsburgh, P. Gary, Youngstown, Chattanooga and Birmingham — steel; Belding, Mich. — silk; Duluth — lake shipping; Minneapolis and St. Paul — flour; Elgin, Ill. — butter and dairy products; Meriden, Conn. — silver plated ware; Rutland, Vt. — marble. Doubtless there are scores of others, especially smaller places, such as Xenia, O., with its rope factories.
