DISCUSSES ISSUES OF THE CAMPAIGN

Interesting Letter From Mrs. Nolting, President of Ravinia Civic Club

The following letter in connection with the city campaign is written by Mrs. Emma J. Nolting, president of the Woman's Civic club of Ravinia: Ravinia, April 1, 1927.

The Highland Park Press, Highland Park, Ill.

Gentlemen:

The letter to Mr. Lewis from a firm of lawyers giving their opinion that duties of municipal officers cannot be delegated to anyone else, but that in their opinion the statute "would authorize the city to employ a person trained and skilled in municipal government whose duties would be to keep informed as to the conditions and needs of the city, to advise the mayor and the commissioners of these conditions and needs," gives food for thought.

In Highland Park there are several civic organizations such as the central civics committee, the civics committee of the Highland Park Woman's club, the Woman's Civic club of Ravinia, the Ravinia commission, and the East Park board of the city that keep in constant touch with the conditions and needs of the city. The members of these civic bodies advise the city council of the conditions and needs of the city whenever found. Excellent results have been obtained through the vigilance of these organizations composed of residents of Highland Park who are deeply interested in the city's welfare and development as a residential suburb.

The most recent example of the work of one of these civic organizations is the ordinance passed by the council for the censorship of the movies. This piece of work was accomplished by the committee of three women working as a sub-committee of the Highland Park Woman's club

civics committee, who were appointed by Mayor Hastings to study the situation and to study successful methods of censorship of other cities and to make their recommendations. As a result, a professional expert censor has been engaged to carry out these duties beginning April 1.

The Triangular park, opposite Ravinia station, was an improvement making Ravinia's front door presentable as well as providing a park for recreational purposes, which was brought to the attention of the council of the Ravinia commission, the Men's Civic organization of Ravinia, The Woman's Civic club of Ravinia is responsible for the artistic store fronts in Ravinia as well as for the fully equipped public skating rink maintained each winter in Ravinia. Also, they have completed plans to provide for a trained playground director for the children at the Ravinia school playgrounds this summer.

These are only a few illustrations of what our own civic organizations do to bring about improvements.

Would a city manager from some other city be in a better position to know what we, who reside here, want in the way of improvements and what we are willing to pay for them. If the powers of city manager, according to Mr. Lewis, under the Commission Form of Government are limited to telling us what we need and what conditions are, it would appear that his sources would be superfluous and the creation of such an office an unnecessary expense of considerable size proving a financial burden.

Our taxes are among the lowest of any in the state. Winnetka and Glencoe with village managers have the highest taxes in the state as anyone who will make a comparison can readily see. Are the people of Highland Park willing to have their taxes raised to the high amounts now collected in Glencoe and Winnetka villages with city managers?

Emma S. Nolting.

SEDAN IS BURNED ON THE RIDGE ROAD

A Chevrolet sedan, which police learned later had been stolen in Chicago, was found burned on Ridge road March 3. The name of the owner was learned. It is believed the theft and fire were the result of some grudge, the police say.

President Coolidge will not call an extra session. Maybe he thinks this feud in the Red family has gone far enough.

"The Voice Returned"

THE "Great Blizzard" of 1888 had blocked railway traffic and disrupted mail and telegraph service. Through the drift-piled streets of Boston groups of men and women made their way to the public telephone stations, anxiously inquiring whether the long distance lines to New York were still in service.

"People did not want a message, they wanted to talk," runs a contemporary story. "They wanted to find out where the other party

was, if he was alive, indeed. ***** It was the voice returned, the personal interview, that was especially valuable."

A telephone conversation is the meeting of mind with mind, heart with heart. Today there are no limits of distance to the interchange of thought that binds all parts of the country together. Created in response to America's needs, a network of 50,000,000 miles of wire has given nation-wide scopetothe "voice returned."
