### NOISELESS STREET CARS, NEW WRINKLE

AT LEAST TURNING CURVE

New Device Eliminates Squeals In Rounding Corners; Many Already In Use In Several Cities

Squealing noises of street cars rounding curves have at last been eliminated in construction of a new type of car by the Twin City Rapid Transit company, officials claim.

Use of the clasp brake, similar to that of the automobile, whereby the brake acts on the wheel drum rather than on the wheel itself, as in the case of the old shoe brake, and lightweight construction are the principal features of the new car.

It is the product of years of experimentation, but so popular is the new type that three other cities—Nashville and Chattanooga, Tenn., and Evansville, Ind., have ordered a total of 33 cars of this make.

Six of these new cars now are in operation on the Twin City system and orders for material are being placed for 25 more, which are to be ready for the heavy fall load in November.

The new car weighs 25,000 pounds, approximately half the weight of the old cars, will seat 50 passengers, and carry a maximum load of 150 passengers; is electrically heated, thoroughly ventilated and equipped with wide Pullman-like windows. It has the appearance of a fast, underslung automobile.

Wheels are made of oil-tempered steel and each truck is equipped with 56 coil and elliptic springs and a swinging spring plank, the large number of springs giving perfect graduation of the load and the spring plank eliminating vibration due to irregularities of the track.

Control of the car is so arranged that if, for any reason, the motorman takes his hand off the air brake lever, the air will be applied to the brakes and the current automatically shut off from the motors. The car cannot start until all doors are fully closed. Construction of the 25 new cars will cost \$300,000.

election; Oliver was second in the primary and sixth in the election; Reay was third in each; Zimmer was fourth in the primary and second in the election.

#### Widespread Interest

The widespread interest in the result of the election was indicated by the fact that from a short time after the polls closed until after 11 o'clock Tuesday night all the telephones in the Press office were kept busy answering calls regarding the outcome. The information was given out as rapidly as obtainable from the election boards in the several precincts, and from the Press the inquirers received their first accurate information as to who had been elected.

Crowds thronged about most of the polling places during the entire evening to get a line on the result of the voting, and the crowds on the streets were not appreciably thinned until a late hour. Not in many years has Highland Park had an election in which interest has been so generally manifested, indicating that the people were alert for the well being of the community.

The vote by precincts is given in the accompanying table, the candidates listed as they appear in order on the official ballot.

The campaign was closed Monday evening with two mass meetings, one by the Coalition in the Elm place auditorium and the other by the Lewis ticket in the Masonic Temple. Both were well attended. Saturday night the Coalition ticket had a mass meeting in the Lincoln school.

#### Non-Partisan Mass Meeting

More than 1500 voters accepted the invitation of the Dumaresq Spencer Post, No. 145, of the American Legion and turned out Thursday night to hear all the candidates of each party talk.

This was a plan of community service which is part of the nation-wide program and from the compliments extended to the post since the meeting the results were a complete satisfaction to all. The most impressive part of the program was the ritual of the Legion which was observed to the fullest extent. Department Commander Ferre C. Watkins delivered a very impressive talk giving the message of the Legion to the citizens of Highland Park. Another impressive part of the program was the "Makers of the Flag" delivered by M. Rasmussen of Lake Forest. Commandr Gullic of Sharvin Post, North Chicago, acted as chairman of that part of the meeting when the candidates were introduced. The following resolution was unanimously adopted at the meeting:

### MRS. LIEBER SPEAKS AT WOMAN'S CIVIC CLUB

Gives Interesting Talk on "Are the Days of Courtesy and Ethics Passed?"

"Are the Days of Courtesy and Ethics Passed" was the subject of an address given by Mrs. M. H. Lieber before the Women's Civic Club of Ravinia on Wednesday, April 13.

Enlarging considerably upon her title, Mrs. Lieber touched on the desirability of clubs continuing to hold art, literature and music as these three things are vital in the education of the children.

She brought out that the six underlying principles of parliamentary law make for true courtesy. They are, justice to all, courtesy to all, one thing at a time, the majority rules, the minority may be heard and partiality toward none.

Before closing Mrs. Lieber called upon women to assume the responsibility that the leisure gained by labor saving devices in the home has given them and enter into political and civic affairs with the aim of making the world a better place for children.

This is said to be a free country, and anyone would think so by the way a lot of folks behave.

### GIVES BAD CHECK TO PAY ROOM RENT

Those who have rooms to rent and the like are warned against the danger of accepting checks from strangers, as it is reported that a Highland Park woman recently received a bogus check in payment for lodgings and was unable in consequence to cash the paper. She reported that the check was given to her by a young woman stenographer who is employed in another town.

Opinions may differ as to who owns the air over our heads, but the airplanes seem to go over our top yards without asking our permission.

The power of the press is lauded, but considering modern literature, the power of the suppress seems to be needed also.
