SEE WHAT WE SEE. SACCO-VANZETTI. STUDY VITAMINS. EGYPT AND U. S. A.

Recently Mr. Gifford, head of the telephone company, proved that "television", making it possible to see and hear individuals or crowds hundreds of miles away, is practical.

The question, "How can that be made useful?" is answered in a way that in centuries to come will shed light on our civilization.

"There is no doubt about it," you are told, the only way in which television can be made profitable is IN CONNECTION WITH PRIZE FIGHTS. People will pay well to see men fighting and to hear the yells of the mob gathered around the prize ring. Would television make money enabling distant crowds to see and hear great preachers or college professors? It would NOT.

A conference of college students has decided against trial marriage, quite solemnly, by a vote of 16 to 7. Wise Providence has decided against it by a vote of about 100 to 0.

When the seven young gentlemen who think they believe in trial marriage fall in love, they will know positively the marriage they plan is to last forever, would detest the theory of a trial, and insult anybody suggesting it.

Or if not, they would not be worth marrying.

"It would be better for Massachusetts and the administration of justice generally, if a commission could be appointed to investigate the evidence on which Sacco and Vanzetti are condemned to die." That is the opinion of the Rev. Roland D. Sawyer, Congressional clergyman and member of the Massachusetts Legislature. The commission, for which he introduces a bill, would consist of the Chief Justice of the Massachusetts Supreme Court, and four others to be appointed by the Governor. The commission would be authorized to recommend to the Governor a new trial or such course as might seem necessary.

The impression that justice in the United States is in a hurry to execute anybody or determined to do so should be carefully avoided. This is a case that has never been passed upon, as regards the evidence, by any but one judge, and a case in which after-the-war excitement played a considerable part.

An Egyptian tomb near the Giza Pyramids, opened by Vienna scientists, contains the record and mummy of a very rich dwarf married to an impoverished princess, thousands of years ago.

Our rich princesses marry mental dwarfs, rich in titles. That's the difference, and that Egyptian princess had the better of it. She got some-

thing in exchange for her hand, with the long, tapering fingers.

Interest yourself in vitamins. Dr. H. C. Sherman, learned professor of chemistry, proves that vitamins bring maturity earlier and make it last longer. Vitamins are found in milk, butter, lettuce and all green vegetables, cod liver oil, red wine (barred here), fruits, yeast, etc.

In addition to vitamins, mineral salts are absolutely necessary to life. No animal can live without them.

Public school education should include information on diet. Mothers especially are interested in vitamins. Experiments with animals show vitamins influence the number of the young and successful rearing after birth.

There is much prosperity in this country and, fortunately for us, it is not all based on "natural resources"—oil, iron, coal, forests, good soil, etc. Most of it comes from inside the national skull. Sir Ernest Benn observes that American prosperity is, in many cases, five per cent natural resources, ninety-five per cent work intelligently organized. If natural resources alone counted, "Brazil, Liberia and Iceland would be the world's most prosperous countries."

Commander Udet, greatest German flier left over from the war, will fly in a gliding plane without any engine from a mountain peak in Bavaria, 2,000 feet high.

This means literally tobogganing from the top of a mountain to the valley below on thin air. It would astonish those long dead and buried that used to smile at the poem describing Darius Green and his flying machine.

OUT-DOOR SHOW NEXT WEEK IN CHICAGO

Spring means much to thousands of men and boys in the crowded cities of the middle west, according to Milo F. Westbrooke, manager of the Out-Door Life exposition, May 9 to 14, at the Coliseum, Chicago.

To the hundreds of thousands of men and boys—and women too—who crowd the Out-Door show each year spring means the call of the wild, that restive urge to hit into the north woods and mountains and get back to nature.

With the approach of spring this year extensive plans are under way to again bring the outdoors indoors at the Coliseum so that those restive souls who are crowded in the big cities of the middle west all year may see what the north woods has to offer at the world's greatest vacation mark.

Already more than two and one-half acres of floor space have been reserved for exhibitors in the show, and the middle-west, and particularly the north woods, is being scoured for wild life exhibits of interest to the shut-ins of the big cities. Everything that the out-of-doors world has to offer the so-called cliff dwellers of the city will be on view at the show.

Ready-Cut Head

Bill—What business are you now in, Jack?

Jack—I'm in the lumber business.

Bill—Well, you have got a good head for lumber.

So Personal

Teacher—Why, every time I breathe a Chinaman dies!"

Voice from the rear—"Why don't you try cloves?"

LOCAL MAN INJURED IN AUTO ACCIDENT

Motorman Curley in Hospital As Result of Crash on Friday Last

Frank Curley, 50, Highland Park, a motorman for the North Shore line suffered a broken arm, cuts and bruises at 8 o'clock Saturday morning at Highland Park when he was struck by an automobile being driven by John Steele, 22, son of a Highland Park contractor, according to police reports. The injured man was taken to the hospital here.

Steele explained, according to the police, that he was driving east on Prairie avenue and that Curley was crossing the pavement there and walking the same direction that he was driving.

As he drew near the man, he explained, a Ford truck came from the opposite direction and forced him into the pedestrian.

He was unable to get the license number of the Ford as it continued on, he told police, at a fast rate of speed.

Not a penny more cost for these 6 extra features

The Meter Man will tell you it costs less on your light bill.

If you boast a modern home, you probably have electric refrigeration. But did you stint on the Cabinet? If so you are indulging false economy.

Dome Light Lights up the entire interior of the cabinet.

Floor Level The floor is higher than the door frame allowing you to wipe out all particles with ease.

Toggle Switch Operates the dome light. A handy ice knocker furnished just below switch.

Cork Insulation Keeps heat out and cold in, thus insuring maximum economy of operation.

Vegetable Door Specially lined space at bottom of the Cabinet makes an ideal vegetable storage compartment.

Spring Locks A patented lock closes the door automatically—merely swing it closed with your elbow.

Authorities have proved beyond question that electric refrigeration in Crysteel Cabinets costs less than in the old fashioned ice boxes. That is because Crysteel Cabinets are specially designed for mechanical refrigeration.

But when you modernize your home with a Crysteel Cabinet, you enjoy not only the greatest economy, but you are practically presented with six extra features as a premium.

Look at the column at the left. Only Crysteel gives you these modern conveniences that every woman loves. Yet a Crysteel Cabinet costs not one cent more than any other good refrigerator.

So come in today. See the display of Cabinets on our floor. Or phone for a man to bring you our photo album. There is no charge or obligation, of course.

Going Touring?

Possibly you have decided on Europe this year, and you may want to take your car. Do you know that the touring bureau of the Chicago Motor Club is prepared to render you valuable service in connection with European travel? Possibly, however, you are planning on the lakes or mountains of our own country. No matter where you intend to go, the touring bureau can help you; can give you road directions, and can help you plan your trip.

For your convenience the club has opened a branch at 525 Davis Street, Evanston. Office hours from 8:30 in the morning to 5:30 in the afternoon. Not open Sundays or holidays. Investigate the numerous money-saving services rendered members. Call or write today.
