## Your Own Tribute To MOTHER

**R**ICH and treasured associations and memories find expression in the presentation of flowers to Mother on Mother's Day. This beautiful custom has grown up in the last few years as a universal tribute to the everlasting and divine significance of Motherhood. Several years ago, when the idea first started, it was the custom to wear a carnation in honor of Mother, but in recent years, as the beautiful significance of the occasion is more deeply realized, Mother's own favorite flowers are presented to her.

In selecting flowers for your Mother, you can choose a plant basket, aptly called "Mother's Garden," or the many beautiful cut flowers offer additional choice.

When you send your Mother her own favorite flowers, you make your own individual tribute to her in the perfect and most pleasing way.
