

Your Garden

by Rosa Rugosa
Annuals Easily Grown

There is no short cut to gardening, neither can you learn how to garden by reading garden literature. Soiled hands, muddy shoes and old clothes are synonymous in making a garden, but the joy to be gained from growing few or many flowers, will repay you a hundred-fold in days to come, when you point with pride to your garden.

Annuals are most important as they must be depended upon to brighten the hardy beds, supplementing gladioli, phlox, dahlia and their ilk. Asters sown out of doors in May bloom late into October, but often the forced plants barely live through August. Cover the seed with half an inch of soil. In transplanting set the plants a foot to 18 inches apart.

Portulaca is most useful where color is wanted to cover the ground in beds that have held early tulips, narcissi or other spring bulbs. It will grow best in sunny places as it thrives upon heat.

Do not fail to sow cosmos seeds where there will be plenty of room. They also require sun. Staking them is advisable, although not necessary.

Calendula or marigold are very ornamental for a summer bed.

Gaillardia may be sown in borders where bulbs have died down. These showy red and yellow annuals will bloom until late frost.

Petunias are always graceful, either the single, double or fringed variety can be sown outside in May and thinned to 9 inches apart.

Verbena will be a mass of bloom from July to October if seeds are sown in May. Before planting soak seeds overnight in warm water. Verbena is unequalled for its trailing habit. It is good for bedding as well as cutting.

Salvia—This familiar flower that is so intensely crimson must be segregated from other flowers of crimson hue such as hardy phlox or the rambler rose, otherwise the contrast in colors will be startling.

Anchusa is a summer forget-me-not, although the blossoms are much larger. It will continue to blossom all summer.

Butterfly flower can be sown late in the spring and transplanted 18 inches apart with a ball of earth. It is best to stake this flower.

Only a few of the many annuals are given here. It is not too late to sow any one mentioned, and all will last until late October, barring an early frost. May, in our latitude is the time of seed vitality.

The beginner had better content himself for the first year or two with a few easily cultivated annuals and a perennial border. That will be a sufficient task.

WOMAN MEMBER OF BOARD OF REVIEW

First Time in Lake County History; Mrs. Crooks of Waukegan Is Appointed

For the first time in the history of the board of review of Lake county, there will be a woman member this year. County Judge Perry L. Persons announced Saturday the appointment of Mrs. Nellie Crooks of Ash street, Waukegan, as the republican representative. The law requires that one member a republican, one a democrat, and the third, the chairman of the board of supervisors, regardless of his political affiliations.

Al Maether, of Prairie View, a former supervisor, is the Democratic member of the board of review this year, being a hold-over. As Supervisor B. C. Thompson of Zion is the chairman of the board of supervisors he is also head of the board of review. Mr. Thompson was a member of the board of review for the past two years.

NOTICE OF RECEIPT OF BIDS

Notice is hereby given that the undersigned will receive bids until June 13, 1927, for purchase and hauling of coal as follows:

On 2000 (minimum) to 2,500 (maximum) tons of Franklin County or equivalent grade 1 1/2 inch screenings, with optional prices on 2 inch screenings, pea, and No. 3 nut in same grade.

Bids may be f. o. b. mines, f. o. b. team tracks, Highland Park, Ill., or delivered to bins at power house of Deerfield-Shields High School, Vine avenue and St. Johns avenue, Highland Park, Ill.

Bids should state location of mine or mines, freight rate from mine to Highland Park if bid is f. o. b. mines; analysis of typical sample, and allowance to be made in case of reduction of mining costs after settlement of present strike.

Delivery: Bins to be filled with approximately 300 tons by September 1, 1927; balance throughout school year as needed—contract to be completed by June 1, 1928.

Bids will also be received on hauling above coal from team tracks to bins and dumping therein.

All bids to be plainly marked on outside of envelope "Coal Bids" or "Coal Hauling Bids," and addressed to the Board of Education, Deerfield-Shields High School, Highland Park, Ill.

Right is reserved to reject any or all bids.

BOARD OF EDUCATION,
Deerfield-Shields High School.

Boy Scouts took an active part in Memorial Day services in Wilmette, Kenilworth, Glencoe, Highland Park, Highwood and Deerfield. Practically all of the nine troops in Wilmette were represented in the parade and services in that town. Although there is only one troop in Kenilworth they certainly turned out loyally in that town and helped make the services a success there. In Highland Park the scouts did their part in helping to commemorate the day. The Highwood scouts took part in the services at Fort Sheridan.

Coming Courts of Honor

On June 6 the scouts of Highland Park, Highwood, and Deerfield will gather at Memorial park in Highland Park for their regular monthly Court of Honor. Besides awarding badges to those scouts who have earned advancement a special feature of this program will be a presentation of an American Flag to the North Shore council by the Highland Park chapter of the D. A. R. This program will be at 7:30 p. m., June 6, and all parents and friends of scouts are invited.

On June 8 the Wilmette Court of Honor will be held at the Byron Stolp school.

Flag Day to Be Observed

Special services are to be held on the evening of Flag Day, June 14, at the Elm Place school in Highland Park. An interesting part of the program will be a review of the history of the American Flag. As this is reviewed scouts will carry in the various flags used from the time of the Revolution up to the present flag. Scouts will also act as ushers and all

scouts not taking part in the program are urged to attend this very interesting service.

Scout Calendar

Lake Bluff, Monday, June 6—Lake Bluff Parents' night.

Highland Park, Monday, June 6—Highland Park Outdoor Court of Award.

Wilmette, Wednesday, June 8—Wilmette Board of Review.

Wilmette, Saturday, June 11—Wilmette Spring rally.

All troops Saturday, June 11—Junior Officers conference at Cabin in the Woods.

All troops, Wednesday, June 15—"Open House" at the Cabin in the Woods.

All troops, Monday, June 20—Scout Leaders' Monthly Round-table at Cabin in the Woods.

All troops, Wednesday, June 22—"Open House" at the Cabin in the Woods (and every following Wednesday during the summer).

All troops, Monday, June 27—Scouts leave for Camp Checagua at Owasippe.

Highland Park, Monday, July 11—Court of Award (Note second Monday of month because first is July 4).

The young folks who are anxious to shine behind the footlights, are apt to do most of their shining under the street lights looking for a job.

Mrs. Coolidge recently attended the circus, and she naturally has to have some sport while congress is adjourned.

MILDRED HAESSLER

Dancing Classes

Outdoor Summer course begins Tuesday, June 21, at 1:30 p. m. Two afternoons a week, Tuesday and Friday, in Folk, Ballet, and Interpretative classes.

LAYING BIG WATER MAIN THROUGH CITY

Highways Construction Co. Is Installing 20-Inch Pipe Up Central Avenue

Work of laying the big 20-inch water main from the lake to Blodgett for which the A. J. Newman Co., has the contract, is progressing rapidly, the vicinity of St. Johns and Central avenue having been reached this morning. East of Sheridan road where Central avenue has a double roadway the pipe is laid in the middle parkway so as not to disturb the street and care is taken not to damage trees or roots. From Sheridan road west the pipe will be laid about 8 feet south of the center of Central avenue. The back fill is being made with sand so that the pavement may be left in excellent condition.

The actual work is being done by the Highways Construction Co., a local firm and Highland Park is fortunate in having a home concern which does this work in so efficient a manner. The Highways Construction Co. also has contract to put in sewer and water in the Hield subdivision west of South Green Bay road, on the old Hessler farm, preparatory to paving, which also will be done by this company.

Ask the women who have the Greater Hoover what they think of it. They will tell you that its exclusive principle "Positive Agitation," frees their floor coverings of all dirt even the deeply-buried, destructive, "unreachable" grit. See this amazing cleaner demonstrated. Only \$6.25 down, complete with dusting tools.

In addition to our regular line of service, which you already know, our business includes local and long distance piano and furniture moving, packing and freight forwarding, clean and sanitary storage of household goods, electrically protected burglar-proof vaults for silver, special accommodations for musical instruments, moth repellent rug rooms, scientific extermination of moths from upholstered furniture and rugs.

We Have It! The Goodyear All-Weather Balloon

Goodyear's scientifically designed All-Weather tread matches the Goodyear Balloon Carcass (made of SUPERTWIST cord.)

Long, slow, even tread wear is assured as opposed to the "cupping" and uneven wear so noticeable in many other Balloon Tires.

It is scientifically designed for Balloon Tire use.

And with these advantages of traction, non-skid and long wear, this tread is perfectly quiet and does not produce vibration.

The sharp-edged diamond-shaped blocks are placed in a semi-flat design. They grip the road, they retain their usefulness longer than any non-skid tread offered heretofore.

Let us show you this tire. We have YOUR size.
