CONNECT MILWAUKEE AND WAUKEGAN PLANTS

Completion of the 132,000 volt, Waukegan to Wisconsin electrical interconnection, whereby the Lakeside generating station of the Milwaukee Electric Railway and Light company is tied in with the Waukegan generating station of the Public Service Company of Northern Illinois, is being widely regarded as one of the most outstanding and significant recent developments of the electric light and power industry in the middle west.

Although the cost of the project has amounted to several hundred thousand dollars, the estimated cost of providing reserve generating capacity to equal the amount of electrical energy that may be interchanged over the new transmission line would be approximately 10 times the cost of the line.

NO CRIMINAL CASE AGAINST KANSAS BANK

State's Attorney Believes That Civil Action Only Will Be Prosecuted

If criminal action is to be taken against the First National Bank in Eureka, Kan., in connection with the Lake county funds shortage, it will not be taken by States Attorney Smith. He stated last week that the civil suit, as far as he knew, would be the only action and that if the states attorney at Eureka was called upon to act it would not be through him but through the defendants.

There had been reports that there might be a request on the part of Col. Smith of the Kansas prosecutor to charge the bank with concealing assets. Copies of certificates of deposit show that \$100,000 was sent to Eureka, according to the prosecutor, but that only \$100 was shown deposited to the credit of Treasurer Roy Bracher.

Justice Hervey Coulson continued the arrangements of four defendants, Bracher, Ira Pearsall, ex-treasurer, Harold Martin, formerly vice-president of the defunct Security Savings bank, and Caleb Busick, Winnetka, oil stock promoter, when they came up for hearing Saturday.

All but Martin, it is understood, were willing to waive preliminary hearing. Martin, through his attorneys, had stated that he would contest. He took the position, in the face of direct accusations by Bracher, that he had not been responsible for the transfer of the \$100,000 to the bank in Eureka.

COLLECT GAS TAX IN COUNTY AUG. 1

EXPECT \$100,000 AS SHARE

Two Cents a Gallon Prescribed by Bill Signed by Governor County to Get Half of Revenue

The gas tax measure, recently passed by the state assembly and approved by Gov. Len Small, will be collectable in Lake county starting Aug. 1 when the measure becomes a law throughout the state. It was passed for the purpose of completing the state system of hard roads and proponents of the bill argued that it would shorten the speed of construction by ten years at the least.

The members of the board of supervisors who voted for the tax of two cents on the gallon to all purchasers buying for automobiles argued that it would bring \$100,000 annually to the county for road building purposes. That would construct about three and a half miles of seven inch concrete 18 feet wide.

With the gas tax he has visions of shaving ten years off this program as the state highway department can and has been building about 1,000 miles of road a year. Wisconsin, which is pressing Illinois for the lead, only constructed 400 miles a year.

CIRCUS OPENING AT GRANT PARK, JULY 16

Yep, youngsters, it's really true! Meaning that a rumor heard some time ago is now confirmed by the official announcement that the Ringling Bros. and Barnum & Bailey Combined Shows will positively exhibit at GRANT PARK, 7th STREET ENTRANCE, Chicago, 9 days (twice daily), beginning matinee, Saturday, JULY 16.

At that time the world's first and only five-ring circus will be within easy reach of local sawdust fans. With it will come the only genuine white elephant ever brought to America. He is "Pawah," the world-famed sacred white pachyderm from Burma, who will be the foremost feature of a menagerie composed of more than a thousand animals.

The big show is now a third larger than it was when it last visited this locality. Enormous new displays have been introduced such as ninety zebras, camels and horses performing at one time on a mammoth pedestal. On a similar series of circular raised platforms thirty-two of the show's forty three elephants dance, run and perform in unison with the topmost of the ponderous actors twenty feet above the ground.

Of the sixteen hundred people carried on tour this season more than eight hundred are the world's foremost aerialists, bareback riders, ground and lofty gymnasts, high-wire artists and super athletes. These are now seen in extensive groups and troupes each display led by its particular champion, a new method of presentation that is in keeping with the Ringling Bros. and Barnum & Bailey 1927 plan of extending acts in equal number over the entire length of the mammoth main tent.

Mayor Walker of New York City says he would rather live in a crowded tenement district than in the great out of doors. It is to be noted, however, that Mr. Walker isn't living there.
