W. E. Hardin, Secretary of the Libertyville-Mundelein Chamber of Commerce, in a recent letter to the North Shore Line, said: "I was formerly located at Clinton, Illinois, and occasionally was fortunate enough to receive your Bulletin, which was read with interest. I especially noted your loyalty to communities touched by the North Shore Line. This alone is a great asset to any community, but coupled with your splendid train service, it's a combination that can't be beat. This is proved by the growth of Libertyville. I understand that its population has grown about 1,200 since your Skokie Valley line opened last year. This is remarkable and your line must take full credit for it."

Great tracts of Nature that will always be as Nature made them—along the beautiful

SKOKIE VALLEY

FOUR forest preserves, totalling nearly 2,000 acres, are located along the picturesque Skokie Valley. They will always be there to provide freedom, recreational facilities, and natural beauty.

The newer North Shore already is taking form, relieving the older, more crowded areas. Modern home conveniences are already at hand.

If you have friends who are looking northward for home sites, tell them about "the newer North Shore", the beautiful Skokie Valley.

Forest preserves—golf courses—fine private estates—all of these add to the attractiveness of the Skokie Valley as a place to live. Until recently, owing to lack of transportation, the Skokie Valley was available only to the few. But now, thanks to the new Skokie Valley Route of the North Shore Line, it may be enjoyed by the many.
