

BETTER AMERICAN HOMES EXPOSITION OPENS OCTOBER 12

(Continued from page one)

also will be a delightful tea room where luncheons and light refreshments may be had.

Opens at Noon Daily The exposition is to open at noon each day and continue until ten o'clock p. m. A musical program of note has been arranged for each evening of the exhibit by Lyon and Healy, incorporated, of Chicago.

Gifted Pianist

Joseph Brinkman is a gifted pianist, who appeared as soloist with the Chicago Symphony orchestra last season. He gives a fine spirited performance and will appear the first evening, October 12, as will Clara Louise Thurston, harpist, Miss Thurston is a concert harpist and teacher, an artist of exceptional ability, and has appeared many times in leading musical centers of this country.

B. Fred Wise, American tenor, is well known to Highland Park people as he has appeared successfully several times at the Woman's club here, as well as having been heard as soloist in the Apollo Musical club of Chicago. He possesses a lyric voice of rich beautiful quality, with broad range, clear enunciation and fine interpretation.

The third program on October 14, will be shared by Joseph Brinkman and another Chicago artist, Madam Marie Sidenius Zent, soprano. Mrs. Zent is a general favorite throughout this country. She has appeared as soloist with every choral organization of note, and is well known as an exponent of Oratorio and Norwegian song lore.

The complete list of exhibitors is now in hand, and evidences the broad scope of the displays. It is an imposing list of well-known merchants of both Highland Park and Chicago and will immediately interest a public that is concerned with bettering the home equipment. It follows:

Members of this group will be present each day to direct visitors to the exhibits and to serve in every capacity as hostesses. A large attendance is expected.

BLUE TRIANGLE IS ABROAD THIS WEEK

and help at the Y. W. C. A. She quoted an editorial in an Emporia, Kansas, campaign last spring, written by William Allen White, editor of the Emporia Gazette, in which Mr. White asks the question, "To whom belong these 'Y's'?" Answering his question himself by saying: "To the youth" of our community and not to the boards and committees. They are the temples of youth.

Some rousing campaign songs were sung, among one of the best was "Cooperation," words by Mrs. H. A. Babcock. That is what the Y. W. C. A. is asking for just one week. Cooperation by all of the people for your Y. W. C. A.

A luncheon is given each day to the workers and there's a lot of fun along with the good eats. Songs are sung, led by Mrs. Alexander and Mrs. Sanford, Mr. Charles Pardee, pianist. After the luncheon the reports of the captains of each team are given. The team having the most money gets a plant, a Jerusalem cherry, for they are the "berries." The team having the most workers at the luncheon gets a flag. The one making the most calls gets a bell for ringing the most door bells. The team bringing in the least money gets a rake to help them bring in the shekels.

The campaign workers are organized into eight teams, besides the Initial Gift committee. At Wednesday's luncheon seven teams reported \$830.

Campaign Personnel

Initial gift committee (task, 45—\$100 gifts—not in yet)—Chairman, Mrs. W. A. Alexander; Mrs. Frank Pitt, Mrs. Fred Clow, Miss Rebekah Paeck, Mr. George Bard, Mr. Albert Sihler, Mr. Robert W. Patton, Mr. Ralph Bard.

been paid for by accumulated annual tax revenues at an aggregate construction cost of about \$375,000. Two of the plants are in Highland Park and one each in Highwood, Lake Forest, Lake Bluff, North Chicago (under construction) and Waukegan. These plants are all of modern and proven design. There are in general two different types or groups of plants. Those discharging into Lake Michigan comprise settling tanks with apparatus for disinfecting the clarified sewage by liquid chlorine. The purpose of this treatment is to protect the water supplies and bathing beaches and to reduce shore pollution. The plants discharging into the Skokie comprise not only sedimentation but also filtration. The additional filtration is required by the small volume of water in the Skokie ditch as compared to the large volume in Lake Michigan.

The plants at North Chicago and Waukegan are typical of those discharging into the lake. At both plants gravity flow without pumping was possible. The sewage first flows thru coarse screens and grit chambers to remove the heavier solids. The next treatment is in two-story settling tanks of the Imhoff type. The sewage passes slowly through the upper compartment where several hours are allowed for sedimentation. The solid matters settle out into the lower compartment where they are held for about six months to allow amply for digestion. When they are removed from this lower compartment they are placed on drying beds where after several weeks the solids are removed in a relatively dry condition similar to humus or black soil. The effluent from the settling compartment passes into a mixing and contact chamber where it is dosed with liquid chlorine. This treatment kills off the harmful bacteria. The effluent is finally discharged into the lake.

The treatment plant at North Chicago has a capacity for somewhat over 10,000 people. The plant at Waukegan has been designed to serve the Gillette avenue district and has a rated capacity for about 8600 people, depending upon the ultimate disposition of the tannery and other industrial sewages. The plant is located on land owned by the Sanitary district, north and east of the gas plant and there is plenty of room for enlarging the plant to provide capacity for the remainder of Waukegan. Tentative projects have been developed for this additional capacity.

MRS. MARY B. LAKE ADDRESSED W. C. T. U.

At Meeting September 27th; Annual Meeting Held; Officers Elected

There were about forty members and friends of the local W. C. T. U. present at the get-together meeting and tea which they gave on Tuesday, the 27th, at the Y. W. C. A. Mrs. Mary B. Lake, county superintendent of the "Mother's Meetings and White Ribbon Recruits" gave a short talk. Several children of the members present were taken in as "White Ribbon Recruits." Mrs. Lake conducted the ceremonials in connection with this. One of the members, Mrs. Ben Boll, rendered several piano selections.

Miss Conklin, visiting missionary from Utah, spoke about her work there.

The president, Mrs. Flora Gordon, reviewed briefly the work of the union during the past year, following which a social hour was enjoyed.

The regular annual business meeting was held Wednesday, Sept. 28, at the home of Mrs. Harry Thomas of Glenview avenue. The following officers were elected for the ensuing year: Mrs. E. S. Hall, president, Mrs. John Christman, vice president; Mrs. Julia Wendling, secretary, Mrs. Flora Gordon, treasurer and Mrs. C. F. Schriver, corresponding secretary.

The thirty-third annual convention of the Lake County Woman's Christian Temperance Union will be held Wednesday and Thursday, Oct. 12 and 13 at the Chapel Street church, North Chicago. A splendid program has been arranged.

WESTERN DESCRIBES VACATION TRIP EAST

IS INTERESTING ARTICLE

President of North Shore Cemetery Co. and Wife Spend Several Weeks; Writes of Experiences

The vacation period for 1927 is supposed to be closed. Amongst North Shore residents who have taken memorable trips are Mr. and Mrs. John Western of North Shore cemetery. For several years these people have practiced the well known slogan, "See America First." After a stay of three weeks at their summer home in the Inland Lakes region, Michigan, in June, they spent a week touring northern Illinois with the art extension committee of the University of Illinois. A few weeks later their journeys took them eastward from Chicago, to attend the annual meeting of three national organizations, visit cemeteries, nurseries, art galleries and historical places. Their first stop was at Cleveland, where the 41st annual meeting of the Association of American Cemetery managers was in session for four days. Important papers and addresses were listened to during forenoons and evenings while the afternoons were devoted to seeing the cemeteries, parks and notable private gardens in the city. Mr. Western took an active part in the business sessions of the association.

Five hundred twenty cemetery officials from all parts of the country were in attendance.

At Buffalo, Mr. and Mrs. Western attended the annual meeting of the American Bar association, heard Chief Justice Taft make a speech and introduced Lord Chief Justice Stewart of England, who delivered a memorable address to an audience of more than 4,000 people.

A day was spent at Niagara Falls, another at Toronto and then came the interesting boat ride down the St. Lawrence river—amongst the Thousand Islands. It is said that by actual count there are 1,640 islands in the St. Lawrence between Lake Ontario and Montreal. Many of these are occupied as summer homes by people of various degrees of financial affluence. A few York banker took a fancy to one rather small island a few years ago, acquired the same and spent \$250,000 dollars on a summer home and private theater, when his wife died. Immediately the work was stopped, although many thousands of dollars more would be required to finish the work. This mansion of sixty rooms has stood in that unfinished condition and unoccupied ever since.

After a day of sight seeing in Montreal, the next move was to Plattsburg near the northerly end of Lake Champlain. After a blissful night's rest on a large boat tied up at the dock, a ride of 114 miles on this historical lake was enjoyed, then a railroad ride of 15 miles and another boat ride the entire length of Lake George. Both of these lakes have large mountain areas for their frame-

work, the Adirondacks being on the west and the White Mountains to the eastward.

A night was spent at Albany but our North Shore tourists did not take time to call on Governor Al Smith. Instead they boarded the morning boat on the Hudson river for New York. This ride, also, affords an ever-changing panorama of interesting scenery. After a brief stay in New York, Philadelphia was the next stop and from thence Mr. and Mrs. Western proceeded to the meeting of the American Rose society on the largest and luxurious estate of Pierre S. du Pont, located near Kenneth Square, 30 miles from Philadelphia. This society is composed of rose growers and rose lovers from many states. The meeting was held in a large auditorium which forms one wing of an exceptionally large and expensive conservatory. Here Mr. Western was one of the speakers, especially in vigorously defending some of his favorite varieties of roses which have been tried out in North Shore cemetery. Refreshments were served to the entire company by Mr. and Mrs. du Pont and all members present were delighted with the experience of having the meeting in such an imminently place.

A day was spent in visiting the leading and most efficient rose nursery in the United States, located in Pennsylvania, about 40 miles from Philadelphia. A day each was spent in two very large general nurseries. It is the habit of nurserymen to buy supplies from one another and Mr. and Mrs. Western were on the look out for rare varieties or specimens of trees, shrubs, or perennial plants for use in North Shore cemetery or in the landscape work of private Lake county estates which the management of North Shore cemetery is being called on to develop.

A week was spent in Philadelphia while making these visits, also enjoying the museums of art, the noted historical places and Philadelphia's leading cemetery, West Laurel hill. To Mr. Western's surprise he found that this Quaker City place of interment is making sales not infrequently of lots at prices ranging from \$10 to \$23 per square foot, although it is not up to date in its landscape work and has only a limited perpetual care fund as compared with the amount of ground which has been sold in 62 years. Valley Forge and the ground occupied by Washington's army during that memorable winter of 1777 and '78—now a national park—the old government buildings in which the Declaration of Independence was signed, where Washington served as president, and the home of the Liberty Bell, also the home of Betsy Ross where that noted lady made the first American flag in collaboration with General Washington, were other places much enjoyed by our tourists.

The two leading cemeteries of New York City, the New York Botanical gardens, the largest general nursery in New Jersey, General Grant's Tomb, on the Hudson, old Trinity church and St. Paul's chapel on lower Broadway, and the Metropolitan Museum of Art were also visited.

It still has to be proven that knee dresses are any bigger handicap than hoop skirts for the proper rearing of babies.

slightly condition of certain property on the east side of Oakwood avenue, south of Deerfield avenue, was laid on the table. A communication from Carroll Binder with reference to sidewalk on Forest avenue was placed on file. The bill of Charles I. Mansur in the sum of \$46.13 was approved for payment, in accordance with recommendation of the corporation council.

To Discuss Sewer

The city clerk was instructed to arrange a meeting between representatives of the North Shore Sanitary district and Commissioners Brown, Gourley and Zimmer for the purpose of discussing the west side trunk line sewer system.

The report of the water filtration committee was, on motion, accepted and placed on file.

Contract for the construction of a concrete sidewalk on the north side of Sheridan road, between Deere Park and Lambert Tree avenue was awarded to Peter Ugolini, in accordance with his bid reported last week.

To Preserve Trees

A motion was passed to instruct the engineers to vary the lines of the sidewalk on Linden avenue, between Lincoln avenue and Forest avenue, in order to avoid trees, in accordance with request of property owners.

The board took recess during the session and met as board of local improvements, and following the board meeting, the council reconvened and the board then submitted the ordinances providing for water mains in the sections previously mentioned, and the ordinances as read were ordered placed on file for public inspection until final passage.

ITALIAN PLAY GIVEN SUNDAY A SUCCESS

The Italian drama given by the Highwood Dramatic club on Sunday evening proved a great success. Proceeds will benefit Mr. Alfonso Burgone of Highwood, and Mrs. Bara, a widow, of Benld, Ill.

We wish to thank Mr. Smith, the principal of the Elm Place school for the kindness extended to us and the great co-operation of the public.

Drugs Only WHEW!!

The other night I had a nightmare! Woke up in a cold sweat just as I was entering the poor house! Gosh, what a dream!

It seemed that a set of these reformers (this is the dream) had had a law passed that PROHIBITED a druggist from selling anything but drugs in his store!!! And all night long in my dreams I was trying to make a living in this store of mine SELLING DRUGS ONLY. Do you wonder why it was a nightmare? I been whistling ever since I WOKE UP—I'm so glad it isn't so!

Just run your mind over the scores of things you get here in this store that aren't labelled "drugs!" Why, I'd only have a couple dozen people a day trickle in here if drugs was all they could get—Am I right?

As it is NOW, every member of a family is MY customer, day and night! And wouldn't I be in tuff luck during Xmas, New Year's, Mother's Day, Easter and Fourth of July!

Think of this store without TOILETRIES! Without CANDY, CIGARS and RUBBER GOODS! Without STATIONERY, ELECTRIC CURLERS, STAMPS and TELEPHONE SLUGS! Wotta Life! Wotta Life!

Do you wonder I nearly got in that Poor house?

MELVIN D. SWEETLAND.

Shorty Says:

Sweetland hasn't anything on ME! He's not the ONLY bird that can have a nightmare! I worked one up the other night but it was the pleasant-est ole boss you EVER met! All night long I lived in a world with no motor cycles, no garlic, no bill-board advertising, no drug stores, fountain pens, bobbed hair, Charleston, wet weather, or "Folies!"

During my dream, I inquired about Volstead but no one had ever heard of him let alone know how he was getting along!

And there were NO FORDS TO BE SEEN AT ANY PRICE! And NO ONE ever heard of HOUSECLEANING!

Prescriptions!

The most interesting part of our business to US is the "Prescription Department." While we ENJOY handling the great variety of items that go to make up the stock of the Modern Drug Store, we take a REAL PRIDE in compounding the carefully selected list of chemicals headed "RX" given us by your Doctor. Remember this!

Murderer Goes Scot Free!

"The jury decided that he had killed the man while temporarily insane! The murdered man had luffed at the defendant on account of his funny strut due to a mean corn and had then deliberately KICKED the corn of the defendant! The murder resulted!" Our Steapsy Corn Cure would have saved a lot of trouble in a case like this.

Wimmen! About Face!

Don't Read This!

"Breezy" is a new shaving cream getting its name from the sensation your face has AFTER shaving. NO lather, NO cup, NO brush, NO soap.—Just spread on, wait a minute, wet your razor, apply same to beard and move out of the bathroom enjoying the same feeling on your cheeks you'd have if you were on an ocean liner. This is GREAT STUFF!
