# Oil Heat—Insures Comfort Cleanliness and Health

## Come and see this simple Automatic Oil Burner

You know the advantages of clean oil heat over the dirt and drudgery of the coal pile. You know that an oil burner in your basement will solve your heating problem for once and for all—add several rooms to your home—and give your family a chance to breathe fresh clean air free from dust and soot.

Now—take this first step towards modernizing your home. See the McIlvaine Oil Burner in actual operation. Without obligation, have explained to you the many features found in no other oil burner. By all means visit our showroom and inspect this fine burner now on public exhibition. Be sure to take advantage of this opportunity.

In the McIlvaine, the flame burns constantly—moderately. It automatically keeps an even temperature in your living rooms at all times. Tests at the Armour Institute of Technology showed the continuous flame delivered more heat per gallon of oil than the intermittent flame.

No gas pilot in the McIlvaine—no electric ignition. A noiseless, motor-driven unit supplies regulated feed of air and oil. All these features are described in our free booklet. When you come in to see the McIlvaine Burner in operation ask for your copy. It tells you what you want to know about oil burners.

## Wright's FRENCH DRESSING

How unusual a gelatine salad can be when served with Wright's French Dressing! Chopped fruit congealed with gelatine, molded in an attractive form, placed on a lettuce leaf, garnished with sliced orange or pear, and then covered with Wright's French Dressing.

Here is a salad that will compliment any meal!
