## EXPOSITION PROVES SPLENDID SUCCESS

### AUSPICES WOMAN'S CLUB

#### President of Club Entertains Distinguished Guests at Luncheon; Notable Features

At the Highland Park Woman's club, in the tea room of the Better American Homes exposition, last Friday noon, Mrs. Raymond W. Stevens, president of the club entertained at luncheon the following distinguished guests: Mrs. Goodwin, past president of the Illinois Federation of Woman's clubs; Mrs. William F. Marrell, first vice president of the I. W. O. C., who is also past president of the Tenth district I. F. W. C.; Mrs. Farrell's son's wife, Mrs. H. K. Farrell, and Mrs. F. E. Andrews of Chicago; Mrs. Snodgrass of Kansas City, and her sister, Mrs. J. L. Lane, of Glencoe, and the chairman of the various committees connected with the exposition: Mrs. J. B. Garnett, chairman of the exposition, Misses Robert Seyfarth and W. F. Shipnes, past presidents of the Highland Park Woman's club, (the latter chairman of the publicity); Mrs. George Edison Bliss and Mrs. Carl G. Bingham.

**Mechanical Dish Washing**  
The Conover company washed all of the dishes used at the exposition and the women were all very much pleased with the work turned out, and appreciated the assistance that this porcelain-lined dish washer was to them. Last year five women were employed to wash the tea room dishes which over crowded the kitchen. This year but one woman was necessary, and the Conover company paid for the services of two women, who worked in shifts. The water used was hotter than could be used if the dishes were washed by hand, and a more sanitary job was done, for the machine also dried the dishes.

**Beautiful Exhibit**  
One beautiful exhibit omitted in the description of last week, was that of the Forge and the Anvil, that of C. G. Everson and company, 215 North Dearborn st., just off of Wacker drive.

Under the direction of Mr. Bert E. Vernard, this booth had artistic articles in wrought iron and bronze. The increasing appreciation of the artistry of the skilled blacksmith is of importance to architects and decorators. The dependable group of craftsmen is employed, ready to produce the details of plans requiring artistic wrought iron. Fire tools, fire

### EXTEND TIME OF VOTE ON GLENCOE THEATRE

#### Results So Far Greatly in Favor of Movie House in That Community

Notwithstanding the fact that the post card vote authorized by the village board of Glencoe a few weeks ago for the purpose of obtaining an expression of the citizens of Glencoe on the matter of issuing a permit for the erection of a movie house, and on the question of Sunday movies in the village, resulted overwhelmingly in favor of both propositions, the village board last week extended the time for receiving votes on these questions until noon, October 27.

The vote which closed at noon last Wednesday, resulted in a poll of 1,241 votes in favor of movies to only 253 against them, while the Sunday shows received a vote of 940 in their favor and 554 against them.

The total number of votes polled on the proposition was 1,494. The total vote cast at the village election last April was only 1,777.

### QUARANTINE RAISED ON GLENCOE SCHOOL

The third grade pupils of the Central school, Glencoe, who were quarantined following the death of Donald Hall of infantile paralysis, resumed their class work last Thursday it was announced at the school. A close watch kept by the health and school authorities has failed to bring to light any indication of further cases and it was agreed by state and village health authorities that the pupils should be allowed to return to school.

### REV. DR. SHANNON TO SPEAK AT GLENCOE

The first service of the Sunday Evening club of Glencoe, which meets at the North Shore Methodist Episcopal church, corner of Greenleaf and Hazel avenues, will be on October 20, at 8 o'clock. Dr. Frederick F. Shannon of Central church, Chicago, will speak. Dr. Shannon is reputed to be one of the foremost platform men in America. About two years ago he was voted one of the twenty-five leading preachers in America. His topic will be "The Soul of America."

### FRIENDS URGING SMITH TO RUN FOR 3RD TERM

#### State's Attorney May Be Induced to Be Candidate to Succeed Himself, Belief

With a county election less than a year away, public officials and those who aspire to public office, have started discussing possibilities, probable developments and changes that the next few months may bring in the political drama of the county.

One prediction that has been made by those high in the Republican ranks is that State's Attorney Smith may withdraw from the field of aspirants to the attorney generalship of the state and seek a third term as state's attorney of Lake county, says the Waukegan Sun.

Their prediction is based on the known fact that countless friends of the prosecutor have beseeched him to seek a third term, not rather than enter the statewide scramble.

Col. Smith has been silent on whatever he might do. Chicago has looked with unusual kindness on his proposed candidacy and the press of that city, with the exception of the lone democratic paper, has spoken of him highly through editorial columns.

On the other hand he has had to face friends and neighbors with whom he has lived all his life, who ask him to turn aside prospects of a state office and become state's attorney of Lake county again.

His nomination and election to his present office is considered a certainty.

Col. Smith has refused repeatedly to make any comment on his ambitions. He has enjoyed, it is known, his office here and is the type of a man who seeks to be among old friends rather than hunting new.

### GLENCOE GOLF CLUB OPENS ITS NEW HOME

The Glencoe Golf club on Wednesday of last week, formally opened their new club house.

The completion of the first wing of the building, which later will be further extended to meet the growing needs of the club, marks an important epoch in its history, and as such, was appropriately observed.

The first annual fall tournament was held at this time. It was a men's invitation event, with prizes in the various events.

A luncheon was served at noon and a dinner in the evening, at which time the prize winners were announced by William Edwards, president of the board of directors, who also presented the several prizes to the successful contestants.

### OPEN NEW AIRPLANE FIELD, GREAT LAKES

Formal opening of the new airplane landing field at the Great Lakes Naval Training station occurred last Thursday afternoon when Lt. Com. E. L. Johnson of the station flew a Waco land plane there from Milwaukee in a seaplane.

Work of getting the field in shape was started in July and has just been completed.

The field, which is in charge of Frank Yuhase, chief machinist mate, was established primarily for the benefit of the naval reserves. Some of the sea planes at the station will be equipped with landing gear, and will be used in the work of instruction.

The field, however, is expected to serve still another purpose as it will provide an emergency landing field for any planes that may be in distress and be obliged to make a forced landing.

It was expected that a plane would arrive at the new field from the reserve station at Detroit, Mich. Certain repairs are to be made on it.

### PAVED ROAD OPENED THROUGH ANTIOCH

The road connecting Grand avenue, Waukegan, and the Geneva road through Lake Villa, Antioch, Salem and Brass Ball Corners has been paved throughout the Wisconsin length and is open for travel to persons going into Wisconsin, according to the Waukegan branch of the Chicago Motor club. The road was closed most of the summer while it was being paved in Wisconsin. This now offers pavement all the way from Waukegan to Madison, Wis., except the bad crossing break near Lake Villa.

### GLENCOE MASONS TO HAVE ANNIVERSARY

On Tuesday, October 25, Glencoe Masonic lodge will celebrate its twelfth anniversary with a dinner and entertainment. The hour is set for 7:30 p. m., at the Lodge hall, Louis L. Emerson, Illinois Secretary of State, who was installed as Grand Master of the Grand Lodge of Illinois on October 13, has consented to make the address of the evening. Masons of Glencoe will welcome this unusual opportunity to greet the Grand Master, and to hear what will probably be his first Masonic address as head of Illinois Masons.

### GOOD PROSPECT FOR N. S. THEATRE GUILD

#### TICKET SALE IS LARGE

#### Expect Successful Season; Four Plays to Be Given; Glencoe Added to Towns Having Performances

Early reports from the local chairmen of ticket committees in the various suburbs indicate that this will be a season of packed houses for the North Shore Theater guild.

In each north shore town, plans are now being made for the 1927-28 season. Resident chairmen are busy renewing old memberships and soliciting new ones. The campaign is to last until the first play starts on November 8. It is expected that by that time the total membership will have been filled.

**Glencoe Now on List**  
Glencoe has been added to the list of towns in which the Guild plays will be presented this season. One performance will be given there in the Central School auditorium.

An unusually varied and interesting program of plays has been planned. As in the past, selections will be from plays not previously produced on the professional stage in Chicago. David Owen, the new guild director, who replaces Alexander Dean, has under consideration the suggestion that has often been made to produce a musical show among the others.

**Plan Four Guild Plays**  
There are four Guild plays during the winter, the first of which is now in rehearsal.

This year a new method will be employed in choosing the casts. Early in December north shore papers will announce where and when tryouts will be held. This will include both those who have acted for the guild in the past, and those who have not. These tryouts will not be for the purpose of choosing a cast for a particular play, but simply to help the new director, and the board of directors, line up all the best dramatic material available.

### WAUKEGAN GETS 1928 KIWANIS CONVENTION

Waukegan was selected as the convention site of the Illinois and Eastern Iowa Kiwanis clubs following a spirited fight between that city, Hyde Park and Peoria last week at the annual convention which was held in Champaign.

It is believed that the convention, which is usually held in the early part of October, will bring several thousand people to Waukegan.

The securing of the annual convention was made possible through the endeavors of the officers of the Waukegan club and several of the clubs in the northern Illinois district. That city received the backing of practically every club north of Chicago and with this spirited backing "went over."

There are eighteen clubs in the Illinois and Eastern Iowa district. They are: Libertyville, McHenry, North Central, Lincoln Park, Lake View, North Shore, Rogers Park, Northtown, Evanston, Lake Forest, Chicago, Northwest Town, Logan Square, Ravenswood, Albany Park, Edison Park, Park Ridge and Waukegan.

### ANNUAL MEETING OF LAKE COUNTY W.C.T.U.

Mrs. Mary Metcalf Elected President; Other Officers; Good Convention

Mrs. Mary Metcalf was elected president of the Woman's Christian Temperance Union of Lake county last Thursday afternoon in the closing session of the two day meeting held in the Chapel Street Christian church. Delegates from all the unions in the county were present.

The entire list of officers elected for the ensuing year are as follows: President, Mrs. Mary Metcalf. Vice-president, Mrs. Mae Tibbets. Secretary, Mrs. B. Hagerty. Treasurer, Mrs. Jennie A. Miller. Mrs. Metcalf was elected a delegate to the state convention and Mrs. Mary Lake is alternate.

### SMITH DECIDES TO PROSECUTE BAIRSTOW

State's Attorney A. V. Smith Wednesday announced that George H. Bairstow, former supervisor of Waukegan township, will be prosecuted over \$55,000 of the \$59,000 owed to township.

"The fact that Bairstow has turned over this money does not have any bearing on the pending criminal proceedings," declared State's Attorney Smith. "Bairstow was named defendant in a true bill returned by the grand jury, on a charge of withholding township funds and he is to be tried at as early a date as possible."

### NORTH SHORE LINE OPENS NEW BUREAU

#### OWN YOUR OWN HOME PLAN

#### Public Service and Other Companies Co-operating; Will Furnish Information to Public

A new free public service has been inaugurated by the Chicago North Shore and Milwaukee railroad—the North Shore line—for the benefit of persons of average means and the communities it serves, with the opening of an Own Your Own Home bureau at 72 West Adams street, in the heart of the Chicago loop. Co-operating with the North Shore line in this new enterprise is the Public Service Company of Northern Illinois, serving the territory surrounding Chicago with electric light and power, and the Commonwealth Edison company and the Peoples Gas Light and Coke company.

The purpose of the Own Your Own Home bureau is to gather, compile and disseminate information in regard to home location, planning and financing in the territory within a radius of 75 miles of Chicago. Through educating the home-seeking public regarding the factors pertinent to purchasing or building a home, the bureau hopes to foster home ownership and community development.

Extensive information relative to the region has been assembled. This covers geographic and climatic conditions, distribution of population, the particular advantages which the various communities offer prospective residents, transportation and other public utility facilities and data pertinent to building and financing a home.

This information is at the disposal of individuals, real estate men, architects, builders and community organizations. The bureau is co-operating directly with all the various agencies having to do with the upbuilding of the area. However, its activities are confined to those organizations dealing strictly in homes—meaning dwellings occupied by a single family or two-flat buildings—and its services are wholly for the purpose of assisting those who would become home owners.

"In the region served by the North Shore line there are many localities from which to choose in selecting the location for a home," said Ernest J. Teberg, an expert engineer, who has been assigned to direct the bureau. "Distances to employment in minutes, climate, character of people, schools, churches and utilities are important factors."

"There are many things to consider when selecting the site for a home after determining the locality in which one wishes to establish a residence. Among these are electric and gas service, water and sewer facilities, distance to transportation and the probable future of the neighborhood. It is the aim of the Own Your Own Home bureau to give enquirers correct information on all these subjects so that they may avoid the inconveniences and extra expenses which improper selection of a home site entails."

### WAR CANNONS PLACED IN WINNETKA PARKS

#### Several Received From Government to Be Permanently Located

The large cannons received by Winnetka Post No. 10, American Legion a year ago and which have since been stored in the village yards awaiting arrangements for their permanent placement, are soon to be mounted as silent, yet forceful reminders of the World war in which so many Winnetka young men participated and in which a number gave their lives.

Final arrangements have been completed between Winnetka Post, the village council and the park board, whereby one of the cannons will be placed on the Village Commons; one in Lake Front park and one in Skokie Playfield. They will be mounted on concrete bases and it is planned to have them in position before Armistice day, November 11.

### OPEN LIBERTYVILLE HOSPITAL IN SPRING

The new Elizabeth Condell hospital in Libertyville will not be completed and in operation until next spring, it was announced by Dr. J. L. Taylor, members of the board of trustees of the institution, recently. It was generally thought that the hospital would be in operation this fall.

He stated today that the walls of the hospital were in place but that the large amount of interior work that is to be completed and the gathering of equipment will be a huge and time taking task.

When completed the structure will represent an expenditure of \$150,000 and fulfill a dream that has been cherished by Libertyville residents for the past five years or more.
